

The Wagner logo is displayed in a yellow box in the top left corner. It features a black triangle above the word "WAGNER" in a bold, black, sans-serif font.

AirCoat
F230 AC

Finish 230 AirCoat

FINE FINISHING SYSTEM

- Extremely fine atomisation
- Little overspray (material savings of up to 30 %)
- High application efficiency
- Powerful, quiet compressor

www.wagneraustralia.com.au

EXTREMELY FINE ATOMISATION

Equipped with green air cap

ideal for water based and solvent based materials. The air consumption is up to 30% lower, saving energy and costs, and takes the pressure off the environment.

Ergonomic AC 4600 AirCoat gun

Low weight and smooth swivel joints make for perfect ergonomics, which help achieve amazing painting results.

Easy to replace filter makes it very user friendly.

Air and material pressure gauges

give precise information about the set parameters, providing excellent control.

Compact compressor

built into the cart, the F230 AC is extremely flexible and ready for use anywhere.

Ultra flexible dual hose

is very easy to handle, due to its small cross section of DN3, and includes a protective cover.

The Finish 230 AC is a compact mobile diaphragm pump with integrated compressor. It provides great flexibility with perfect results in the workshop and on the building site.

UPGRADE TO THE 3 IN 1 ELECTROSTATIC, AIRCOAT AND AIRLESS SYSTEM!

ELECTROSTATIC

AIRCOAT

AIRLESS

Combining the latest technology in electrostatic and aircoat applications with an airless system, all designed to produce the perfect finish. This is the perfect mobile system for any painting contractor who uses all three types of technology on their projects.
