

Discussing Nella® with Your Clinician

Use our resource guide to help guide your conversation with your clinician

Share this info with your clinician at your next appointment by emailing the link, downloading the pdf of this sheet, or saving a screenshot to your phone.

FOR YOU

How To Talk To Your Clinician (doctor, GYNO, OBGYN, midwife, nurse...) about switching To Nella at your next exam.

Here are a few prompts to get the conversation started.

"I know that my yearly exams are important, but they make me nervous. I recently read about NELLA®, an alternative to traditional metal speculums that are narrower and more comfortable for women. Have you heard of it?"

"I know that cervical checks are key to my healthcare, but regular speculums aren't comfortable for me."

"I would feel better about these examinations if the tools you used weren't so intimidating. I'd love it if you looked into NELLA®, a new speculum that's narrower, less painful and easier to insert."

Purchase your own COMFORT KIT on nellaspec.com

The kit will be sent to your healthcare provider
in advance of your next appointment.

FOR YOUR CLINICIAN

Everything Your Clinician Needs to Know about NELLA

ABOUT NELLA

Nella is the first speculum designed for the ultimate in patient comfort.

Improved Cervical Visibility

Integrated sidewall retractors retain lax or redundant vaginal tissue.

A Modern, Gentle Speculum

- Ultra narrow bill
- Smooth, temperature-neutral material
- Quiet operation

Ergonomic Efficient Design

- Angled handle
- One-handed locking

A FULL VIEW

Why Clinicians Prefer Nella.

Integrated sidewall retractors keep sidewall tissue out of the way for more efficient exams and procedures. NELLA® is used at more than 500 practices, hospitals, and offices worldwide.

Comfortable Patient

99% of WOMEN PREFER the NELLA® over a metal speculum.¹

Happy Patient

As narrow as a tampon, the NELLA® also operates quietly and without that dreaded cold feeling, keeping patients comfortable and at ease.
