

WHY BIKINI MASK & MAN MASK?

Customers asked for an ALCOHOL-FREE alternative for clients with sensitive skin. We delivered!

Now you want to know...What is the difference between BIKINI & MAN MASK and ORIGINAL PFB VANISH? BOTH products may be used by clients. Here's how:

PFB Vanish is our *Award-Winning*, get rid of ingrown hair and razor bumps product. One of the reasons why it is so effective is that our Alpha-Hydroxy Acid (AHA) blend provides more bump preventing power than our Non-Alcohol Man Mask and Bikini Mask.

However, because the pores remain open immediately after waxing....this AHA blend can cause stinging for people with sensitive skin...especially in the bikini and groin areas where hair is thicker and pores are larger.

Bikini Mask and Man Mask is our Alcohol-Free, cream-based botanical version of PFB Vanish. These products were designed to be calming and soothing for sensitive areas in order to avoid a painful reaction immediately after waxing.

Once your skin is back to normal in 1 – 2 days you can go back to using our original PFB Vanish or PFB Vanish with Chromabright.

Bikini & Man Mask Key Ingredients and their purpose:

- **Glycerin** is a humectant that draws moisture to the skin.
- **Prunus Amygdalus Dulcis (Sweet Almond Oil)** provides dispersion of product so it spreads easily and evenly on the skin.
- **Mentha Piperita (Peppermint) Leaf Extract** is cooling and uplifting.
- **Chamomille Recutita (Matricaria) flower extract** is a calming and soothing tonic to the skin.
- **Allantoin** (from comfrey) soothes, protects and accelerates the healing of wounds.
- **Aloe Barbadensis (Aloe Vera extract)** is soothing and healing with a pain relieving agent that starts healing on contact. Aloe Vera also promotes the removal of dead skin while stimulating the growth of living cells.

Bump Fighters:

- **Retinyl Palmitate** is a vitamin A extract with skin smoothing and healing properties.
- **Resorcinol** is a natural preservative that is astringent and used as an anti-itch agent.

Man Mask also includes:

- **Bromelain** is a mixture of protein digesting enzymes found in pineapple juice stems. It dissolves dead skin cells to help ingrown hair come out of pores.
