MERIDIAN SERIES
KRAD NIGHT VISION SCOPE

APP CONNECTIVITY

1. Download our app, "X-Vision Night Vision 2.0".

2. Connect your mobile device to the Scope Wi-Fi Network. (Example: XNV@12X12345678X)

3. Enter the password: "12345678".

4. Open the app to set up and use your KRAD Night Vision Scope.

ZERO YOUR SCOPE

1. Set up the zeroing target at a range of 50 yards.
2. In the app, go to Systems Information and scroll down to the "Zeroing" section.
   - Set units to "British System".
   - Set "Zero Range" 50 yards.
   - Set "CursorX" and "CursorY" to (0,0).

3. Aim at the center of the target and fire one round.
4. Note the X and Y coordinates at the impact point.
5. In the app, set the values of "CursorX" and "CursorY" to the values identified in Step 4.
6. Fire another round to confirm the scope is zeroed in
7. If further adjustment is required, adjust the coordinates
