Harness the Power of Nature for Optimal Health

ViralActin™

Immune and Respiratory Support | High Potency Zinc Complex | 30 Caps

- **COMPLETE IMMUNE AND RESPIRATORY SUPPORT** – All the daily support you need in a single high-performance formula. Just one daily capsule provides complete immune and respiratory support powered by our proprietary Immun-X™ extract
- **HIGH POTENCY ZINC DELIVERY COMPLEX** – Receive the full absorption of Zinc with our unique delivery from Hydroxyquercetin™ Zinc Ionophore, which is the natural alternative to prescriptions
- **EFFECTIVE ABSORPTION OF ZINC** – High potency zinc bisglycinate chelate offers superior absorption. This form of zinc is absorbed intact (bound or chelated to glycine) and does not compete with other minerals for absorption into the intestinal tract. Several studies demonstrate its superior absorption. For instance, 12 healthy women were given single doses of zinc bisglycinate, zinc picolinate, zinc gluconate, or zinc oxide. With blood levels being tested every hour for four hours, zinc bisglycinate resulted in the highest plasma zinc levels. In addition, zinc in red blood cells (RBC) was measured over the same 4-hour period. At the end of the study, RBC levels of zinc were in this order from highest to lowest: zinc bisglycinate > zinc picolinate > zinc gluconate > zinc oxide.¹
