

CATTLE FLY CONTROL BLOCK

PRODUCT CODE: Y5005BLK

FORM: 33 lb block

MEDICATION:

ACTIVE INGREDIENT:
Diflubenzuron* (CAS #35367-38-5).....0.02%
OTHER INGREDIENTS:99.98%
TOTAL100.000%
*Contains 90.8 mg Diflubenzuron per pound.

APPLICATION:

A nutritional supplement for cattle containing diflubenzuron for continuous feeding during the fly season. Prevents the emergence of house flies, horn flies, face flies, and stable flies from manure of treated cattle. Stops development of house fly, stable fly, face fly, and horn fly larvae in manure of treated cattle. Contains diflubenzuron (a chitin synthesis inhibitor). Breaks the house fly, horn fly, face fly, and stable fly life cycles in cattle. Prevents the formation of fly larvae's exoskeletons when they molt. Can be used as part of an integrated pest management program for cattle.

FEEDING DIRECTIONS:

Provide this block as a free choice source of nutritional supplementation for your cattle. When used as directed, this block provides sufficient diflubenzuron to prevent fly emergence from the manure of treated cattle. This product prevents the development of horn flies, face flies, house flies, and stable flies in the manure of treated cattle. Existing adult flies will not be affected. Start feeding this product early in the spring before flies begin to appear and continue feeding throughout the summer and into the fall until cold weather restricts fly activity. Allow free choice to cattle. Cattle should consume an average of 0.1 mg of diflubenzuron per kg of animal body weight per day, to achieve control of horn flies, face flies, house flies, and stable flies. Cattle should consume an average of 0.8 ounces of this product per 100 lbs of animal body weight per day, which is equivalent to 8 ounces per day for a 1,000 pound cow.

GUARANTEED ANALYSIS:

Crude Protein (Min.).....8.00%
Crude Fat (Min.).....2.00%
Crude Fiber (Max.)6.00%
ADF (Max.).....8.50%
Calcium (Ca) (Min.)4.50%
Calcium (Ca) (Max.).....5.50%
Phosphorus (P) (Min.).....0.80%
Salt (NaCl) (Min.).....17.50%
Salt (NaCl) (Max.)21.00%
Potassium (K) (Min.)1.00%
Selenium (Se) (Min.) 1.6 ppm
Vitamin A (Min.)30,000 IU/lb.

INGREDIENTS:

Grain Products, Processed Grain By-Products, Salt, Molasses Products, Calcium Carbonate, Monocalcium Phosphate, Zinc Sulfate, Manganese Sulfate, Ferrous Sulfate, Copper Sulfate, Ethylenediamine Dihydroiodide, Cobalt Sulfate, Sodium Selenite, Vegetable Oil, Calcium Hydroxide, Vitamin A Supplement, Magnesium Oxide, Vitamin D3 Supplement, Vitamin E Supplement, Propionic Acid (a preservative), Acetic Acid (a preservative), Benzoic Acid (a preservative), Sorbic Acid (a preservative), and Natural Flavor.

**Contains no prohibited animal by-products in accordance with FDA regulation 21 CFR 589.2000

CAUTION: Use as directed. Feeding added selenium at levels in excess of 0.3ppm in the total diet is prohibited.
