

Lampshade Considerations

Lampshade options are an important consideration when it comes to lighting design. Not only do they affect the overall look of a light fixture, but they also impact the type and amount of light that is emitted. Please ensure that your lampshade is sized properly for your application.

Pendant Lampshades

Pendant lights are a popular choice for adding stylish and functional lighting to any room. At our store, we offer a variety of pendant lampshades to choose from. Whether you're looking for a classic drum shape or a unique rectangular design, we have options to suit your style and decor.

Table Lampshades

Table lampshades are another versatile lighting option that can add both illumination and ambiance to a space. Our store carries a variety of table lampshades, including standard sizes and shapes like drum and rectangular.

Standard Lampshades

Our standard lampshades are available in non-translucent options, providing focused lighting for specific tasks or areas in a room. These lampshades come in various sizes as specified to fit a range of light fixtures. We also offer a variety of shapes, including the classic drum and modern rectangular shape.

Lampshade Liner Options

To customize the look of your lampshade, we offer liner options in both white and gold. These liners can add a touch of elegance or contrast to your light fixture, depending on your preference.

Translucent Lampshades

For those looking for a softer, diffused light, we also offer translucent lampshades. These are available upon request and can add a warm glow to any room. Note that translucent lampshades will have a greater color variation when turned on versus when turned off.

Custom Orders

At our store, we understand that sometimes standard sizes and shapes may not fit your specific needs. That's why we offer custom orders for lampshade size and shape. If you have a specific design in mind, please don't hesitate to call us for a quote. We are happy to work with you to create the perfect lampshade for your lighting needs.

Choosing the right lampshade is an important aspect of creating the perfect lighting in your space. We hope that our wide range of lampshade options, including pendants, table lamps, standard, and customizable options, will help you find the ideal fit for your lighting design.
