

## **MATERIAL SAFETY DATA SHEET**

YELLOW/ JAUNE IRON OXIDE COSMETIQUE – Cosmetic Pigment

### **SECTION 1: Identification of the substance/mixture and of the company/undertaking**

#### **1.1. Product Identifier**

Product Name: Yellow Iron Oxide Cosmetic Pigment

#### **1.2. Relevant identified uses of the substance or mixture and uses advised against**

Use of the Substance/Preparation: Colouring Substance / Pigment for Cosmetics.

#### **1.3. Details of the Supplier of the Safety Data Sheet**

Company: Matières & Couleurs| Color Rare 19 rue Pablo Neruda 33140 VILLENAVE D'ORNON FRANCE

Tel/Fax: +33 5 56 52 04 88 / +33 5 56 51 39 32

Email: [33@colorare.fr](mailto:33@colorare.fr)

#### **1.4. Emergency Telephone No.:**

France ORFILA (INRS): +33 1 45 42 59 59

Canada Contact your local Provincial Poison Centre or 911

<http://www.capcc.ca/> Ontario: 1-800-268-9017

Quebec: 1-800-463-5060

USA American Association of Poison Control Centers 1-800-222-1222

<http://www.aapcc.org/>

### **SECTION 2: Hazards Identification**

NOT NECESSARY

#### **2.1. Classification of the substance or mixture**

Classification according to EC Regulation 1272/2008:

This product does not require classification and labelling as hazardous according to CLP/GHS.

Classification according to EC Regulation No. 67/548 or No. 1999/45: The material is not subject to classification according to EC lists.

---

## SECTION 3: Composition/Information on Ingredients

Hazardous Ingredients: NONE (Natural colorant, organic pigment)

Chemical name: iron (III) oxidehydrate / hydrated ferric oxide

Chemical formula: FeO (OH). H<sub>2</sub>O

COLOR INDEX : Pigment Yellow 42 & 43

Constitution No.: 77492

EINECS#: 257-098-5

CASENO.: 51274-00-1

REACH Registration No.: 01-2119457554-33-0017

---

## SECTION 4: First-Aid Measures

General information: Avoid creation of dust particles. Remove contaminated clothing and wash before reuse.

After inhalation: Take affected person to fresh air. In case of respiratory arrest, provide artificial respiration and call 911.

After skin contact: Wash affected skin with soap and rinse with plenty of water. Do not use solvents. If irritation persists, consult a dermatologist.

After eye contact: Remove contact lenses, if required. Flush eyes with plenty of water for 15 minutes. In case of discomfort seek medical help.

After ingestion: If swallowed, rinse mouth with plenty of water and give water to drink. Do not induce vomiting and call the poison control centre for medical advice. This product is non-toxic. If in doubt or if symptoms persist, consult a physician.

Main symptoms:

Inhalation: May cause irritation of the respiratory system.

Eye Contact: May cause eye irritation.

Skin contact: May cause irritation + possible temporary coloring of the skin.

Ingestion: Ingestion can cause nausea and vomiting.

Immediate medical care and special treatment required: Treat symptomatically. No additional data available.

---

## SECTION 5: Fire-Fighting Measures

### 5.1. Extinguishing media

Non-flammable product. Use appropriate extinguishing media for surrounding fire: water (in mist), foam, dry chemical powder.

Non-flammable product, low fire risk due to flammability characteristics of the product being used under normal conditions, recommended storage, handling and use.

### 5.2. Special hazards arising from the substance or mixture

Do not inhale fumes or dust. No known additional hazards.

### **5.3. Advice for firefighters**

Protective equipment: Wear self-contained respiratory protective device. Prevent the heating of containers stored near the fire source using water. Retain contaminated water for disposal, in accordance with the local regulations. Do not allow contaminated water to reach sewers, water sources or soil. Combustion produces irritating, toxic and foul-smelling fumes.

---

## **SECTION 6: Accidental Release Measures**

### **6.1. Personal precautions, protective equipment and emergency procedures**

Ensure adequate ventilation. Avoid the formation / inhalation of dust. Avoid contact with skin and eyes.

### **6.2. Environmental precautions**

Product is not hazardous to the environment. Avoid contamination/introduction into sewers, water sources (surface or underground) or soil. Retain contaminated water for disposal, in accordance with local regulations. In the event of significant dispersion/contamination, inform the competent authorities in accordance with the local regulations.

### **6.3. Methods and material for containment and cleaning up**

Clean up manually using inert absorbent materials (sand, earth, vermiculite), avoid the formation of dust, and put in a suitable and labelled container, for disposal in accordance with local/national regulations. Always use appropriate personal protective equipment. Clean residues with water + detergent (if possible, avoid the use of solvents).

Prohibit access of unauthorized/unprotected persons. Avoid the formation / inhalation of vapors / fumes / aerosols. Ensure adequate ventilation. Avoid contact with skin and eyes.

### **6.4. Reference to other sections**

Any information on personal protection and disposal is given in sections 8 and 13.

---

## **SECTION 7: Handling and Storage**

### **7.1. Precautions for safe handling**

Instructions on safe handling: Avoid formation and deposit of dust. Provide adequate ventilation. Hygienic measures. Wash hands at the end of work. Wear appropriate personal protective equipment. Avoid contact with skin and eyes. Immediately remove any soiled clothing; wash before reuse. Provide safety showers and eye fountains in places where the product is regularly used. Do not eat, drink or smoke in the work area.

### **7.2. Conditions for safe storage, including any incompatibilities**

Storage conditions: Store in a cool and dry place in well sealed packages. Appropriate packaging: paper bags, buckets, cartons, cardboard, etc. Product keeps for 60 months.

Requirements for storage areas and containers: Keep away from heat/ignition sources, radiation and electrical sources. Do not smoke. Store away from flammable acids and products. Protect from frost and heat, store in temperatures between 5 and 30 °C.

---

## **SECTION 8: Exposure Controls/Personal Protection**

### **8.1. Control parameters**

Mechanical ventilation may be necessary to keep exposure levels below limits.

Substance exposure limits:

Total dust: TWA (8h) = 10 mg/m<sup>3</sup>

Inhalable dust: TWA (8h) = 4 mg/m<sup>3</sup>

Threshold values may be monitored per workstation.

### **8.2. Exposure controls**

Technical protective measures: Provide adequate ventilation.

General protective measures: Do not inhale dust. Do not eat, drink or smoke while working. Wash hands before breaks and at the end of work.

Respiratory protection: Respiratory protection is advisable in case of dust formation.

Hand protection: Protective gloves (EN 374)

Eye protection: Safety glasses (EN 166)

Environmental protection: Avoid contamination/introduction of product into sewers, water sources (surface or underground) or soil. Retain contaminated water for disposal, in accordance with local regulations. In the event of significant dispersion/contamination, inform the authorities in accordance with the local regulations.

---

## **SECTION 9: Physical and Chemical Properties**

### **9.1. Information on basic physical and chemical properties**

Form: powder

Color: yellow

Odor: odorless

Boiling temperature: NA

Flash point: not applicable. does not ignite easily and does not create conditions favourable to ignition during a fire.

Evaporation rate: not applicable

Flammability (solid, gas): NA

Decomposition temperature: NA

Explosive properties: Non-explosive

Oxidizing properties: Not applicable

Vapour pressure: Not applicable

Melting temperature: 1565°C

Thermal Resistance – stable up to 160°C

Expiry period: minimum 5 years, in hermetically sealed packaging, protected from light, moisture, frost and heat.

Density (25°C): 4.2 g/cm<sup>3</sup>  
Bulk density (25°C): 500-800 kg/m<sup>3</sup>  
Solubility in water: Insoluble  
Solubility in other solvents: Linseed oil: insoluble  
Organic solvents: insoluble  
Oleic acid: insoluble  
Concentrated mineral acids: soluble  
pH (20 °C): About 5-8 in aqueous dispersion at 100 g / l  
Partition coefficient (n-octanol/water): No data available  
Viscosity: Not applicable  
Humidity: < 1.0%  
Iron content (as Fe<sub>2</sub>O<sub>3</sub>): > 86-89% (w/w)

---

## SECTION 10: Stability and Reactivity

### 10.1. Reactivity

Not available.

### 10.2. Chemical stability

This product is stable.

### 10.3. Possibility of hazardous reactions

No hazardous reactions are foreseeable in normal conditions of use and storage. May react with oxidants.

### 10.4. Conditions to avoid

Unsealed packaging and/or exposed product to light, moisture, frost or heat (< 60°C).  
Product is stable if used and store according to specifications.

### 10.5. Incompatible materials

Strong oxidants, such as: chlorates, bromates, nitrates.

### 10.6. Hazardous decomposition products

No information

---

## SECTION 11: Toxicological Information

### 11.1. Information on toxicological effects

Acute toxicity: Oral (LD<sub>50</sub>): 10,000 mg/kg (rat)

Inhalation (LC<sub>0</sub>, 4h): 4 mg/l (rat)

Toxicity in repeated doses by inhalation: Not determined

Irritation: Skin: Non-irritating (rabbit)

Eyes: Non-irritating (rabbit)

Awareness: Non-sensitizing (Guinea pig)

Cancer : None (rat)

Toxicity, metabolism and distribution:

Absorption and bio-availability are very limited due to the low solubility in aqueous media and

organic solvents.

Toxicity with repeated doses:

Prolonged inhalation of iron oxide dust is known to cause irritation.

X-rays are similar to pneumoconiosis, and are not associated with pulmonary fibrosis

Unless there is simultaneous exposure to other materials causing fibrosis, such as silica.

CRM effects (carcinogenic, mutated and toxic production):

No evidence of carcinogenic, mutated, or toxic to reproduction effects.

Other information:

In case of proper use / handling in accordance with the specifications, the product has no harmful effects according to our experience / that of the manufacturer, and the information that we / the manufacturer has. The substance is not subject to classification according to the latest version of the EU lists.

---

## SECTION 12: Ecological Information

### 12.1 Toxicity:

Acute toxicity: Fish: LC0, 96h  $\geq$  100 000 mg/l (OECD 203, static)

Daphnia: EC0, 48h  $\geq$  100 mg/l (OECD 202, static)

Algae: EC50, 72h = 18 mg/l (OECD 201, static)

Bacteria: EC0, 96h > 10,000 mg/l

### 12.2. Persistence and degradability:

Product insoluble in water, therefore easily separable from the aquatic environment (e.g. by filtration). This product is inert and non-biodegradable, according to previous experiments.

### 12.3. Bioaccumulation potential:

Does not accumulate in organisms.

### 12.4. Mobility in the soil:

Insoluble. Remains on the surface of the ground.

### 12.5. Pbt and vPvB evaluation results:

Not applicable.

### 12.6. Other adverse effects:

Accidental disposal of small amounts of product in sewers will not affect the performance of wastewater treatment systems. Eco-toxicological effects: no data due to insolubility in water. Generally not hazardous to the aquatic environment.

---

## SECTION 13: Disposal Considerations

The product must be disposed in a controlled dump according to local regulations. Prevent the product from entering sewers, soil, waterways. The product must not be disposed of in a place where there is a risk of contact with acids.

Contaminated packaging: Clean packaging can be reused.

Uncleaned packaging must be disposed of with the same care as the product.

Take all necessary measures to avoid as much as possible the production of waste. Consider possible methods of recycling waste. Waste must be handled and disposed of in accordance with local regulations.

---

## **SECTION 14: Transport Information**

NO RESTRICTIONS

### **14.1. UN number**

Not applicable

### **14.2. UN proper shipping name**

Not applicable

### **14.3. Transport hazard class(es)**

Not applicable

### **14.4. Packing group**

Not applicable

### **14.5. Environmental hazards**

Not applicable

### **14.6. Special precautions for user**

Do not transport with acids.

### **14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**

Information not relevant

---

## **SECTION 15: Regulatory Information**

This product is not a dangerous substance according to the concerned EEC regulations.

- Information on classification and labelling in item 2:

The following regulations have been taken into account:

- Regulation (EC) No 1272/2008 as amended by Regulation (EU) No 487/2013
- Regulation (EC) No 1272/2008 as amended by Regulation (EU) No 758/2013
- Regulation (EC) No 1272/2008 as amended by Regulation (EU) No 944/2013
- Regulation (EC) No 1272/2008 as amended by Regulation (EU) No 605/2014
- Regulation (EC) No 1272/2008 as amended by Regulation (EU) No 1297/2014

- Packaging information:

No data are available.

- Special provisions:

No data are available.

---

## **SECTION 16: Other Information**

The information contained in this document is based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property. The use of this product is the responsibility of the user; therefore, users must, comply with the current

health and safety laws and regulations. The producer is not liable for improper use of the product.
