

Infinity Tools Drill Press Fence

Part # DPF-200

Congratulations on purchasing your new Infinity Tools Pro Drill Press Fence, the DPF-200. This fence offers reliable registration on your drill press, with integral dust collection. It is fully ambidextrous, letting you install the dust port on either end to best suit your needs. This fence is designed to work with any drill press table that has standard T-Track installed, and at any spacing along the length of the fence.
