WT180MP

WORKSHOP SERIES

180A I INVERTER MULTI-PROCESS WELDER

Incorporating the latest in MIG, ARC and TIG technology, the WT180MP offers professional welding results and simple setup for all welding requirements and skill levels. The bulletproof steel chassis design ensures a lifetime of reliability and performance. Complete with 3m MB25 Binzel style MIG torch, ARC & Earth lead set and gas regulator, this unit is ready for the workshop.

- Compact design - only 9kg
- MIG ARC and TIG welding
- Latest inverter technology for the best results
- Digital voltage and amperage meters for easy set up
- MIG 144A @60%
ARC/TIG 128A @60%
- 230V single phase on 10A plug
- Lift TIG with optional TIG torch
- Exceptional results on gasless welding!

OPTIONAL
TIG TORCH
AVAILABLE

TAKES
5KG SPOOL
OF WIRE

Specifications	
Input Power	240V, 10A
Generator Capacity	8kva
Output Power	MIG: 40-180A ARC/TIG: 30-150A
MIG Duty Cycle	144A @ 60%
ARC/TIG	128 @ 60%
MIG Wire Size	0.6, 0.8, 0.9mm
Spool Size	D200 5kg
MMA Electrode Size	1.6 - 3.2mm
Drive Rollers	0.8/0.9mm
Dimensions (LxWxH)	395x165x290
Weight	9kg
Protection Class	IP21
