

Exploration 6: Tracking the Path of the Sun

RECORDING YOUR IDEAS

- ?** 1. Draw an outdoor object with its shadow. Make an arrow to show the direction to the Sun.

- ?** 2. How does the Sun appear to move in the sky over the course of a day?

- ?** 3. Do you think the path of the Sun in the sky, as you see it, is the same throughout the year? Why or why not?

- ?** 4. Do you think the daily rising and setting locations of the Sun on the horizon are the same throughout the year? Why or why not?

- ?** 5. My question about the path of the Sun across the sky is
