

ADVANCED REJUVENATING CONCEPTS™

DISCOVER THE SCIENCE
OF SKIN REJUVENATION™

Skin Health

PERSONALIZED

We're differentiating and empowering aestheticians with formulations that deliver fully-customized client experiences—because everyone's skin is unique.

Advanced Rejuvenating Concepts Professional peels and protocols deliver the perfect balance of scientifically researched ingredients with innovative technology to ensure long-lasting benefits towards graceful aging and improved skin health.

INGREDIENT TECHNOLOGY

Developed with micro encapsulation and ideal pH levels to encourage optimal delivery and lasting benefits for skin.

FORMULATED TO REJUVENATE

Clinically proven ingredients that deliver results: peptides, plant stem cells, retinol, AHA/BHA, AOX, and brighteners.

CHIRALLY OPTIMIZED LASTING WEAR

Chirally optimized for lasting wear and bioavailability delivers optimal results for the most troublesome skin concerns.

ADVANCED REJUVENATING CONCEPTS™

DISCOVER THE SCIENCE OF SKIN REJUVENATION™

Nothing compares to the immediate and noticeable results that ARC Professional Peels deliver—they're the most profitable tools in your treatment room. Universally beneficial and applicable with technology, they deliver safe and customizable experiences that keep your customers returning regularly.

Revolutionizing Results

WITH PRO-REJUVENATION PEELING

Personalized therapy creates an elite experience with remarkable results—and clients are asking for it. With Advanced Rejuvenating Concepts, you take the reins and give each individual the opportunity to relax and unwind as you deliver the best facial experience for their skin.

4 STEPS TO BETTER-LOOKING SKIN

EVALUATE

SKIN WORK

SPA RELAXATION

REJUVENATE

WORK SMARTER

It all starts with our Signature Rejuvenation Facial, an elite experience that empowers aestheticians with the flexibility to choose peel solutions based on your client's skin type and concern, without having to memorize complicated steps or a specific protocol for every peel.

The Signature Rejuvenation Facial Protocol is the foundation to all Advanced Rejuvenating Concepts procedures and an integral part of creating and maintaining healthy, beautiful looking skin at any age.

PRO-GLYCOLIC PEEL 15% - 2.8 pH | 30% - 2.5 pH

The gold standard of peel treatments, ARC Pro-Glycolic Peel lifts away dead skin cells and triggers living cells to multiply—increasing hydration and collagen synthesis to help skin look and feel younger.

Fructooligosaccharides [FOOS], a potent source of prebiotics, helps enhance the skin's microbiome and is a natural hydrator.

Glucosamine HCl amino acid is a skin-replenishing ingredient aimed at diminishing signs of aging.

NORMAL | DRY | COMBINATION | OILY

AGING | ACNE | HYPERPIGMENTATION | DEHYDRATION

PRO-LACTIC PEEL 30% - 1.9 pH

Hydrating and texture-refining, ARC Pro-Lactic Peel naturally increases skin hydration and improves suppleness to diminish signs of aging and sun damage.

Phenyl-t-butylNitron [Spin Trap], Ginkgo + D-Beta Carotene, a potent source of antioxidants that help diminish signs of aging and improve barrier functions.

NORMAL | DRY | COMBINATION | SENSITIVE

AGING | HYPERPIGMENTATION | DEHYDRATION

PRO-SALICYLIC PEEL 20% - 2.0 pH

A natural keratolytic, comedolytic and bacteriostatic agent, ARC Pro-Salicylic Peel frosts to lift-away superficial skin cells and release blocked pores. It also constricts pores to prevent future breakouts, PIH and scarring.

Lactobacillus/Clover Flower Ferment boosts peel absorption and eliminates the need for a degreasing prep for oily skin types.

Arginine amino acid is a hydration-replenishing ingredient aimed at combating the dehydrating effects of BHA.

NORMAL | COMBINATION | OILY

ACNE | HYPERPIGMENTATION | DEHYDRATION

Need A Boost?

ENHANCED PEEL BLENDS

Power peeling, brightening, and smoothing with Advanced Rejuvenating Concepts Professional Blended Peels.

Dual-action peeling rejuvenates at the cellular level by diminishing lines, softening scars, building collagen, and brightening discolorations—and they come in different strengths.

With our modern clinical formulations you have the power to choose the best peel solution and strength for your client's skin, delivering a safe and beneficial result.

BLUE ENZYME PEEL 30% Lactic - 2.0 pH

Dual-action exfoliation with a stimulating stem cell mélange, ARC Blue Enzyme Peel is designed to rejuvenate the skin by diminishing lines, softening wrinkles, building collagen, and brightening discolorations.

Botanical Stem Cells [Agave, Bilberry, Kelp + Ascophyllum] support collagen synthesis and improve skin elasticity.

Exfoliant Blend [Lactic Peel, Grapefruit + Bromelain] polish and perfect skin appearance with multi-level exfoliation.

NORMAL | DRY | COMBINATION

AGING | HYPERPIGMENTATION | DEHYDRATION

CITRUS-C PEEL 30% Glycolic - 1.5 pH

Invigorating and brightening peel, Citrus-C triggers activity in the skin, to improve visible signs of sun damage, melasma, and age spots—and for a fraction of the cost of tech-based procedures.

L-Ascorbic Acid influences collagen and is a natural tyrosine inhibitor that encourages a brighter, more even skin tone.

Exfoliant Blend [Glycolic Peel, Lemon + Citric Acid] polish and perfect skin appearance with multi-level exfoliation.

NORMAL | DRY | COMBINATION | OILY

AGING | ACNE | HYPERPIGMENTATION | DEHYDRATION

PUMPKIN PEEL 30% Glycolic - 2.0 pH

Unlike other pumpkin “peels” available, ARC Pumpkin Peel is formulated with sensitivity and rosacea skin concerns in mind. It’s unique formula targets textural concerns while actively reducing redness and inflammation, and boosting hydration and matrix support for improved skin health.

Exfoliant Blend [Glycolic Peel, Pumpkin Enzyme + PHA] polish and perfect skin appearance with multi-level exfoliation.

NORMAL | COMBINATION | OILY | DRY | SENSITIVE

ROSACEA | AGING | ACNE | HYPERPIGMENTATION | DEHYDRATION

MD Skin Peeling

MID-DEPTH SOLUTIONS

Chronic skin damage needs rapid rejuvenation. Advanced Rejuvenating Concepts Medium-Depth Peels maximize results with a layered treatment that targets advanced signs of aging, sun damage, and superficial scars—for a fraction of the cost of laser procedures.

BOOST SKIN HEALTH

Once they touch the skin, Advanced Rejuvenating Concepts MD Peels work-down to the papillary dermis to lift and detach superficial layers and encourage sheet peeling and sloughing.

Over a seven-to-ten day period a more radiant, brighter and receptive skin is revealed. Advanced Rejuvenating Concepts MD Peels are formulated with clinically-proven actives that encourage the skin to look and act younger over time.

NOTHING COMPARES

“My all-time favorite peel is the Ruby Red Jessner. I am amazed at the results every time I use it! It gives me the opportunity to check in and communicate with my client daily while they are going through the peel process. It helps me build trust with them. By the end of a 7-10 day peel they think I am the guru of skincare!

REBRIGHT PEEL

For clients who want to peel. ARC Rebright Peel targets sun damaged skin, discolorations and scars with a clinical mid-depth peeling jessner blend.

14% Jessner Blend [Salicylic, Lactic + Resorcinol] a keratolytic peel blend for superficial to mid-depth skin peeling.

2% Hydroquinone [optional] a depigmenting agent used to lighten freckles, age spots, PIH by decreasing the formation of melanin.

NORMAL | DRY | COMBINATION | OILY

AGING | ACNE | HYPERPIGMENTATION | DEHYDRATION

TEXAS RUBY PEEL

Collagen-boosting jessner formula to target lines, wrinkles, discolorations, uneven skin tone, and enlarged pores. ARC Texas Ruby Peel spans into the papillary dermis and encourage flushing and light frosting.

14% Jessner Blend [Salicylic, Lactic + Resorcinol] a keratolytic peel blend for superficial to mid-depth skin peeling.

Ruby Blend [12% Wine Extract, Raspberry + Lycopene] a potent antioxidant and resveratrol blend to help rebuff environmental damage and encourage rapid recovery of the skin.

NORMAL | DRY | COMBINATION | OILY

AGING | HYPERPIGMENTATION | DEHYDRATION

A+ RETINOL PEEL

Created as a post-microderm peeling solution, ARC A+ Retinol Peel encourages rapid regeneration of the skin with light skin peeling to improve the look of sun damaged skin, discolorations, lines and wrinkles, and acne scars.

Retinol Blend [10% Retinol + 8% Retinyl Propionate] boost epidermal renewal and support collagen synthesis.

Absorption Blend [10% Acetic Acid + 18% AHA] amplify the absorption of actives to stimulate deeper layers of skin.

NORMAL | DRY | COMBINATION | OILY

ACNE | HYPERPIGMENTATION | DEHYDRATION

Taylor Your Treatments

SUPER SERUM BOOSTERS

Everything your practice needs to customize and amplify results from ultrasonic sculpting and clinical aesthetic procedures.

EGF SYNTHESERUM BRIGHTENING BOOST

Rejuvenating and brightening serum for progressive microderm and microneedle procedures.

rh-oligopeptide-1 [Epidermal Growth Factor] A Nobel Prize winning complex polypeptide that works from the bottom-up to repair damaged tissue and encourage a youthful skin appearance.

REST-N-RESTORE HYDRATION BOOST

Plumping ultra-light gel that volumes skin and improves skin health and barrier functions.

Sodium Hyaluronate [Hyaluronic Acid] increases the overall water content of the skin, resulting in a softer, firmer, and healthier look with improved retention.

OPTI-RENEW COMPLEX BARRIER BOOST

Contributes to youthful, healthy skin functions, and complements ultrasonic infusion procedures.

Encapsulated Vitamin Complex [Tocopherol, Retinol-P + MAP-C] boost hydration levels, brighten skin tone, reduce the appearance of lines and wrinkles, and smooth skin texture.

WRINKLE RELEASE LINE-REDUCING BOOST

Expression line solution that addresses both dynamic wrinkles and future wrinkle development.

Acetyl Hexapeptide-3 [10% Neuropeptide] helps reduce expression lines on the forehead and glabella, crow's feet, bunny nose lines, nasolabial folds and marionette lines.

ADVANCED REPAIR SERUM REDNESS-RELIEF BOOST

Phytosterols improve skin resilience and help neutralize redness in sensitive and rosacea skin types.

Soothing Complex [Canadian Willowherb, Phenyl-T-Butylnitron, Emu Oil] promote calm skin by reducing oxidative stress and relieving visible signs of inflammatory triggers.

ESSENTIAL EYE COMPLEX EYE-AREA BOOST

Pro-vitamins and peptides contour the eye area, brighten dark circles, and smooth crow's feet and fine lines.

Palmitoyl Oligopeptide + Palmitoyl Tripeptide-7 [Matrixyl 3000] a 3-in-1 designer peptide that activates cells to reduce lines and wrinkles, brighten complexion and firm the skin.

“

This line is the best! I'm so committed to Advanced Rejuvenating Concepts. I love everything about it, especially how you can feel it working the minute you put it on. My clients love the experience, the feel, and the results.

Aesthetician, Spa Owner*

Ultrasonic Sculpting

SKIN REJUVENATION FOR ALL

One of the biggest breakthroughs in non-invasive aesthetic treatments, ARC Ultrasonic infuses hyaluronic acid and peptides deep into the layers of skin—where collagen and elastin help rebuild the dermal fiber network.

Ultrasonic Rejuvenation uses non-invasive sound energy, moving at 27,000 PPS. Skin-fusion with our complete set of active products activates cells deep in the layers of skin, encouraging them to at younger!

Our favorite tech-based facial treatment, the Ultrasonic Rejuvenation System is the most versatile tool in your treatment room, and clients love the immediate and long-lasting results from each customized facial treatment.

WORK SMARTER

Blending treatments with Ultrasonic Rejuvenation gives your clients the customized facial experience their looking for, and builds on your reputation as a serious skin professional.

Pair Ultrasonic with our Pro-Rejuvenation Peels and Enhanced Peel Blends, crystal-free microdermabrasion, nano-needling, and more.

MAKE THE RIGHT INVESTMENT

ULTRASONIC // MICRODERM // HIGH-FREQUENCY

Every equipment purchase at Advanced Rejuvenating Concepts includes one-on-one training in our virtual classroom, access to online marketing and education resources, and exclusive treatment protocols and techniques for maximum results with minimal irritation.

“

Once I started using ARC Ultrasonic in the treatment room, I noticed an immediate difference in my clients skin and the results lasted longer! One client saw a reduction in wrinkles around her eyes so pronounced her friends asked if she had “some work” done!
