OVERSPRAY FILTRATION SYSTEM

ZEPHAIR Overspray Filtration System

The ZEPHAIR Overspray Filtration System is designed for use on-site or in the workshop to enable filtered extraction of spray painting overspray and fumes.

Provides an efficient and safe indoor working environment, while preventing contamination from being discharged outdoors.

The world leading **andreae®** filter media captures up to 98% of paint overspray.

The ZEPHAIR Overspray Filtration System comprises a filter box, 300mm diameter extraction fan and 5 metres of flexible ducting. Very portable and easily transported in a van or utility.

Specifications:

- Heavy duty galvanised steel construction fitted with carry handles
- 5 metres flexible ducting (10m also available)
- Kit includes all fastenings, ready to assemble
- 300mm diameter fan can be quickly attached and removed with toggle clamps
- Filter box size: W1140 x H550 x D230mm
- Filter box weight: 13kgs
- Replacement filter media available
- 300mm extraction fan, 230V AC, 520W
- Fan airflow: 65m³/min; Pressure 370Pa
- Fan weight: 11kgs
- Includes fan and ducting
