

Rebuilding lives  
after stroke

Stroke  
Association

Dear Sarah Crocker,

**Thank you so much for your donation of £30.00. We're incredibly grateful to you for your support.**

Every five minutes, stroke destroys lives. Life changes instantly and recovery is tough. The impact can be anything, from wiping out your speech and physical abilities to affecting your emotions and personality.

40% of stroke survivors have aphasia due to a stroke. Aphasia can affect a person's ability to communicate, be independent and have a working life.

The stroke survivors in our 'A-what-sia? Let's talk aphasia' campaign are living proof that life after stroke is possible. Thanks to supporters like you, we can continue our ground-breaking research and vital support services, helping to rebuild the lives of even more stroke survivors. **Your kind gift really is making a difference.**

If you would like to find out more about the difference your support can make, please [visit our website](#).

Thank you once again for your amazing support of the Stroke Association.

Kind regards,  
**Vaughan Williams, Supporter Relations Manager**
