2   3   4   5

PRODUCT OVERVIEW
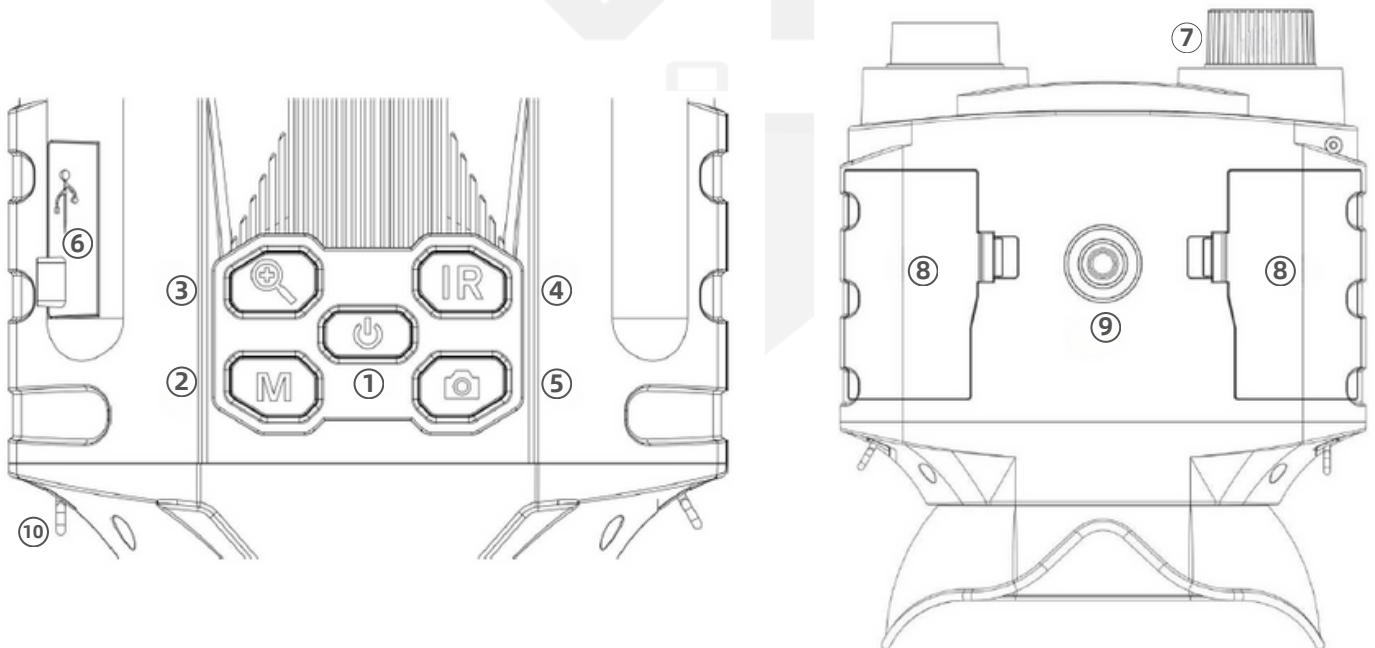

1	Power	6	USB-C and Memory Port
2	Mode	7	Focus Wheel
3	Magnification	8	Battery Compartments
4	IR	9	Tripod Mount
5	Camera	10	Neck Strap Hooks

GET STARTED

1. Remove the Battery Compartment covers and insert 6 AA batteries, ensuring each battery aligns with the marked arrows inside.
2. Insert a micro memory card into the port in order to record photos and video.
3. Hold the **Power Button** until the device turns on
4. Press the **IR Button** to adjust the device IR brightness from levels 1 to 4.
5. Press the **Magnification Button** to adjust the image magnification from 2 to 8x.
6. Press the **Mode Button** to switch between Photo, Video, Menu, and Playback mode.
7. Press the **Photo Button** to record photo or video.
8. Adjust the **Focus Wheel** until the picture in the device display is clear

RECORD PHOTO AND VIDEO

▶▶ RECORD MODE

📷	**Photo Mode**
🎥	**Video Mode**
▶	**Playback Mode**

Press the Mode Button to switch between Photo, Video, Menu, and Playback Mode.

When Photo Mode is selected, short press the Photo Button to take a picture.

When Video Mode is selected, short press the Photo Button to start recording, and press again to stop recording.

▶▶ MEDIA PLAYBACK

In Playback Mode, use the Zoom Button and IR Button to navigate up and down through the recorded media on the device. Press the Photo Button to confirm the selection.

Date/Time Tag	Add or remove date + time stamp from recorded media
Version	Check the device software version

DOWNLOAD MEDIA

When you take photos and videos with your Shadow Series Night Vision Binoculars, it will be important to download your media. There are two ways to do this:

▶▷ CARD READER

The first option is to insert the memory card into a card reader. Eject the memory card from the device and insert it into your computer or card reader. Connect the card reader to your computer and open the file explorer. Navigate to the memory card folder, and copy your media from the card to the directory of your choice on the computer.

▶▷ USB CABLE

The second option is to use the USB cable. Connect your device to the computer using the supplied USB-C cable. Open the file explorer on the computer, and navigate to the "Removable Disk" icon that appears. Files stored on the device are located in a folder named "DCIM." Copy your media to the directory of your choice on the computer.
