WOOD PANELING DESIGNS

JAVA CREATIONS

RECLAIM

By repurposing wood, we let trees and forests thrive.

RECYCLE

For our planet, for our craftsmen and their community, for our clients

CREATE

Every piece of wood has its own characteristics and so does every project we make.

JAVA CREATIONS

WHO ARE WE

At Java Creations our goal is to provide the highest quality repurposed interior décor products and housewares that reflect not only your aesthetic, but that have a story. Having traveled the world, we know the feeling something special acquired during a trip brings. At first perhaps just a memento, but after time a deeper memory and conversation piece that brings you back to its origin again. Though you may never have visited East Java, we think our products will create an unspoken link between you and the artisans and fisherman who put their heart into our products. Their masterful handiwork, along with our love for pieces full of rustic and vintage charm inspired us to share these products with you. We are proud that our work provides local fisherman and craftsmen a sustainable income and continue to think of new products that will inspire our customers.

18-19 — Recent Projects

20-21 — Latest Projects

01 – Wall Paneling Designs

Modern, rustic and traditional styles that bring a ton of character to your project. Handmade from reclaimed barnwood and wood planks from fishing boats or 100% reclaimed teak. Dried for 8-12 months to ensure durability.

TEAK STONE WALL MB-007

These panels take sustainability to a new level by using 100% reclaimed teak wood panels. These flat tile-like pieces work to create a modernized retro look that gives the look of stone but with the warmth of wood. They are adhered to a CARB approved tropical hardwood plywood backing (made of Meranti wood).

MATERIAL

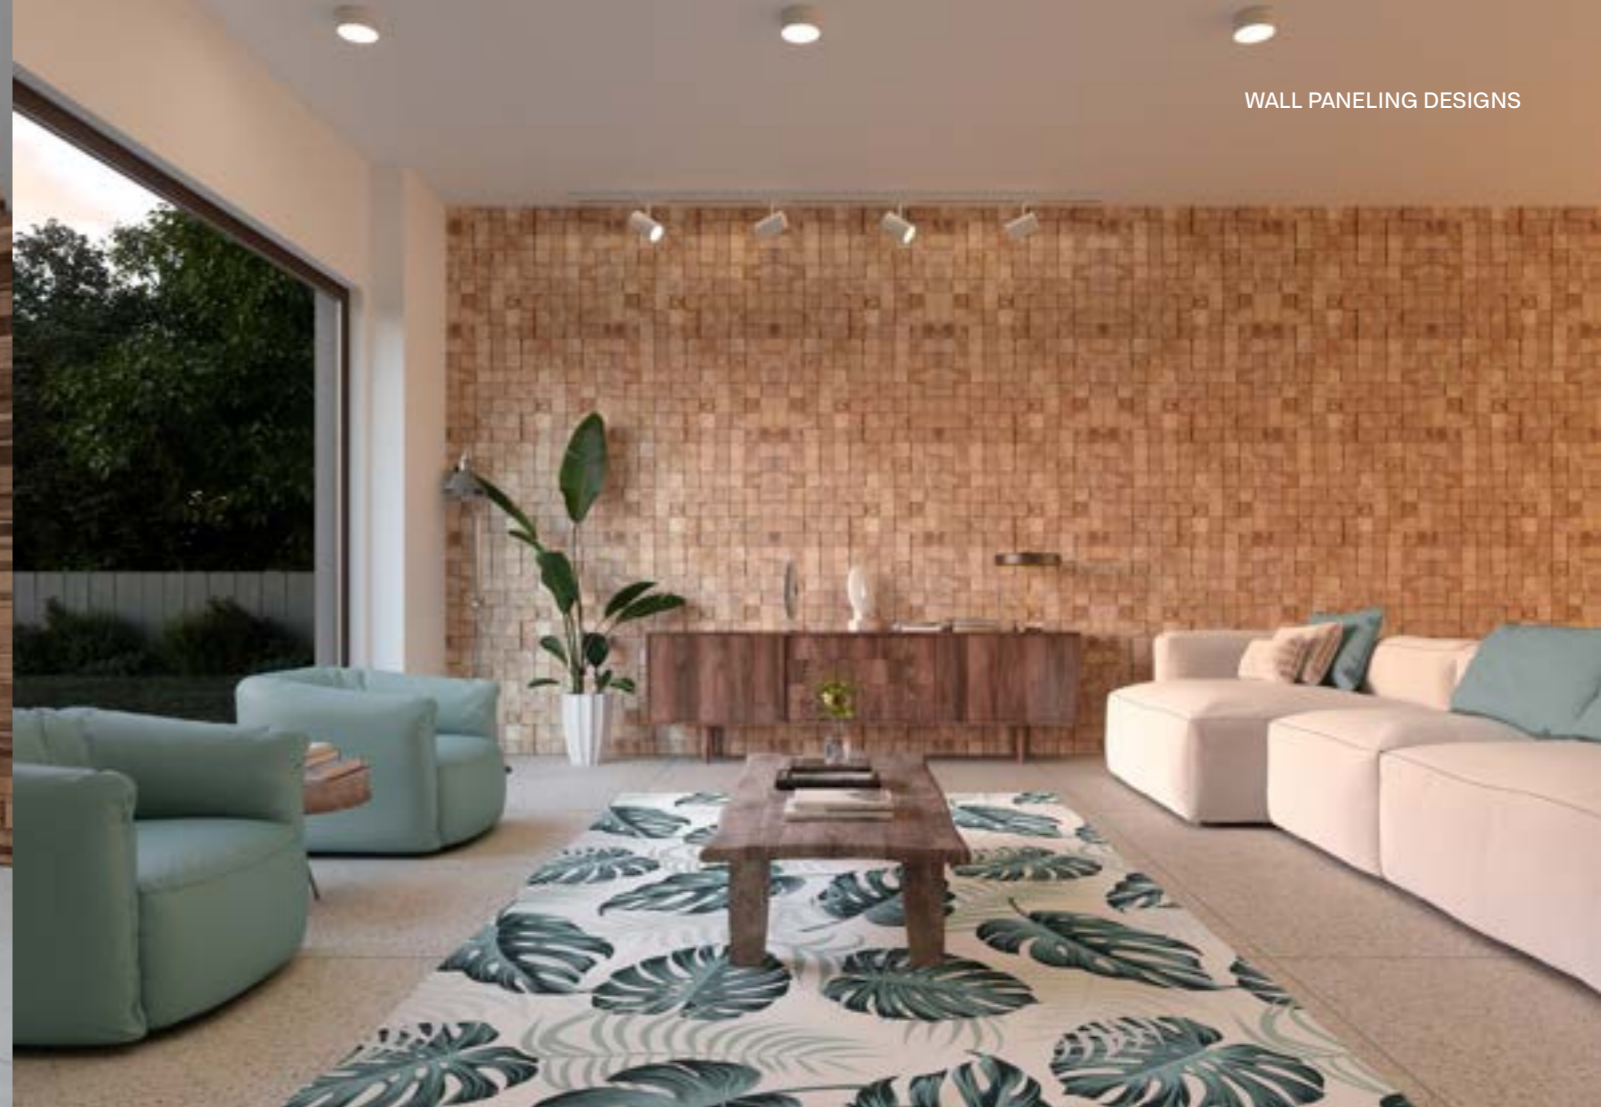

- 100% teak wood
- Nicely geometrically sawn and handmade processing
- Plywood base 6mm full tropical hardwood

DIMENSIONS

Plank dimensions: L 48" x W 12" x T 0.75"
 Panels per Carton: 5
 19.4 sf/carton

THE PROCESS

01 RECLAIM

All of our products are made of reclaimed and recycled teak-wood sourced from unused fishing boats and barns from East Java, Indonesia.

02 RECYCLE

All of our products are made of reclaimed and recycled teak-wood sourced from unused fishing boats and barns from East Java, Indonesia.

03 CREATE

The full process from reclaiming to finishing takes up to a year in order to meet our quality standards. All our products undergo rigorous inspection before packaging.
