ABOUT PFB VANISH

THE FIRST LINE OF DEFENSE

FOR PRE & POST HAIR REMOVAL

PFB Vanish is a unique, cosmetically elegant roll-on serum. This serum was formulated for ingrown hairs, razor burn and bumps resulting from shaving, waxing, tweezing, sugaring, threading, electrolysis and laser hair removal. PFB Vanish contains exfoliating and moisturizing ingredients to maximize your results.

Hair removal facilitates the process of ingrown hairs by "sharpening" the free hair end. Tender pimples then arise when closely cut hairs grow out and pierce the hair follicle or curl back and reenter the skin to cause a foreign body reaction. This condition is: Pseudofolliculitis Barbae (PFB)

THE ROLL-ONS

PFB REGULAR

The first original roll-on that came out on the market. Specifically designed for ingrown hairs, razor burn and bumps with powerful exfoliating ingredients: Salicylic Acid, Glycolic Acid and Lactic Acid.

PFB + CHROMABRIGHT

A 2 in 1 gel roll-on that exfoliates and brightens the skin. Formulated for ingrown hairs and dark spots. Chromabright is the patented skin brightening ingredient which shows significant lightening after 30 days.

PFB ULTRA

The strongest gel roll-on for severe dark spots. Enhanced with antioxidant power, exfoliators for ingrown hairs, and 4 powerful skin lightening ingredients: Shitake Mushroom, White Water Lily Flower, Plankton Extract and Chromabright.

DIRECTIONS

- Before applying, cleanse your skin.
- Wait for skin to dry completely.
- Start by applying every other day for a week.
- Then apply everyday, once a day.
- Apply ONLY 1-2 swipes, then MASSAGE into the skin until gel is fully absorbed.
- Leave it on, do not wash off.
- Apply a full-spectrum SPF30+ sunscreen to all exposed skin during the day. Reapply.

PRECAUTIONS

- DO NOT overuse and apply more than directed. Overusing can cause unwanted side effects. Ex: skin darkening, irritation, stinging.
- DO NOT use any other types of chemical exfoliants, scrubs, harsh soaps, and deodorants while using the roll-ons.
- DO NOT apply to irritated or broken skin.
- DO NOT use the roll-ons if nursing or pregnant.
- DO NOT use if allergic to aspirin.
- Apply to a small area once a day for 3 days to test if you are sensitive to the product.
- Wait 24 hours to apply before and after your hair removal treatments.
- Peeling is normal and will discontinue. Use a moisturizer or a dry brush ONLY to help with the peeling process.
