

Stamppede Pre-Workout

- **As you warm up, you will notice the brain/body connection produced by the tyrosine and the taurine**
- **As you work through your warmup, you will feel a distinct connection to your muscles, that's the betaine and citrulline malate acting**
- **As you begin your training session, there will be an itchy/tingly feeling along with a great sense of motivation. That is the synergistic effect of beta-alanine (tingly feels) with caffeine (sense of motivation)**
- **Formulated to provide a huge boost of energy, heightened focus, and the endurance to be at your best!**
