	BEAUTY IMAGE LUXE DETOX MICROPEARLS	Revision: 1 Creation Date :09/02/2018

PAO (PERIOD AFTER OPENING):

12 MONTHS

EXPIRY DATE (DATE OF MINIMUM DURABILITY)

GREATER THAN 30 MONTHS

QUALITY CONTROL AND SPECIFICATIONS

1. ORGANOLEPTIC CONTROL

PARAMETER	SPECIFICATION
APPEARANCE	Smooth & uniform
COLOUR	According to pattern (Black)
ODOUR	Characteristic

2. PHYSICO-CHEMICAL CONTROL

PARAMETER	SPECIFICATION
VISCOSITY 70°C , cps	3500-6500
VISCOSITY 60°C , cps	12000-16000
OCCLUDED AIR	negligible

- 3. MICROBIOLOGICAL CONTROL.** Both, the manufacturing method, (working at high temperatures) and the anhydrous nature of the ingredients allow concluding a good microbiological condition of the finished product. Some random controls made on several batches have proven that the product fulfills the below specifications although, regular microbiological analysis on every batch are not being performed

MICROBIOLOGICAL SPECIFICATION	
Total Aerobic bacteria, cfu/ml	< 10 ²
Molds and yeasts, cfu/ml	< 10 ²
Escherichia coli	Absence / 1g
Staphylococcus aureus	Absence /1g
Candida albicans	Absence /1g
Pseudomonas aeruginosa	Absence /1g

DIRECTIONS FOR USE

Melt the necessary amount of depilatory wax pearls in a suitable heater. Set the thermostat to the optimum temperature of application between 38-45°C and allow the wax to cool down.

The wax will be ready when it acquires a consistency like honey.

Using a spatula, spread a thin layer of product, in the sense of hair growth, over the area where the hair has to be removed. Once the wax layer becomes solid, lift it from one end and pull it off sharply in the opposite sense of hair growth.

We recommend finish waxing by applying Beauty Image Luxe Detox Sherbet

USE CAUTIONS:

Do not wax sensitive areas such as inside the nose, ears, nipples, irritated skin after sun exposure and warts.

Avoid exposing the waxed area to the sun at least during 24 hours after depilation. Before starting wax depilation, make sure the skin is clean and dry and there is no trace of grease or sweat.

PRIMARY AND SECONDARY PACKAGING MATERIALS

PRESENTATION: Box containing a bag with the wax in micropearls	
PRIMARY PACKAGING	<i>Material</i>
Plastic bag	PET film
SECONDARY PACKAGING	
Box	Cardboard

COMMERCIAL REFERENCE:

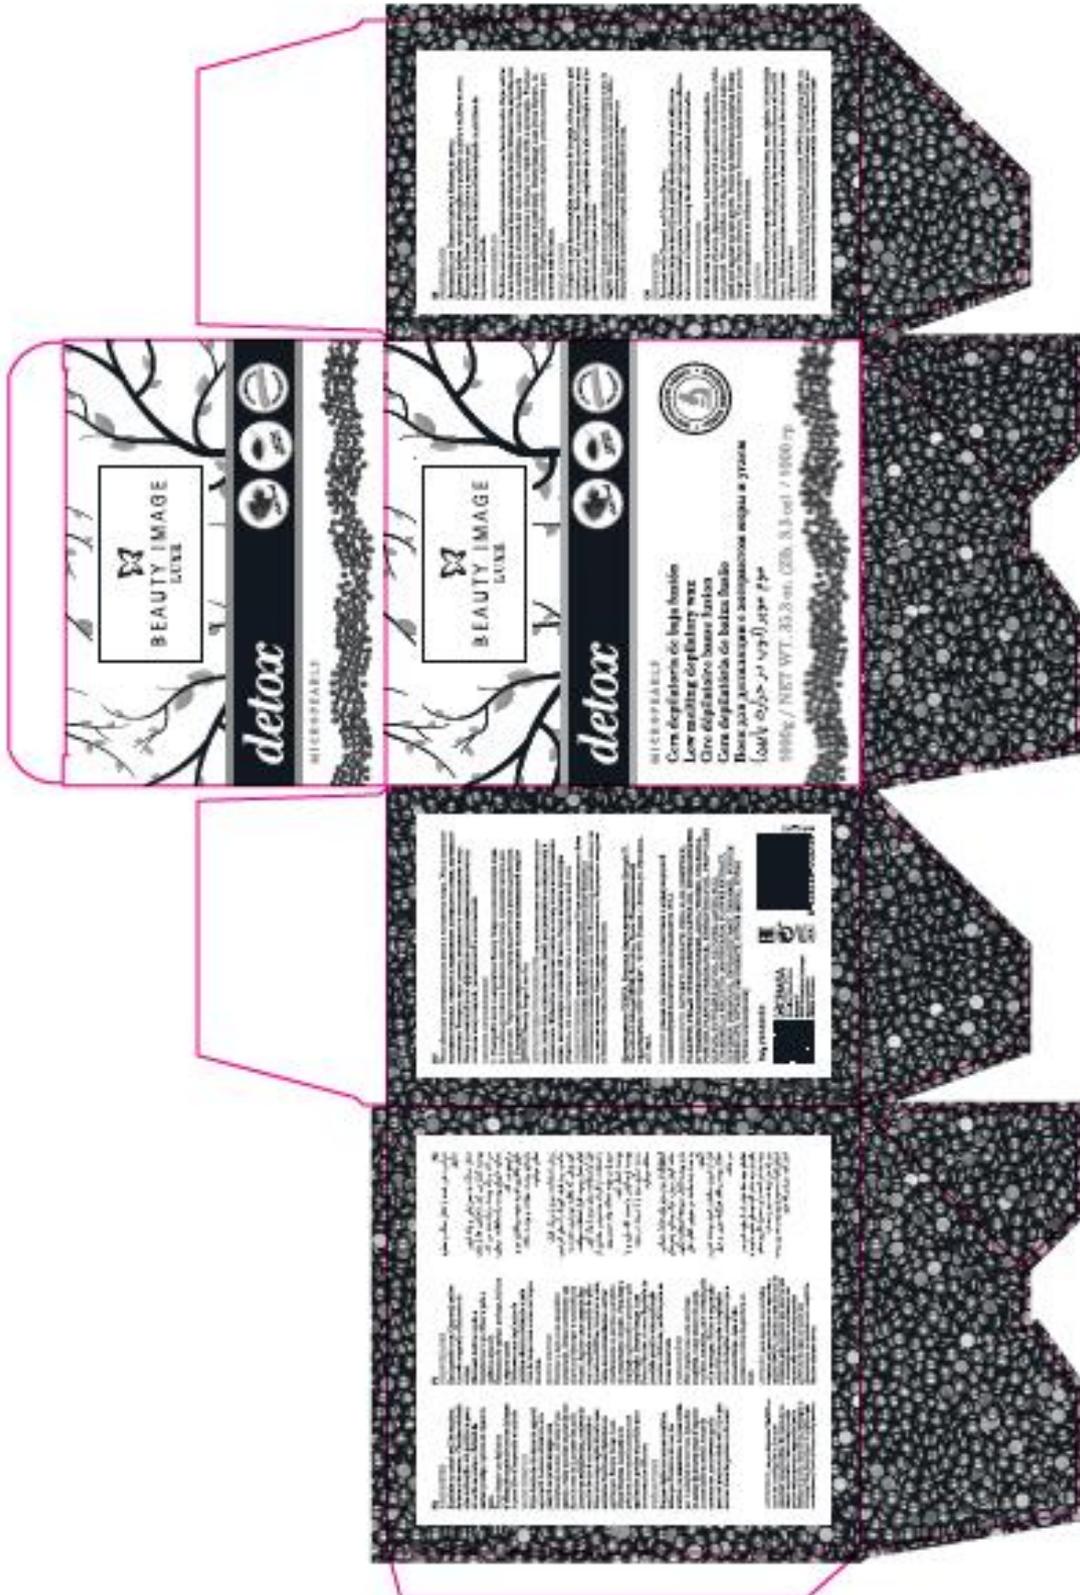

20043050 "BI/LUXE" DETOX MICROPEARLS 1KG

COMMERCIAL PRESENTATION:

Cardboard box containing 6 bags x 1Kg

LABELING:

BATCH

Assigned by CEMSA: 5 digits and a letter

L. 1 2 3 4 5 / X

L. : Initial that means LOT (BATCH).

1 and 2: They indicate the day of the month of production (from 01 to 31).

3 and 4: They indicate the week in the year of production (from 01 to 52).

5: It indicates the last digit of the year of production.

X: It is assigned in function of the order in which the product has been packed during the day (A for the first packed, B for the second and so forth)
