RACK MAKER® TOPDRESS

PRODUCT CODE: T99HRMT

FORM: Textured

APPLICATION:

If you want bucks with big racks, Rackmaker® Topdress is the product you're looking for. It is a highly palatable blend of roasted soybeans and pellets. Rackmaker® contains the complex proteins and essential nutrients for maximizing antler development. This product is designed to be fed on top of your bucks' regular feed during the antler-growing period. Top dressing allows you to feed a base feed, like Redoy Formula, year round to all your animals. This will maximize overall feed consumption without feeding antler-growing nutrients to does and fawns.

FEEDING DIRECTIONS:

Feed as a topdress along with grain ration to penned deer along with good quality forage. Always allow access to free choice fresh clean water.

WARNING: Contains added copper. Do not feed to sheep.
