# Adventure Awaits

## Congratulations on your new TAXA!

We hope you go somewhere we have never been (and tell us about it)!

*We want you to go on adventures.*

*We want to make the RV go away.*

*How about AV (adventure vehicle)?*

*How about PTV (personal transformation vehicle)?*

That is why we designed it the way we did. Who knew ceilings could be so useful? Please have a great time. Please support our nation's park systems. It takes work to keep things wild. Please take what you need and leave nothing behind! Keep everyone else's adventures pristine. Please be safe!

It is important that you thoroughly review this Owner's Manual. Please also consult it anytime you have a question regarding the use, operation, and maintenance of your trailer, and its systems and components. Your trailer has multiple systems, parts, and components, and understanding how they work is an important part of having a fun, safe travel experience.

We want your first and every adventure to be great. Have a practice session in your driveway.

Hitch that trailer up and drive it around the block. Get comfortable. Ask questions! Get answers to any questions, issues, or problems that arise during your practice, and call us when you need help.

Garrett Finney

TAXA Founder

# 01 HABITAT OVERVIEW

## Standard vs Overland

All TAXA habitats come in *Standard* or *Overland* editions. The key differences of the *Overland* edition are:

- Axeless Suspension
- Enhanced Stabilizer Jacks
- Upgraded Wheels + Tires
- Articulating Lock N' Roll Hitch

# 02 TOWING

Pulling a trailer for the first time can be daunting, but one of the stand-out features of all TAXA habitats is their ease of towing. We've prepped a complete guide to help set you up for success as you seek adventure with your habitat. Download our TOWING GUIDE to get started.

## Opening + Latching Roof

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

# 04 POWER SYSTEMS

## Batteries

The 12V system in TAXA habitats fully supports all electrical components in the habitat including your LED lighting, 12-volt, and USB-powered appliances, water pump, the controller for the furnace and hot water heater, and an optional electric fridge/cooler.

## Charging Options

### Shore Power

Shore power refers to plugging into a power source from land. Shore power will supply power to the habitat in lieu of batteries while still maintaining and charging them.

### Solar Power

All TAXA habitats come pre-wired for solar. Utilizing an SAE solar input, solar panels extend the life of your batteries while off-grid.

### 7 Pin / Tow Vehicle

When your tow vehicle is turned on and connected, and the battery cut-off switch inside the habitat is in the ON position, your battery will pull a charge from the tow vehicle.

### Generator

Generators can extend your off-grid camping where your battery may not be enough, or your power needs are greater.

# 05 HEATING + WATER SYSTEMS

## Truma Combi Eco 🔥

Mantis & Cricket are both equipped with the *Truma Combi Eco*, which acts as a furnace and hot water heater, enabling extra comfort during the colder months. Click the button below for an overview of the Truma system.

[OPERATING THE TRUMA ECO COMBI](#)

## Water Systems 💧

Both Mantis & Cricket include interior plumbing and onboard water storage, respectively holding 20 and 15 gallons. To keep your system in the best shape possible, it's encouraged to sanitize it regularly. Hit the button below to learn how to sanitize your water system.

# HITTING THE ROAD

## Camp Packing List

Finally ready to hit the road? We've made a comprehensive list of items to consider when making your personal packing list!

Remember that over time you'll dial in your ideal set of items for your adventures, so don't stress if you bring too much or too little on your maiden voyage. It's all about the journey! Check out our *Camp Packing List* by clicking the button below.

## ADVENTURE TOGETHER

We're on a mission to transform the way we live, learn and play OUTSIDE! The TAXA Adventure Together Team will provide answers to all your questions about what you should expect as a TAXA Adventurer: how to prepare to pick up your TAXA Habitat, the gear we love and recommend for you to get started, and how to use all the awesome equipment inside your TAXA. We'll even be your on-call, expert friend during your first road trip (in the rare case anything comes up that you want to chat through)!
