

## **MATERIAL SAFETY DATA SHEET**

### **CLAY TONACHINO – INTERIOR DECORATIVE COATING**

---

#### **SECTION 1: Identification of the substance/mixture and of the company/undertaking**

##### **1.1. Product Identifier**

Code: TONACHINO  
Product Name: CLAY TONACHINO – DECORATIVE COATING

##### **1.2. Relevant identified uses of the substance or mixture and uses advised against**

Use of the Substance/Preparation: Decorative Interior Coating | Walls and Ceilings.

##### **1.3. Details of the Supplier of the Safety Data Sheet**

Company: Color Rare Ltd 1725 Atmec Gatineau, QC J8R 0E7  
Tel/Fax: 1-613-701-5022  
Email: [info@colorare.com](mailto:info@colorare.com)

---

#### **SECTION 2: Hazards Identification**

##### **2.1. Classification of the substance or mixture.**

The product is not classified as hazardous pursuant to the provisions set forth in Directives 67/548/EEC and 1999/45/EC and/or EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements). However, since the product contains hazardous substances in concentrations such as to be declared in section no. 3, it requires a safety data sheet with appropriate information, compliant to EC Regulation 1907/2006 and subsequent amendments.

##### **2.1.1. Regulation 1272/2008 (CLP) and following amendments and adjustments.**

Hazard classification and indication: NA

### 2.1.2. Directive 67/548/EEC and following amendments and adjustments.

Danger Symbols: NA  
R phrases: NA

The full wording of the Risk (R) and hazard (H) phrases is given in section 16 of the sheet.

### 2.2. Label elements.

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

Pictograms: NA

Signal words: NA

Hazard statements: NA

Precautionary statements: Clay Tonachino is 100% natural and does not require environmental protection or personal protection measures, however, it is still recommended to keep out of reach of children and pets. Do not swallow. It is advisable to avoid prolonged contact with the skin. If the product comes in contact with the eyes, rinse eyes immediately with clean water. If irritations persist, see a doctor.

**P264** Wash thoroughly after handling.  
**Contains:** 100% Natural Clay

### 2.3. Other hazards.

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

---

## SECTION 3: Composition/Information on Ingredients

Composition/ Ingredients: 100% natural products: Clay, quartz sand, cellulose, starch.

CAS No 14807-96-6

EC No 238-877-9

---

## SECTION 4: First-Aid Measures

General information: No known damages to personal health have been reported. It is not recommended to inhale this product, or put into eyes or mouth.

**EYES:** Remove any contact lenses. Flush eyes immediately and repeatedly with clean water for at least 15 minutes. Consult a doctor if irritation persists.

**SKIN:** Take off contaminated clothes. Wash skin immediately with clean water. If irritation persists, consult a doctor. Wash contaminated clothing before reusing it.

**INHALATION:** Move the individual to fresh air. If breathing is difficult, give artificial respiration and call a doctor.

**INGESTION:** Consult a doctor immediately. Induce vomiting only on the recommendation of a medical professional. Do not administer anything orally if the subject is unconscious and if not authorized by a medical professional.

---

## SECTION 5: Fire-Fighting Measures

### 5.1. Extinguishing media

Non-flammable product. Use extinguishing equipment for surrounding fire.

#### SUITABLE EXTINGUISHING EQUIPMENT

The extinction equipment should be of the conventional kind: carbon dioxide, foam, chemical powder. For leaks and spills of the product that have not caught fire, sprayed water can be used to disperse flammable vapours.

#### UNSUITABLE EXTINGUISHING EQUIPMENT

Do not use water jets. The water is not effective for extinguishing the fire however it can be used to cool the closed containers exposed to the flame preventing explosions and explosions.

### 5.2. Special hazards arising from the substance or mixture

Do not inhale fumes.

Overpressure can be created in fire-exposed containers a create a risk of explosion.

### 5.3. Advice for firefighters.

#### GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

#### SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

---

## SECTION 6: Accidental Release Measures

### **6.1. Personal precautions, protective equipment and emergency procedures**

Control and stop the spill of product if there is no danger.

Wear appropriate protective equipment (including personal protective equipment referred to in Section 8 of the safety data sheet) to prevent contamination of the skin, eyes and personal clothing. These instructions are valid for both workers and emergency workers.

Use protective breathing equipment if dust, fumes or powders are released into the air.

### **6.2. Environmental precautions**

Prevent the product from getting into sewers, surface water, groundwater.

### **6.3. Methods and material for containment and cleaning up**

Vacuum/ mechanically clean up the spilled product into a suitable container. Absorb the remainder with inert absorbent material. Provide sufficient ventilation. The contaminated material shall be disposed of in accordance with the provisions of section 13.

### **6.4. Reference to other sections**

Any information on personal protection and disposal is given in sections 8 and 13.

---

## **SECTION 7: Handling and Storage**

### **7.1. Precautions for safe handling**

Keep away from heat, sparks and open flames; do not smoke or use matches or lighters near product. Provide adequate ventilation.

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment.

Hygienic measures: Wash hands at the end of work.

### **7.2. Conditions for safe storage, including any incompatibilities**

Storage conditions: Store in a cool, ventilated and dry place in well sealed packages. Keep away from sources of heat, open flames, sparks and other sources of ignition.

Requirements for storage areas and containers: Keep the product in clearly labelled containers. Keep containers away from any incompatible materials, see section 10 for details.

### **7.3. Specific end use(s).**

Information not available.

---

## **SECTION 8: Exposure Controls/Personal Protection**

### **8.1. Control parameters**

TLV of solvent mixture: 7.5 mg/m<sup>3</sup>

## 8.2. Exposure controls

General protective measures: Do not inhale dust. Do not eat, drink, or smoke while working. Wash hands before breaks and at the end of work.

Ensure that the workplace is adequately ventilated. When choosing personal protective equipment, it must be CE approved, to indicate compliance with applicable standards.

### HAND PROTECTION

Protect hands with category III work gloves (see standard EN 374).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability. The work gloves' resistance to chemical agents should be checked before use. The gloves' wear time depends on the duration and type of use.

### SKIN PROTECTION

Wear work clothes with long sleeves and safety footwear for professional use category I (ref. Directive 89/686/EEC and EN ISO 20344). Wash with soap and water after removing protective clothing.

### EYE PROTECTION

It is recommended to wear airtight protective glasses (ref. standard EN 166).

### RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) of the substance or one or more of the substances in the product is exceeded, it is recommended to wear a type B filter mask whose class (1, 2 or 3) should be chosen in relation to the limit concentration of use. (ref. standard EN 14387). Where gases or vapours of a different nature are present and/or gases or vapours with particles (aerosols, fumes, mists, etc.) combined filters should be provided. The use of means of respiratory protection is necessary if the technical measures taken are not sufficient to limit the worker's exposure to the threshold values taken into account. However, the protection offered by masks is limited.

In the event that the substance in question is odorless or its olfactory threshold is higher than its TLV-TWA and in the event of an emergency, wear an open-circuit compressed air respirator (ref. EN 137) or an external air intake respirator (ref. EN 138 standard). For the correct choice of respiratory protection device, refer to EN 529.

### ENVIRONMENTAL EXPOSURE CONTROLS

Emissions from production processes, including those from ventilation equipment, should be controlled in order to comply with environmental protection legislation.

---

## SECTION 9: Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

#### 9.1. Information on basic physical and chemical properties.

Appearance: powder  
Colour: off-white

Odour:	none
Odour threshold:	Not available.
pH:	7-8
Melting or freezing point:	Not available.
Boiling point:	Not available.
Distillation range:	Not available.
Flash point:	> 93 °C.
Evaporation Rate:	Not available.
Flammability of solids and gases:	Not available.
Lower inflammability limit:	Not available.
Upper inflammability limit:	Not available.
Lower explosive limit:	Not available.
Upper explosive limit:	Not available.
Vapour pressure:	Not available.
Vapour density:	Not available.
Specific gravity:	1,278kg/cm <sup>3</sup>
Solubility:	Soluble in water
Partition coefficient: n-octanol/water:	Not available.
Ignition temperature:	Not available.
Decomposition temperature:	Not available.
Viscosity:	Not available.
Reactive Properties:	Not available.
Theoretical consumption:	1.5-2 kg/m <sup>2</sup>
VOC:	0.0 gms/litre.

## SECTION 10: Stability and Reactivity

### 10.1. Reactivity

There are no reaction risks with other substances under normal conditions of use and storage but see section 10.5.

### 10.2. Chemical stability

The product is stable in normal conditions of use and storage.

### 10.3. Possibility of hazardous reactions

No hazardous reactions are foreseeable in normal conditions of use and storage.

### 10.4. Conditions to avoid

None, however, the usual precautions used for chemical products should be followed.

### 10.5. Incompatible materials.

None, however, the usual precautions used for chemical products should be followed.

### 10.6. Hazardous decomposition products.

Information not available.

---

## SECTION 11: Toxicological Information

### 11.1. Information on toxicological effects

There are no known cases of damage to personal health from exposure to the product. However, it is recommended to comply with industrial hygiene recommendations when using the product. For people with known sensitivities, this product may have health effects from inhalation and / or absorption from the skin and / or contact with eyes and / or ingestion.

---

## SECTION 12: Ecological Information

The product is a natural and will not produce ecological negative effects.  
Use this product according to good working practices. Avoid putting this product into the sewer system.  
Inform your local governing authorities, should the product reach waterways or sewers.

### 12.1. Toxicity.

Information not available.

### 12.2. Persistence and degradability.

Water solubility < 0.1 mg/l

### 12.3. Bio accumulative potential.

Information not available.

### 12.4. Mobility in soil.

Information not available.

### 12.5. Results of PBT and vPvB assessment.

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

### 12.6. Other adverse effects.

Information not available.

---

## SECTION 13: Disposal Considerations

### 13.1. Waste treatment methods.

Reuse, when possible. Product should be considered special hazardous waste. The hazard level of waste contained in this product should be evaluated according to applicable regulations.

Disposal must be performed through an authorized waste management firm, in compliance with national and local regulations.

**CONTAMINATED PACKAGING**

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

---

## SECTION 14: Transport Information

NO RESTRICTIONS. This material is not considered as dangerous according to the current provisions on road transport of dangerous goods.

**14.1. UN number**

Not applicable

**14.2. UN proper shipping name**

Not applicable

**14.3. Transport hazard class(es)**

Not applicable

**14.4. Packing group**

Not applicable

**14.5. Environmental hazards**

Not applicable

**14.6. Special precautions for user**

Not applicable

**14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**

Information not relevant

---

## SECTION 15: Regulatory Information

This product is not a dangerous substance according to EEC regulations.

VOC (Directive 2004/42/CE) :

Opaque paintings for internal walls and ceilings (Gloss .25-60).

VOC expressed in g/litre of ready-to-use product:

Limit values: 75.00 (2007) - 30.00 (2010) product VOC: 0.00

---

## SECTION 16: Other Information

The product is a natural constituent.

The information contained in this document is based on our own knowledge on the date of the current version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

Material Safety data sheet  
Revision N°2  
Product: **CLAY TONACHINO**

Dated: June 1, 2023

This document must not be regarded as a guarantee on any specific product property. The correct and safe use of this product is the responsibility of the user; therefore, users must, comply with the current health and safety laws and regulations. Colorare is not liable for improper use of the product.
