- ARM CORTEX-M33150MHz + 128M SRAM
- Plastic outer frame
- External 5-pin wire (for connecting to CYC controller)
- Bluetooth BLE 5.0 (for mobile APP)
- ANT+ (Connect to Heart rate sensor)
- 6-axis gyroscope, accelerometer
- Battery up to 9months for Tracking device (only apple user)
- Excellent outdoor design with IP67 water resistance
- Wireless firmware upgradeable via mobile app

## JOYCON

- IP67 water resistance
- Three buttons, easy to operate
- Plastic outer frame

## MOBILE INTERFACE

CYC Ride Control is the official mobile app paired with the CYC Gen 3 technology and is there for you to customise your ride the way you'd like! With advanced features, you can adjust your performance, sensitivity, power, torque, and peripherals. Pair the Ride Control app with an X-Series controller and it gives you the ultimate freedom to ride your way.
