

# The Missing Link Collagen Superprotein

- **Historically, humans built healthy skin, joints, guts and hair with the amino acids in bone broth. These components are often lacking in our modern diets, but not in the Missing Link**
- **Mixes with ease into any beverage, hot or cold**
- **Flavorless, so it can easily blend into any drink, shake, smoothie, or coffee**
- **Whether you're 25 or 85, your joints will thank you!**

👍 I recommend this product

#### **BEST UNFLAVORED COLLAGEN**

I've been taking collagen for about a year now and finally ordered some missing link. This is by far the best collagen I've had. My previous "unflavored" collagen would leave a terrible after taste that I'd have to wash down with coffee or almond milk, but with Missing Link is truly unflavored and leaves no bad after taste, it also dissolves so much better than any of the previous brands I've tried, even in beverages that aren't hot.

I did change my intake and followed the suggestion of a serving in the morning and at night and I've noticed a difference already in how my body feels. I finished my first container in about a month and I plan on sticking with this from here forward.
