Tips to beat stage fright

Before going on stage:

- Watch other comedians to learn what works and what makes you laugh.
- Practice saying your joke, or jokes, a few times. Try saying it in different ways. Test it on a friend, or practice in front of a mirror.
- Many performers warm up their voices before going on stage. This helps them speak clearly and loudly enough to be heard without hurting their voices. It also boosts confidence! Try humming and singing.
- Just before stepping on stage, take a few deep breaths to calm any nerves.

When you are on stage:

- Take your time and speak up so everyone in the audience can hear you.
- In comedy timing is everything. When you set up your joke (ask the question), give the audience a moment to think of what the answer might be, then surprise them with the punch line. You can even laugh at your own joke. Everyone loves to laugh together!
- Keep your energy up! Jokes are exciting. A good one will be passed around by everyone in the audience. You’ll be famous!
- It’s all in the delivery. Try using a funny voice. Gesture to the audience. Does your joke need a prop? A rubber chicken gets ‘em every time.
- Most of all: Have fun!
