

HERSCHEL®

SELECT XLS Towel Heater with integrated controls

Delivering the very latest in design and technology the Select XLS Glass Towel Heater with integrated controls is the ideal heating solution for any bathroom where a designer finish is required. Herschel Select XLS Glass Towel heater incorporates a touchscreen interface for simple thermostat control at the panel, and easy installation. It also features built in WiFi, providing the added option to control the heater from the convenience of the SmartLife App. You can even use voice control when used with Alexa or Google Assistant.

Featuring Herschel's innovative dual-element technology, the Select XLS Glass Towel Heater with integrated controls combines highly efficient infrared heating of the bathroom with low energy towel warming. Available in a pure white glass finish, combined with two chrome rails, or a striking black glass finish, with complementary black rails, this ultra slimline, low consumption (500W or 700W) electric heater comfortably heats the room using infrared technology, which also helps in the reduction of damp and condensation. The lower area provides effective drying and warming of towels.

With a white or black powder-coated aluminium rear case incorporating Herschel's EASY-FIX mounting system, Select XLS panels are designed to be maintenance free and to last for many years. With close to 100% recyclable packaging, Select XLS is fully compliant with European energy saving regulation (Lot 20) with its built in thermostat. (No additional thermostats are required for these models).

Select XLS is certified to appropriate country standards and is subject to rigorous testing by TÜV.

DUAL HEATING TECHNOLOGY

THE PERFECT COMBINED INFRARED AND TOWEL HEATER

TECHNICAL DETAILS

SURFACE:	ESG 6mm Safety Glass
COLOUR:	White/Black
REAR PANEL:	Aluminium with Herschel EASY-FIX System
FRAME:	Frameless
VOLTAGE:	220-240 V, 50/60Hz
PROTECTION CLASS:	IP 44
CABLE:	1.8m power cable
INSTALLATION:	Wall mounted

CERTIFICATES: 

WARRANTY: 5 years
(Refer to the warranty policy on Herschel-infrared.com for more detail including exclusions.)

AVAILABLE MODELS

Model	Part No.	Dimensions	Weight	Rated Power	Heated Area
Glass Towel Rail with integrated controls	XLS500TW-INT	48 x 120 x 13cm	21kg	500W	4-9 m ²
	XLS700TW-INT	60 x 130 x 13cm	22kg	700W	6-12 m ²
	XLS500TB-INT	48 x 120 x 13cm	21kg	500W	4-9 m ²
	XLS700TB-INT	60 x 130 x 13cm	22kg	700W	6-12 m ²

The heated areas are an indicative guide only. The actual heated area will depend on the heat loss of the room which is influenced by many factors including construction type, external walls, window area and insulation levels. Always use the Herschel online calculator or contact your dealer or installer for an accurate specification.

The Select XLS panel comes with one EASY-FIX mounting bracket. When installed, the front of the panel will extend a total of 15cm from the wall. The panel will radiate heat into the room and will perform best when mounted in a position free of any direct obstructions such as a sofa. The panel will need to be wired into the mains and this should be carried out by a suitably qualified electrician. Refer to installation instructions for full details.
