Assembly Instructions

1

Install the rotating collar onto the top pole.

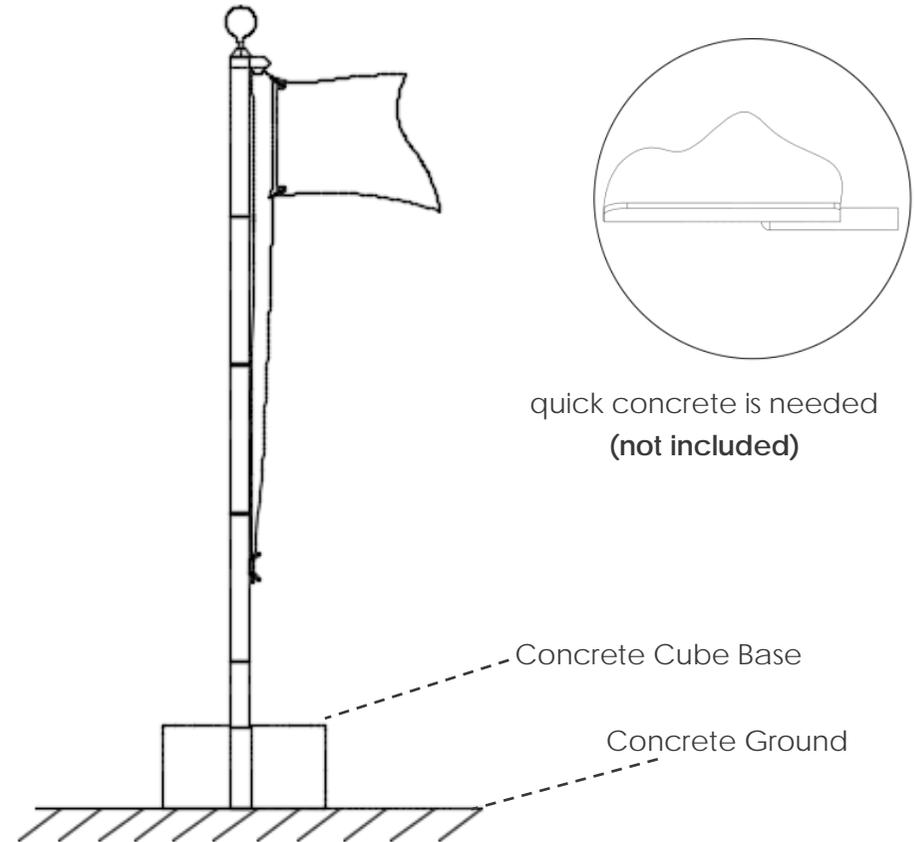

2

Install the golden ball onto the rotating collar.

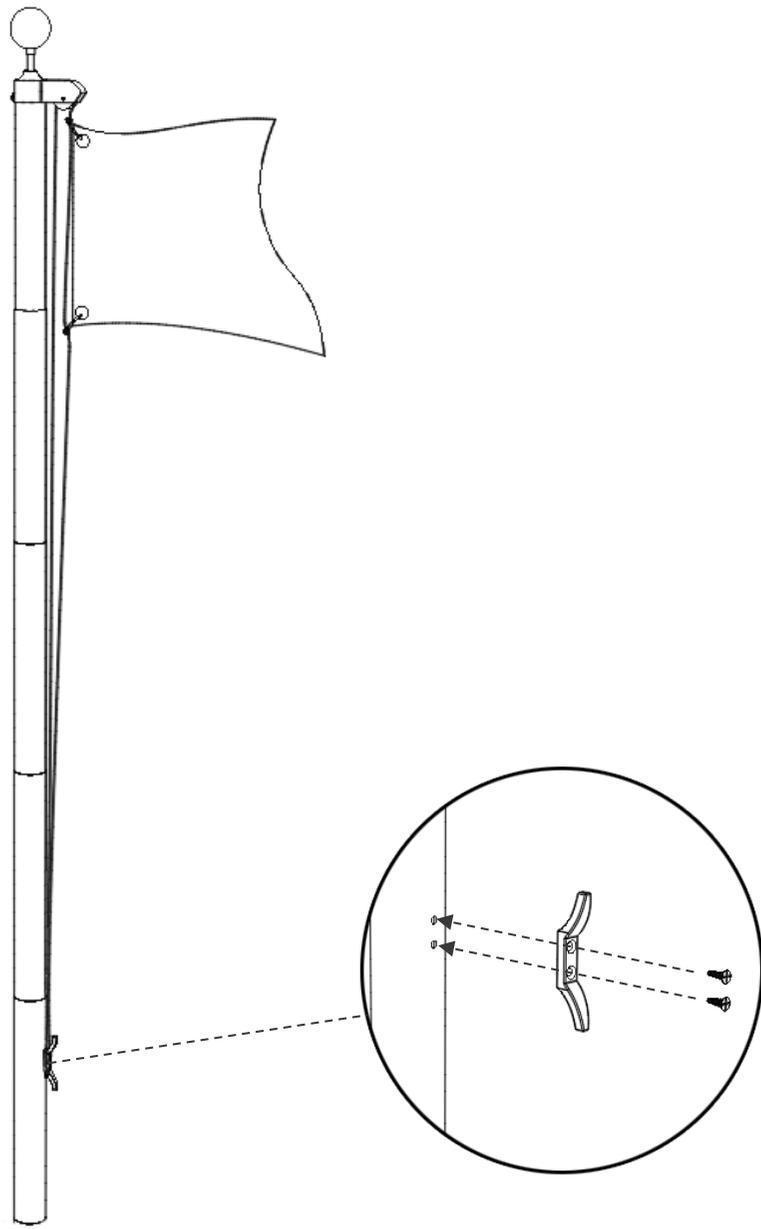

Scenarios of Setting up the Flag Pole

Scenario 1

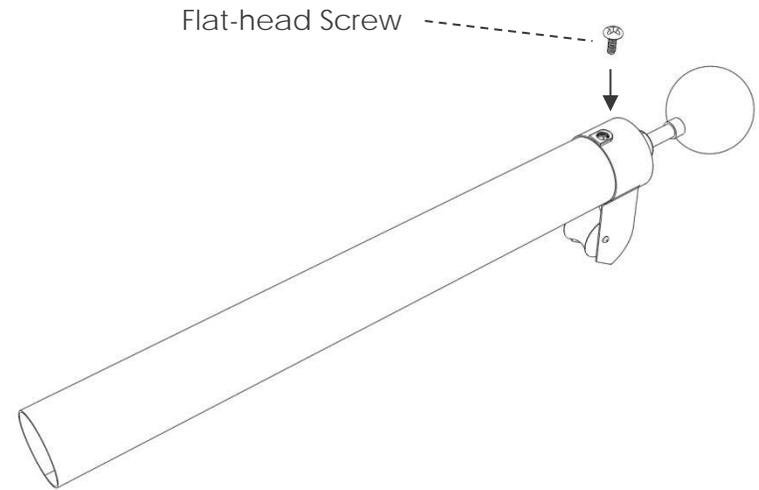

You can use quick concrete to form a concrete cube base to secure up the flag pole. **(Customer needs to buy quick concrete additionally.)**

8

Use two screws to install the rope winder onto the pole. Bind the two ends of the rope together. After that, wind the rope on the rope winder.

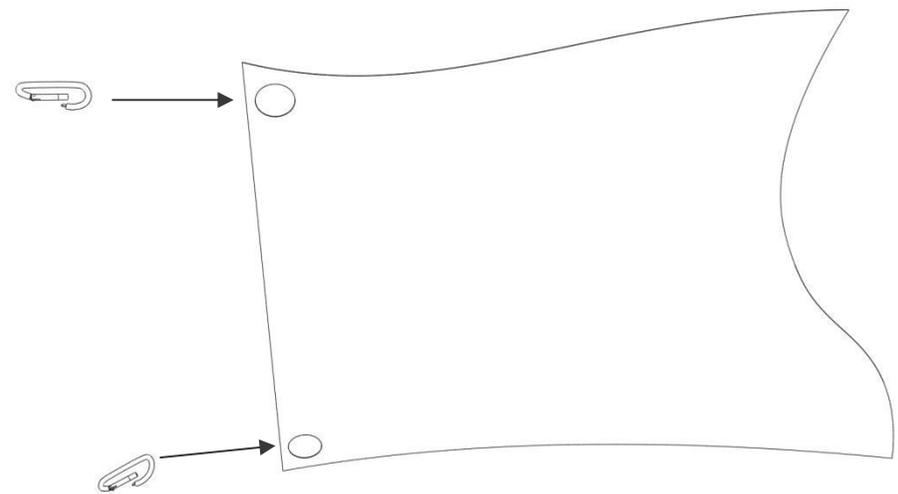

3

Flat-head Screw

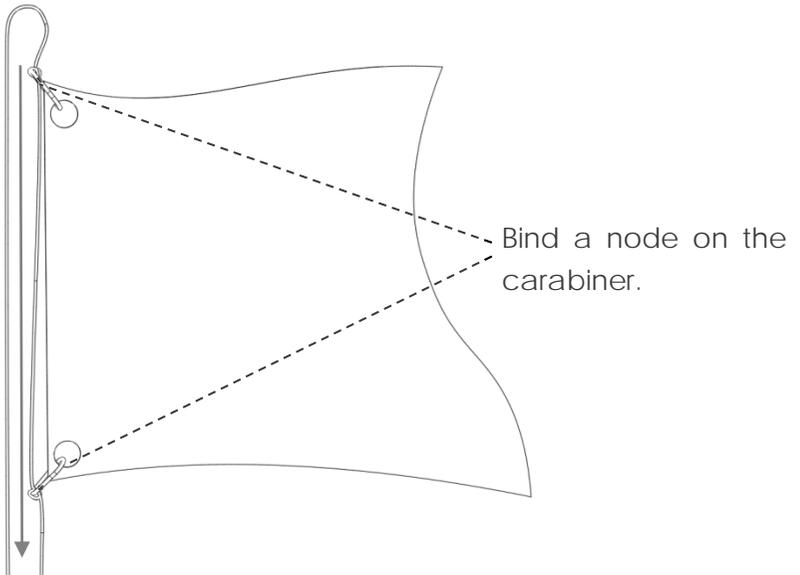

Use the flat-head screw to secure the rotating collar.

4

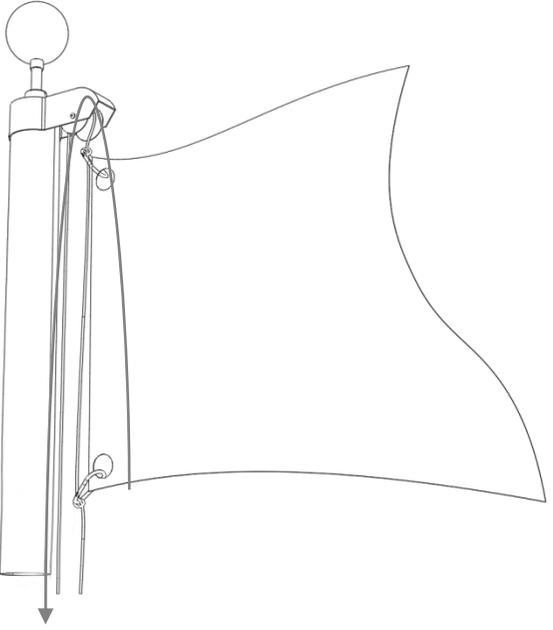

Hook two carabiners to the corresponding holes on the flag.

5

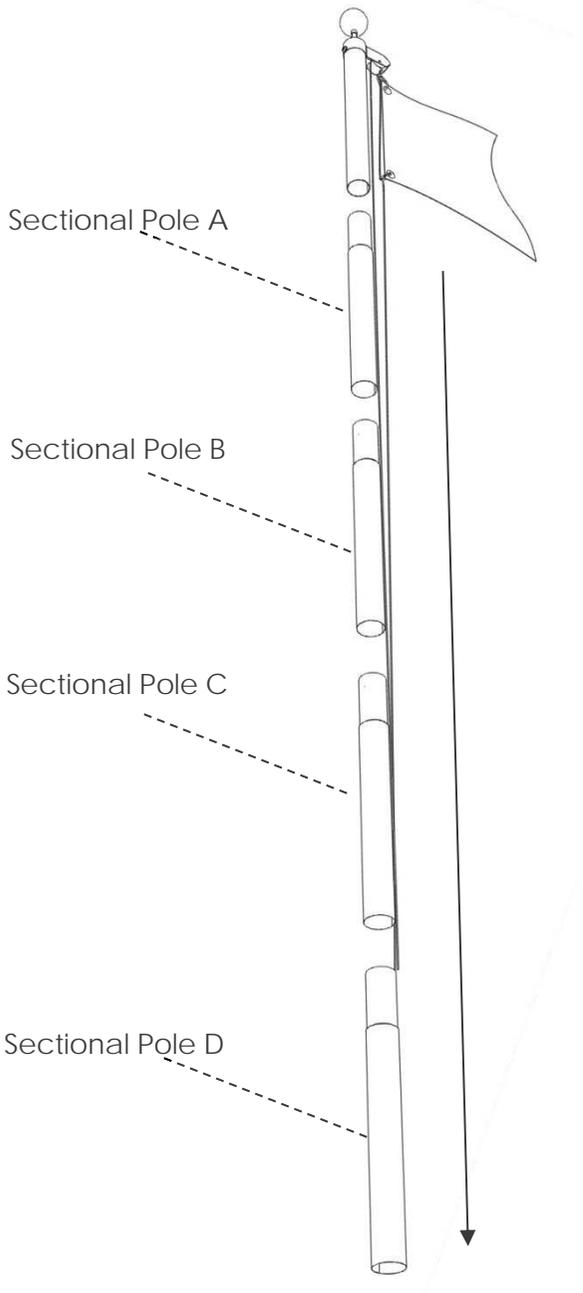

Thread the rope through the carabiners. Each time it go through a carabiner, bind a node on the carabiner.

6

7

Connect the sectional poles together as shown above.
