### KEY FEATURES

- **LC Privacy Glass:** Experience the ultimate privacy control with our PDLC (Polymer Dispersed Liquid Crystal) glass technology. Windows change from transparent to opaque, providing instant privacy when desired, at the flip of a switch, with a mobile device, or with voice commands.
- **Fuse Welded Frames:** Our eGlass Windows feature precision fuse welded frames, ensuring durability and structural integrity.
- **Elegant Designs & Sightlines:** Functionality should never compromise style. Our windows boast elegant designs and sleek sightlines, enhancing any residential space.
- **Insulated Glass:** eGlass Windows are made with dual pane laminated safety glass and tempered high-performance LowE (Low Emissivity) glass, creating a thermal barrier against heat loss or gain. Enjoy comfortable spaces with reduced energy costs year-round.

### ADVANTAGES

- **Privacy Control:** LC Privacy Glass allows you to instantly switch between transparent and frosted states, providing privacy when needed without sacrificing natural light.
- **Energy Efficiency:** Our insulated glass, combined with heavy wall construction and airtight seals, minimizes heat transfer, reducing reliance on heating or cooling, and lowering energy bills.
- **Durability:** eGlass Windows are built to last, featuring high-quality uPVC framing material and fuse welded frames. Enjoy years of maintenance-free use and peace of mind.
- **Aesthetics:** Enhance your home's beauty with our elegant window designs and sleek sightlines. eGlass Windows seamlessly blend with any architectural style, adding value to your property.
- **Comfort:** Experience enhanced indoor comfort with improved insulation and noise reduction for a more serene living environment.
