

# SECRET WILD WEST BLASTING GAME

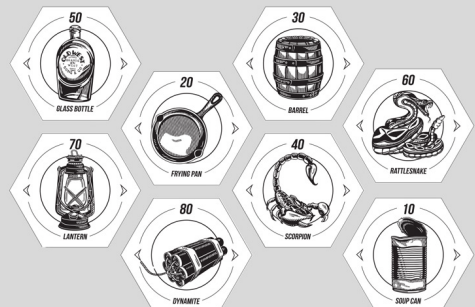

Don't tell anyone, but your box of Blaster Blocks has a secret game. A Wild West blasting gallery!

## FIND & CUT OUT THE SECRET TARGETS

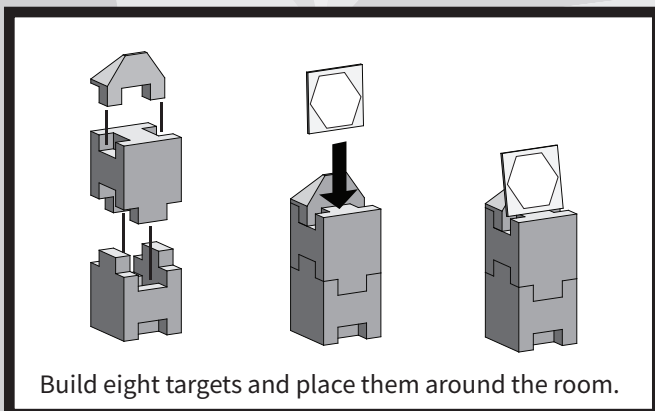

1] Turn your box upside down, and open the bottom of the box.

2] On the two internal box flaps, cut out the eight Wild West blasting targets.

## SETUP YOUR WILD WEST BLASTING GALLERY

## 1 PLAYER BLASTING CHALLENGE & GAME

**Challenge:** How many shots does it take you to knock over all 8? Can you do it with only 8 shots? How far away can you get from the targets, and still use only 8 shots to knock over all 8 targets?

**Game:** Try to get a total score of exactly 100. When you hit each target, if the target lands face up (with the graphic showing), add the points listed on the target to your total score. If the target lands face down, subtract the points on that target from your score.

## 2 PLAYER BLASTING GAMES

**Game 1:** Both players blast as fast as they can, until all the targets have been knocked down. Add up the points for the targets each player hit. Whoever has the highest score, wins!

**Game 2:** Take turns firing one shot at a time. If you hit the cardboard target, add the points on that target to your score. If you hit the blocks holding up the target (but your dart didn't hit the cardboard target itself), subtract that target's points from your score. After all the targets have been knocked down, whoever has the highest score, wins!
