

Lambing time is almost here!! Be ready with plenty of

Super

SUPER LAMB*[®]

INSTANT MILK REPLACER: “The ideal replacement for ewe’s milk”

PRODUCT CODE: 6001

FEATURES AND BENEFITS:

- Stays in suspension up to 24 hours
- Low lactose level reduces bloat
- Small fat globules (2-4 micron size) and coconut oil results in higher digestibility and utilization
- Added Selenium
- Highest guaranteed level of vitamin E
- Packaged in 25 lb. bags

MIXING DIRECTIONS:

Farm Flocks (up to 100 head):

1. To reconstitute, mix 1 level cup* of dry powder (4oz) with ½ pint of hot water (140°F). Add ½ pint of cold water (60°F) to cool to 100°F.
2. Stir until product is in solution

*Cup included in bag

Large Flocks (to 3000 head)

1. With mechanical mixer, reconstitute 2 lbs of Super Lamb Milk Replacer with ½ gallon of hot water (140°F). Add ½ gallon of cold water (60°F) to cool to 100°F.
2. Feed free choice with an automatic nipple system.

FEEDING DIRECTIONS:

Age of Lamb (days)	# of Feedings (per day)	Amount of Reconstituted Product Per Feeding
1-3	Free Choice	(Colostrum)
4-10*	4	8 oz
11-18	3	12 oz
19-42**	2	16oz

*A good quality grain mix and water should be offered free choice after lambs reach about one week of age.

** Good quality roughage should be offered free choice when lambs reach about (3) weeks of age.

Feeding Tips:

1. Provide all lambs with free choice colostrum during the first two days.
2. Mix and feed according to package instructions.
3. Feed regularly and in sufficient quantity.
4. Wash bottle thoroughly after each use.
5. Provide up to 1 lb. of simple grain mix per day free choice when lambs reach about one week of age.
6. Provide good quality roughage free choice when lambs reach about three weeks of age.
7. Provide fresh water at all times
8. Keep lambs in well-ventilated, draft-free area to avoid sudden temperature changes.
