Any history of issues with horse that affect saddle fitting: _____
Rider injury or physical issue which requires attention: _____
Saddle suggestions/Notes: _____ _____

<p>Every effort has been made to ensure a good fit, however please bear in mind that with all saddles, flocking will settle and horses do change shape.</p> <p>The time of the year, the age of the horse, the work being done, and even a change of rider or home may considerably contribute to and alter the way that a saddle fits.</p> <p>We suggest that it is good stable management to monitor this and to regularly check for any signs of discomfort to your horse. Please contact us in the first instance should you have any queries.</p> <p>Customer Signature: _____</p>
