

# OPTAFLEXX

**PRODUCT CODE:** 9200FLEX

**MEDICATION:**  
Ractopamine Hydrochloride 2000 g/ton

**FORM:** Pellet

## APPLICATIONS:

A medicated feed additive formulated for cattle fed in confinement for slaughter for increased rate of weight gain and improved feed efficiency OR for increased rate of weight gain, improved feed efficiency, and increased carcass leanness.

## DIRECTIONS:

Thoroughly mix 10 to 24 lbs of this Type B medicated feed into 1990 to 1976 lbs of non-medicated feed to obtain a Type C medicated feed containing 10 to 24 g/ton of ractopamine. Prepare an intermediate pre-blend of the medicated feed prior to mixing in a complete feed. Thoroughly mix the required amount in a convenient quantity of feed ingredients, then add to the remaining feed ingredients to make a ton of complete feed.

Feed the resulting Type C medicated feed continuously to cattle in confinement for slaughter as the sole ration for the last 28 to 42 days on feed.

## CAUTION:

Not for animals intended for breeding.

## LIMITATIONS FOR USE:

Feed continuously to cattle as sole ration for the last 28-42 days on feed.

## GUARANTEED ANALYSIS:

Crude Protein (Min.)..... 12.50%  
Crude Fat (Min.)..... 3.20%  
Crude Fiber (Max.)..... 8.20%

## INGREDIENTS:

Wheat Middling, Calcium Carbonate, Corn Distillers Dried Grains With Solubles, Cane Molasses, Corn Condensed Distillers Solubles, Vegetable Oil, Natural & Artificial Flavoring, And Propionic Acid (A Preservative).
