Unprecedented Panel Technology

The Panasonic EZ1000 builds on the incredible capability of OLED by leveraging years of expertise tuning pictures for plasma. Our revolutionary Absolute Black Filter improves on OLED's zero-black by minimizing reflections and absorbing ambient light that can result in hue shifts on other OLED panels. The EZ1000 discerns shadow detail with unprecedented granularity, while even the subtlest highlights are crisply maintained in stunning 4K.

NOW SHOWING!

The 77" Panasonic OLED 4K TV is now on display in Advance's exclusive, state-of-the-art, Panasonic Studio.
