In these hectic times, we crave simplicity and calmness. Axor Starck concentrates on the essentials: the interaction with water. The principle of reduction is reflected in basic forms and clear functions. Nothing is distracting. Timeless design which outlasts fleeting trends.

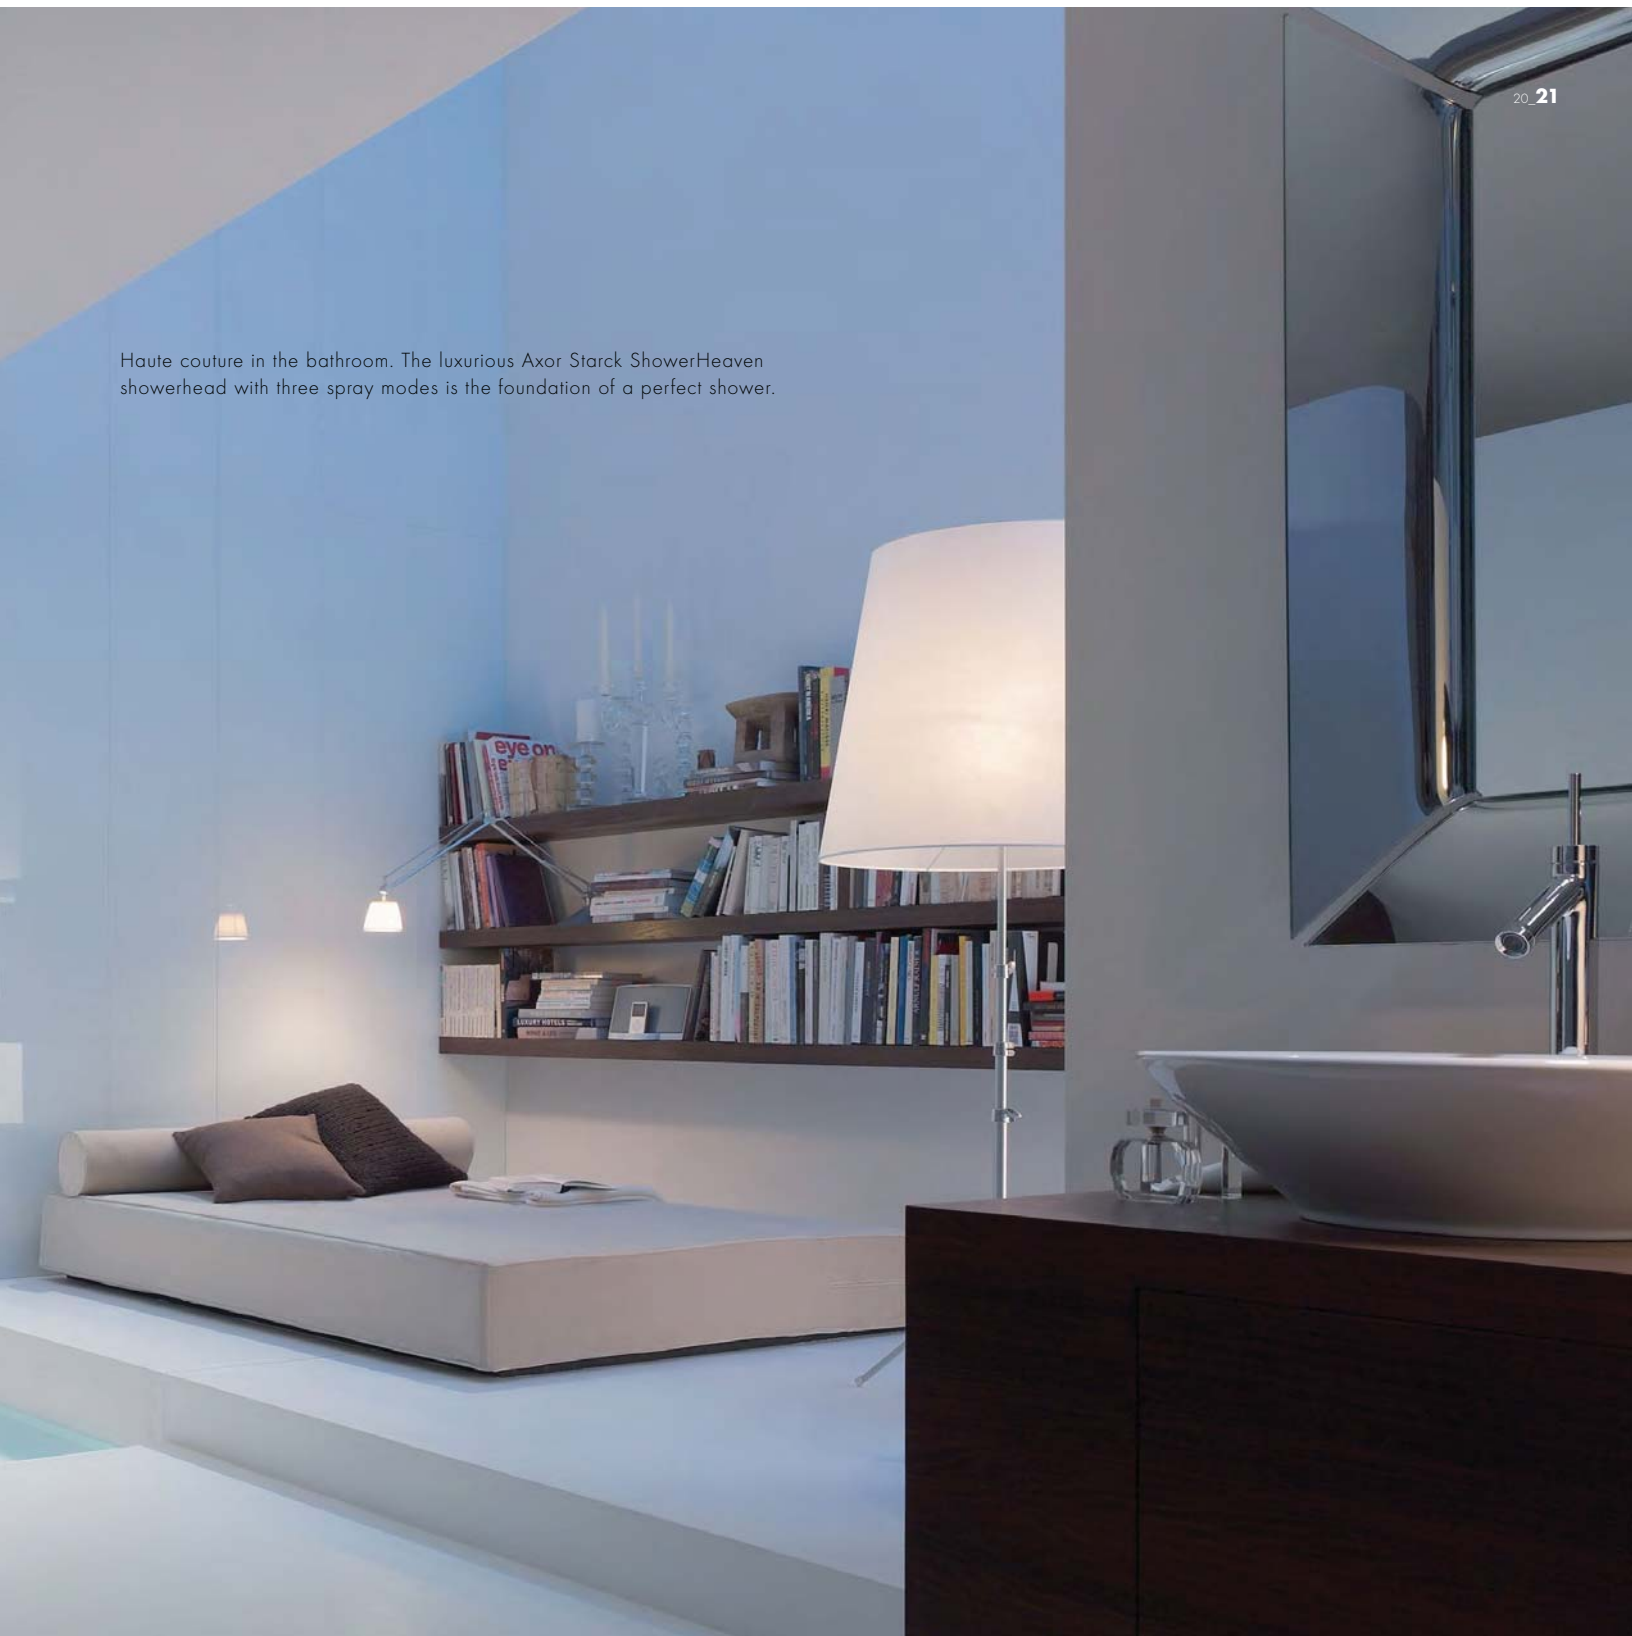

Haute couture in the bathroom. The luxurious Axor Starck ShowerHeaven showerhead with three spray modes is the foundation of a perfect shower.

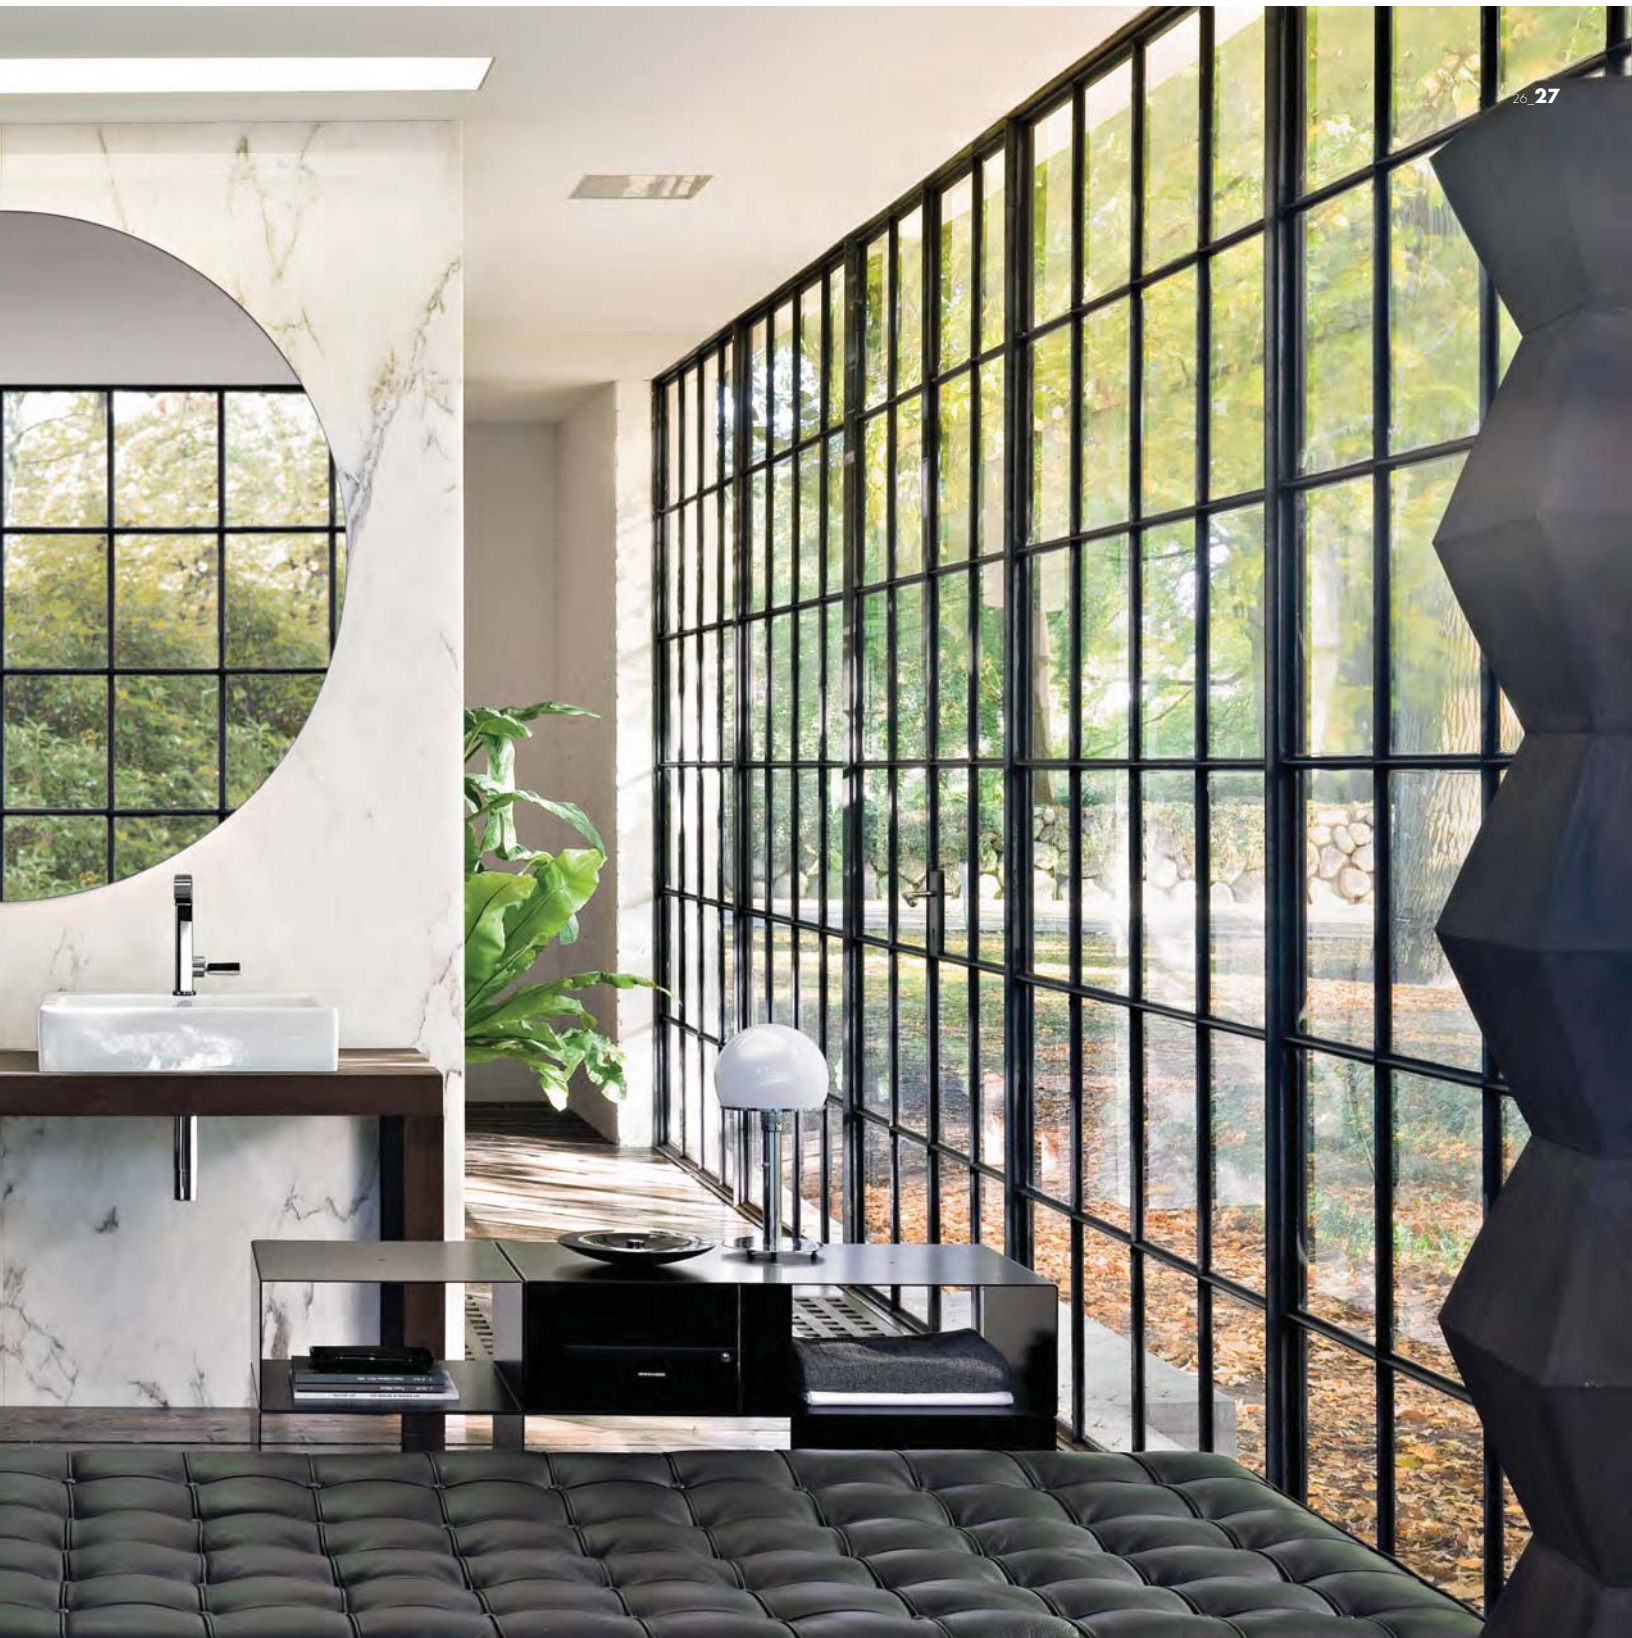

According to Antonio Citterio, bathroom fixtures are not only individual products, but also define the space. Here, the bathroom is divided into two areas, one for cleansing and the other for relaxation.

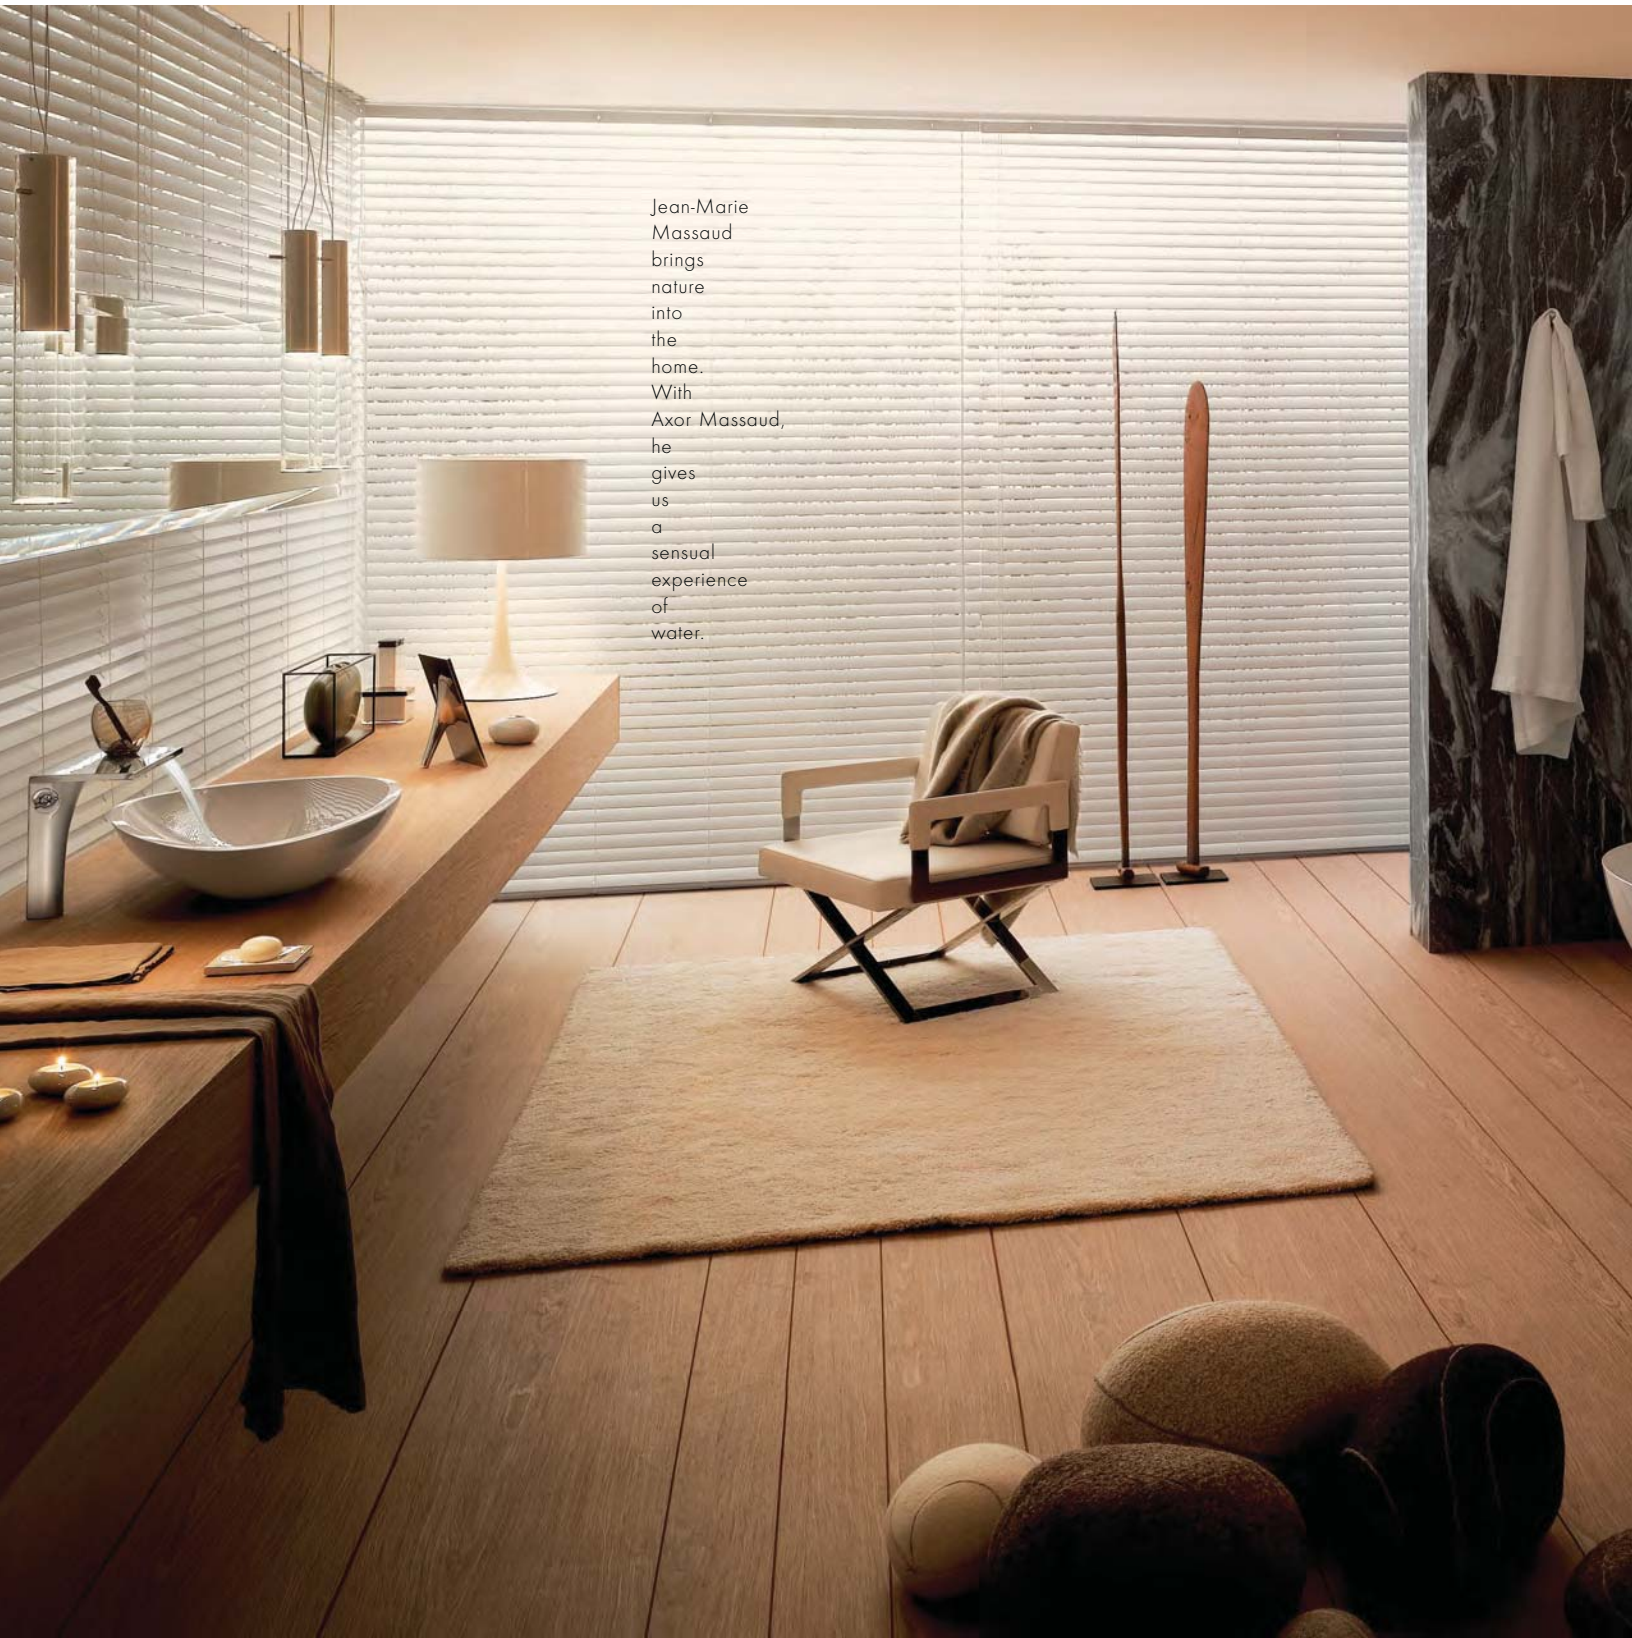

Characterized by flowing transitions, soft shapes and gentle curves, Axor Urquiola offers a complete collection for the bath in chrome and polished nickel.
