

GENERATIONS™ 36% START TO FINISH DAIRY BEEF SUPPLEMENT

PRODUCT CODE: 536DBR

FORM: Pellet

MEDICATION: Monensin 175 g/ton

APPLICATION: A supplement designed to be fed to dairy beef cattle from 400 to 700 pounds in weight. Medicated for improved feed efficiency.

FEEDING DIRECTIONS: Mix 350 lb with 1650 lb of whole shell corn to produce a complete feed containing 30g Monensin per ton. This grain mix should be full-fed to the cattle. Care should be taken to ensure that mix and water are available to the cattle at all times. Feed and water supply should be checked at least twice daily.

CAUTION:

Do not allow horses or other equines access to formulations containing Monensin. Ingestion of Monensin by equines has been fatal. Feeding undiluted or mixing errors resulting in high concentrations of Monensin could be fatal to cattle. Must be thoroughly mixed in feeds before use; do not feed undiluted.

GUARANTEED ANALYSIS:
