A stronghold for future industries, the best place for investment
'GIMJE' Free Trade Area in Korea

Where the world pays attention, you are the main character.

- **Company Name** Soriso Co., Ltd.
- **Date of Establishment** March, 2005 (Conversion of corporations in 2011)
- **CEO** HYANG JA, CHOI
- **Business type** Cosmetics Manufacturing (OEM/ODM)
- **Area** 3305 m²
- **Customer Service** 063) 545-1195
- **Web-Site** sorisoskin.com | sorisoskin.co.kr
- **Location** 195-20, Jayumuyeok-gil, Baeksan-myeon, Gimje-si, Jeonbuk-do, Republic of Korea

A FREE TRADE ZONE

Areas designated to contribute to attracting foreign investment and boosting exports by allowing exceptional measures such as reservation of tariffs on economic activities such as education, production, and investment within the state

History

2005

Established Soriso, a Korean medicine cosmetics company

2007

U.S. Home Shopping Enters Home Shopping and Signs \$1 Million Contract
Selection of promising small and medium-sized export enterprises

2008

Daegu Gyeongbuk Oriental Medicine Industry Promotion Agency
Patent registration for herbal cosmetics to improve atopic dermatitis

2009

Construction of Production plant facilities
ISO14000, 9001 Certified

2010

'GMDANSU' trademark registration
INNOBIZ/Venture Company certification

2011

Conversion of Soriso Corporation Co., Ltd. Hong Kong's 'Skin Farm' to close \$1.3 million contract

2012

Recognized as a corporate-affiliated research institute, Acquisition of China Sanitation Permit

2013

More than 350 stores in Hong Kong A Company
Patent registration for ginseng saponin Rg1 and Bokryeong fermentation products

2014

Japan Export (Rakuten), Australia Export, Lotte Duty Free Shop Enters

2016

Patents for mulberry/Blueberry/Schisandra Berry Cosmetic Composition

2018

Move to the Free Trade Zone in Gimje-City

2019

Certification (ISO22716)
Building Smart Factory Facilities

2021

Development of Cosmetics Using New Materials of 'Graphene DDS'

2022

Authorization of Animal Non-Pharmaceutical Manufacturing Plant

2023

Development and production of 'PDRN'

R&D Investment Status

With **30 years** of **vast research data** and **accumulated know-how**, we manufacture only the best products

R&D Research expenses

Natural Ingredients Managing System

We have a state-of-the-art system system that manages a series of processes ① **Cultivation of raw materials**, ② **product development**, ③ **product manufacturing**.

Operation of **Soriso Wild Herbal Plantation** in Pohang, North Gyeongsang Province

By directly cultivating raw materials and extracting them through the patent method of Soriso, obtaining reliable raw materials, thereby **forming reasonable prices by reducing raw material costs**

Cooperation in technology development of **domestic leading institutions**

Cooperation in technology development with major institutions and university research institutes in Korea

Large-scale manufacturing facilities in the free trade zone in Gimje-city

Finished with state-of-the-art cosmetics manufacturing and production facilities

Business Areas

From the product planning stage to development, manufacturing, production, and shipment, **we provide customer needs first.**

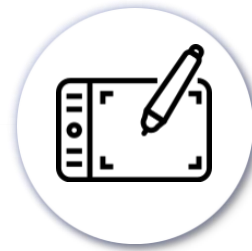

OEM / ODM

Provides low needs MOQs and high satisfaction by taking advantage of product-related customer

Overseas Export

Fast and smooth export operations with extensive overseas export experience

Design

Provide high-quality services through a wide network other than Soriso's own support such as container & product design

Consulting

Support consulting services in terms of market entry and promotion/marketing from product planning to sales

Patents | Major Patent Certification Status

Cosmetic composition for **preventing and improving a topic dermatitis** (No.10-0633041)

A cosmetic composition for preventing and improving atopic dermatitis containing water extract from **Lindera obtusiloba stems** as an active (No. 10-1124442)

Cosmetic composition containing '**Prunus Persica (Peach) Kernel extract and fraction**' (No.10-0891734)

Natural herbal cosmetics using **ginseng saponin Rg1 and Bokryeong fermentation products** (No.10-1238825)

Granulants with improved storage stability of anthocyanin pigments of **mulberry, blueberry, Schisandra Chinensis Fruit extract**, and their preparation method (No.10-1601237)

Improved functional cosmetic composition containing '**Lespedeza cuneata G. don LPC extract**' (No.10-1543461)

Raw material growing farm & Patented ingredients

A raw material Production Site

Pohang in KOREA / 550m elevation

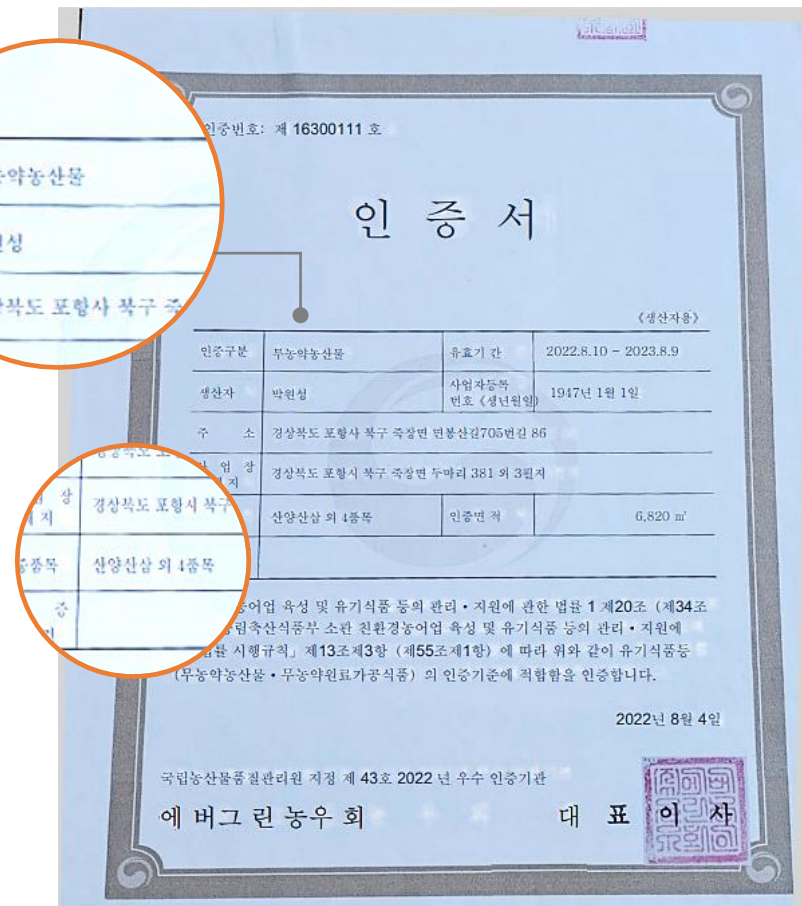

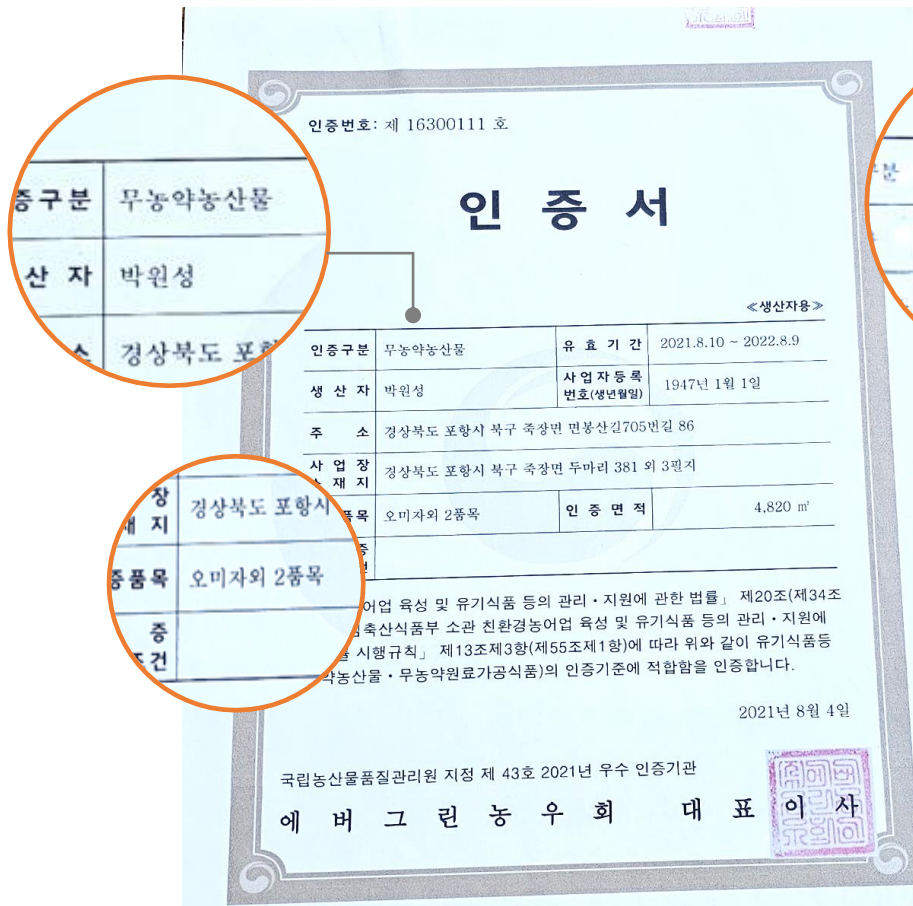

Mountain Farm | POHANG-City in KOREA

Blog Site : <https://tkswndshddnjs.tistory.com/>

Organic natural ingredients supplier

Located in the alpine area of Pohang in Korea, over 550m above sea level, it has **organic (pesticide-free) agricultural harvest certification**. As **a self-run farm of Soriso**, natural organic harvests are **cultivated and processed directly** and used as ingredients for cosmetics

Harvest | Let's Together

■ *Perilla frutescens* var. *acuta*. | Shampoo's main ingredient

Atopy prevention, mitigation, and treatment effects

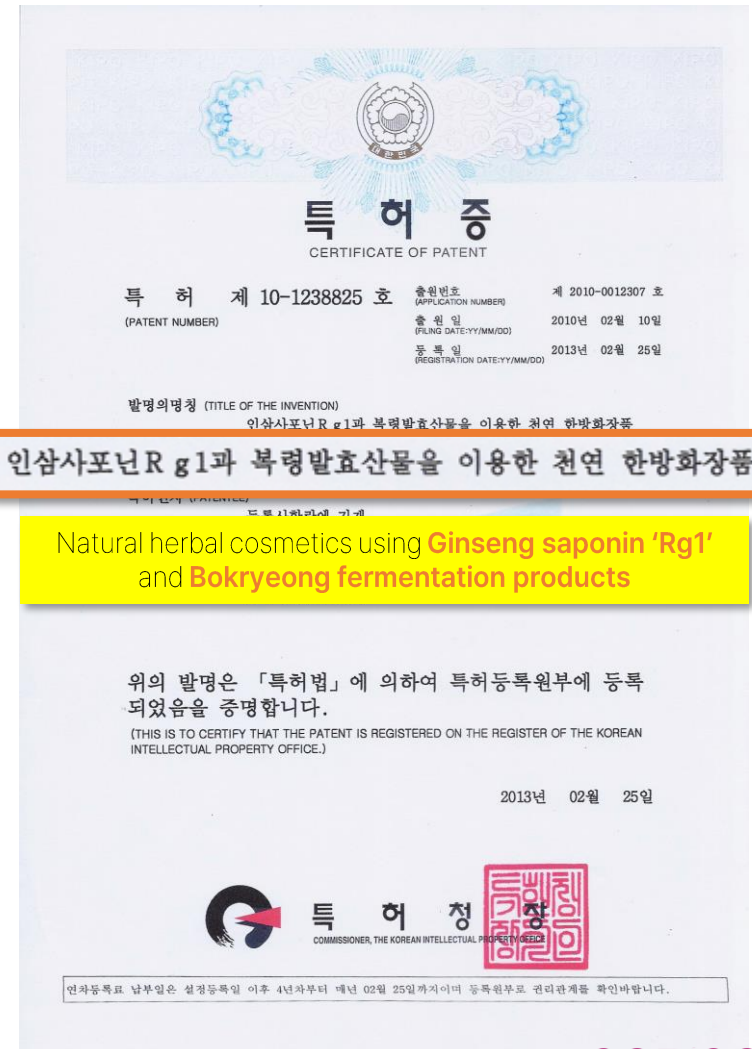

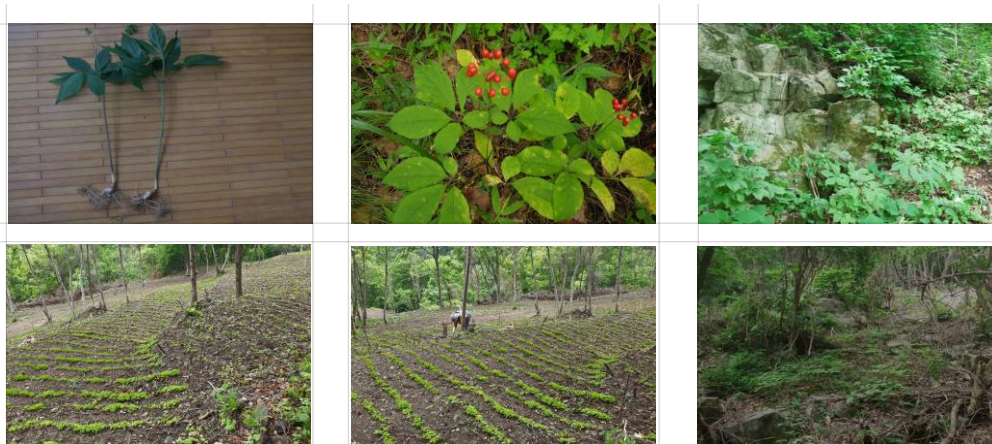

■ Patent material (Panax Ginseng)

It **expands blood vessels to the skin** to provide sufficient nutrients, and through **antibacterial and antioxidant effects**, it is excellent in **preventing skin problems** and **preventing aging**.

Panax Ginseng

■ Patent material (Lespedeza cuneata G.Don)

Excellent anti-aging effects by regenerating collagen fibers, antioxidant effects, and improving skin wrinkles

아관문LPC 추출물을 함유하는 피부광노화 개선기능성 화장품 조성물

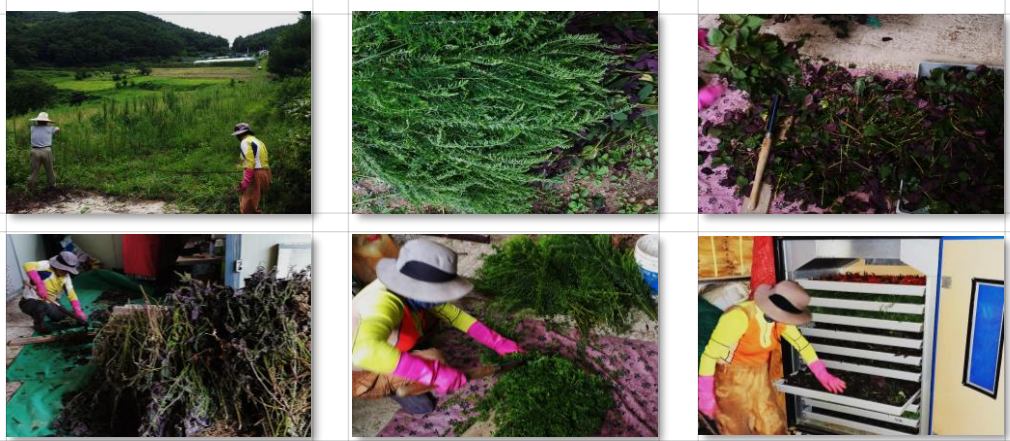

Improved functional cosmetic composition containing
'Lespedeza cuneata G.Don LPC Extract'

Special-Ingredients

**Graphene | Beta-glucan | Curcumin
Peptide | Hibiscus Manihot Jinhuaakui | PDRN**

Graphene DDS (Graphene I Drug delivery system)

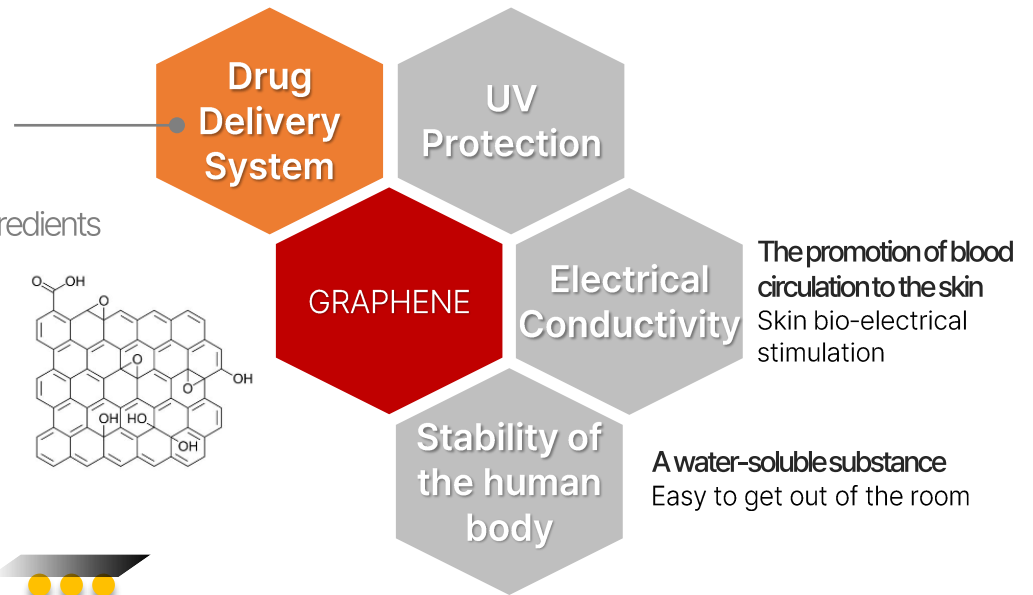

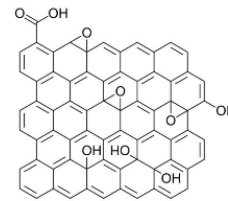

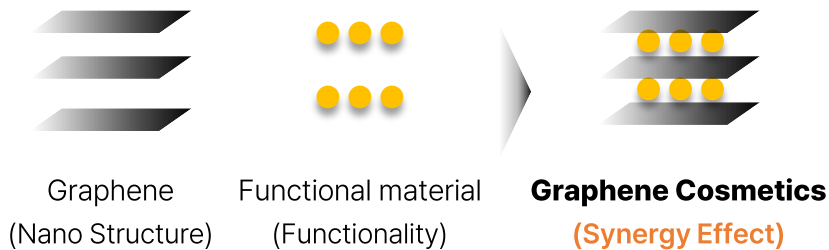

It is a new material in the form of high-molecular carbon allotropes and is **recently in the spotlight in the cosmetics field among the bio fields**, used as a material to help the skin for the purpose of **improving the delivery and absorption rate of active ingredients**

Graphene boosting effect

The active ingredients absorbed into the skin is **Only 1%**

DDS(Drug delivery system) Effect of graphene increases the skin delivery and absorption of natural active ingredients

Structure of Graphene Cosmetics

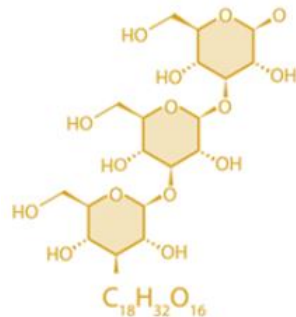

Beta-glucan

It is one of the cosmetic ingredients that has been used for a long time, and it is **a natural ingredient** found in oats, barley, bread, yeast, mushrooms, and seaweed, and is **effective for dry skin, eczema, and atopic dermatitis**

Beta-Glucan Produces **EGF** and **Collagen**
EGF has **a hydrating effect** on the skin
Collagen forms a protective layer.

Activation of normal cell immune function
and **creation of new cells** in humans

Skin protection | Anti-aging | Soothing effects

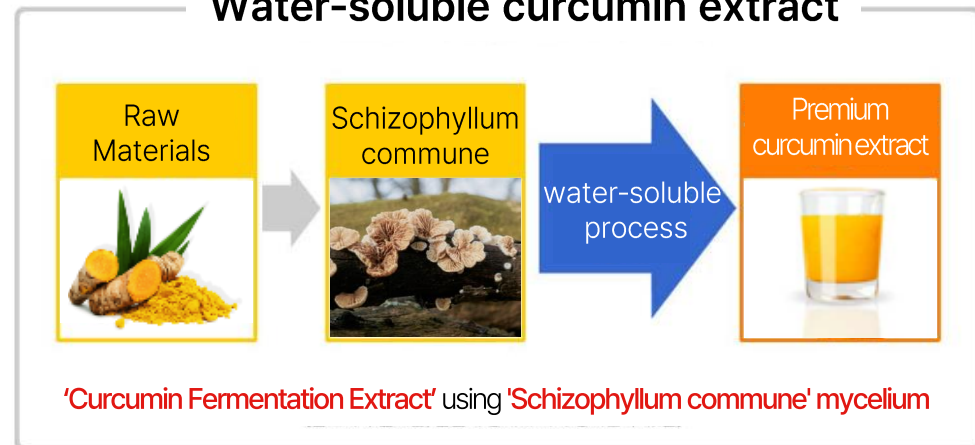

Skin care (healing/soothing/anti-inflammatory) | Antibacterial (antiviral)

Curcumin

It is a **natural ingredient extracted from the root of turmeric** and has a bright yellowish brown color, which has long been used as a spice in food and a raw material for tea, and has recently been in the spotlight **as a raw material for natural cosmetics**. It is excellent in **moisturizing** and **applying**, especially in **relieving skin irritation**.

Water-soluble curcumin extract

Skin protection | Anti-aging | Soothing effects
 Skin care (healing/soothing/anti-inflammatory)
 Antibacterial (antiviral)

Bacteriostatic Action

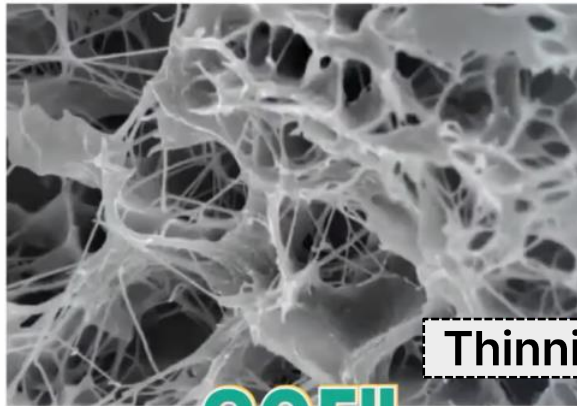

Suppression of the development and proliferation of harmful bacteria that cause skin problems

[Effectiveness in alleviating facial flushing symptoms]

Collagen

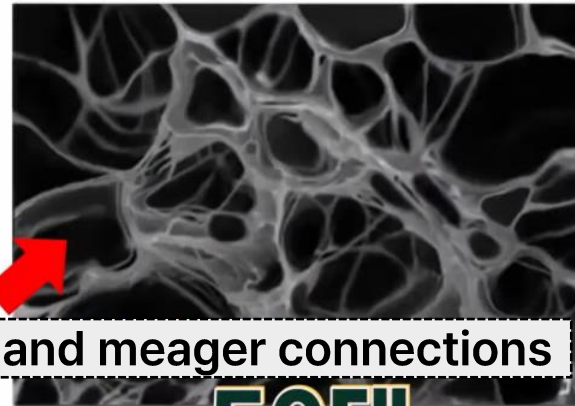

It is an important component that accounts for a third of the proteins that make up our body, and it is **the main component that makes up the dermis of the skin, accounting for 75% of the dry weight of the skin and acting as a protective film on the skin.**

Collagen under a Microscope

20대

20's generation

50대

50's generation

Thinning and meager connections

Considering the many advantages of collagen products, plant collagen, which has a smaller molecular weight, a higher absorption rate than animal collagen, and is free from **marine pollution problems such as microplastics in fish collagen, has begun to be studied**

1st Animal Collagen

Animal collagen, which mainly used pig skin, was developed and released first among collagen products and was loved a lot. However, the use of the raw material itself is gradually decreasing due to difficulties in absorption and virus problems such as foot-and-mouth disease due to its large molecular weight.

2nd Fish Collagen

It has been in the spotlight for its molecular weight less than animal collagen as a collagen component extracted from fish. However, its use is gradually decreasing due to the problem of containing a large amount of synthetic additives to remove odors unique to fish collagen, microplastics caused by marine pollution, and the deposition of heavy metal in fish.

3rd Generation Collagen

3rd generation Collagen

Vegetable collagen | Vegan

Carrots, sesame seeds, rapeseed, and canola seeds are being studied, and **plant collagen rich in Hibiscus Manihot Jinhuaakui** leaves, which have recently begun to be grown in Korea, is in the spotlight. 30% of Hibiscus Manihot Jinhuaakui is a vegetable protein and plant collagen ingredient, and it is **a highly water-soluble raw material with a very high absorption rate.**

Carrot

Sesame

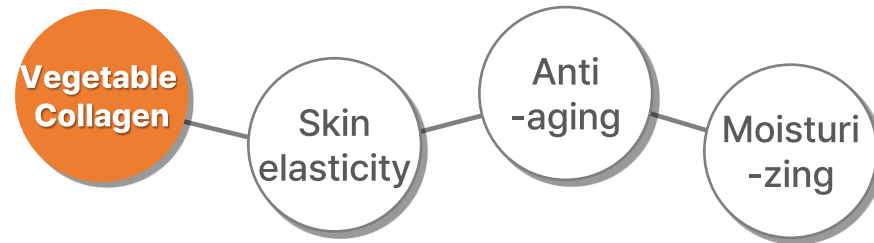

Rape flower
Canola seed

Hibiscus Manihot Jinhuaakui

Vegetable Collagen I Hibiscus Manihot Jinhuakui

It contains abundant vegetable collagen, is an excellent natural moisturizer, and is rich in collagen and various amino acids, which are very effective in improving skin elasticity, preventing aging, preventing skin damage, and maintaining moisture

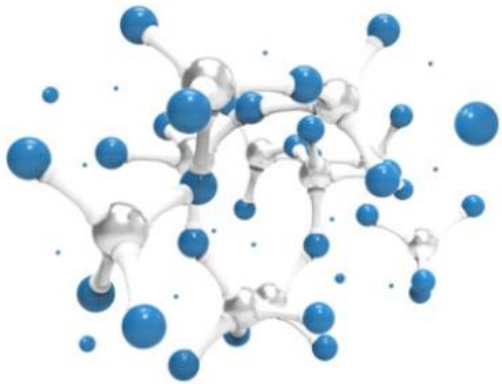

Contains a large amount of ingredients that are effective for skin beauty such as polyphenols, flavonoids, oleic acid, palmitic acid, betaine, linoleic acid vitamin E, and selenium

- ☑ Hypoallergenic | Soothing sensitive and sensitive skin
- ☑ Activation of fibroblast growth | Effective for cell and tissue regeneration
- ☑ Rich in plant collagen | Skin elasticity
- ☑ Smooth & Glossy skin

Low-molecular Collagen (Peptide)

It helps to combine proteins that make up the skin and is **effective in preventing skin aging, improving wrinkles, supplying moisture, and whitening**

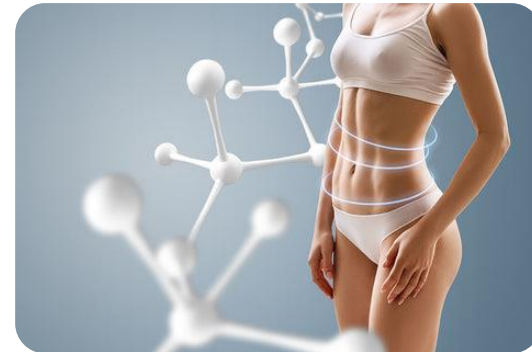

Peptide?

Peptides are **part of a small protein made up of a substance called alpha amino acids** and are a substance in which two or more amino acids are combined.

'Protein' along with collagen and elastin, is a fundamental component of our skin.

Efficacy | Effectiveness

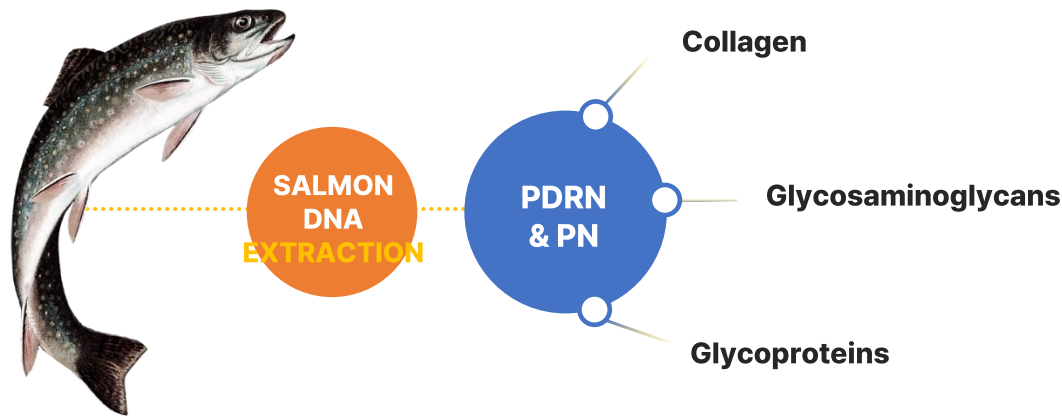

Even if it is absorbed by the skin, it does not accumulate and is absorbed into proteins, so **it has high stability.**

Unlike general collagen and Botox, it has a great effect even if it is applied to the epidermis, and it is excellent in effect without side effects among existing **wrinkle improvement** ingredients, and has a **moisturizing effect** because it combines with water.

Raw-PDRN (raw Polydeoxyribonucleotide)

PDRN is a regenerative material extracted from salmon semen and has a **DNA structure that is 95% similar to the human base composition**. And there are **no side effects** when administered to the human body, and it has excellent efficacy in **regenerating** and recovering the human body such as **skin regeneration, anti-aging, and hydration**

PDRN (Polydeoxyribonucleotide)

A regenerative substance that extracts DNA fragments from salmon's germ cells

- ✓ Excellent for skin **regeneration**
- ✓ Excellent effect on **anti-aging**
- ✓ **Improvements such as wrinkles, scars, and scratches on the skin of the face**
- ✓ **Whitening effect** and youthful complexion

PDRN·PN to help regenerate and recover the human body

The domestic pharmaceutical and bio industries are also increasingly interested in the PDRN and PN markets, which help regenerate and recover the human body. PDRN and PN are evaluated as 'blue ocean' in that they can be used in various fields such as pharmaceuticals, medical devices, and cosmetics.

PDRN and PN are regenerative materials obtained by extracting DNA fragments from germ cells (solid and testis) of salmon. The ingredient name of PDRN is polydeoxyribonucleotide, and the ingredient name of PN is polynucleotide.

The amount of semen that can be collected per salmon is 10 to 15 ml, and 80 to 100 grams in testis. It is only a trace amount, but a 1 kilogram of semen is required to produce about 5,000 vials of products. Salmon do not activate germ cells in the sea. It is said that to get raw materials, one needs to catch them during the spawning season or when going back a river.

■ Distinction (PDRN / PN)

PDRN / PN

PDRN(PolyDeoxyRiboNucleotide) ?

—
PDRN is a substance extracted from the semen of salmon.

It is used as a raw material for pharmaceuticals and cosmetics.

PN(PolyNucleotide) ?

—
PN is a substance extracted from the testis of salmon.

It is used as a raw material for medical devices.

It is **10 times** more effective in skin regeneration and wrinkle improvement than general collagen

■ PDRN / PN

	PDRN	PN
Extraction Location	Semen	Testicle
DNA Structure	Single stranded	Double stranded
Permission Parts	Medicines, Cosmetics	Medical Devices
Field of Application	Tissue regeneration, Inflammation relief, Wound treatment	Wrinkle improvement Arthritis treatment
Concentration	0.5 / 1 / 2%	2%
Molecular Weight	100-300 Dalton	500-700 Dalton

* PDRNs are lower molecules than PNs and are characterized by a single strand.

* Most people misunderstand PN as PDRN.

■ PDRN | Field of Application

It is a substance extracted from salmon semen (Testis of salmon) and is **'similar to human DNA'**

PDRN is an excellent tissue regeneration promoter and is used as a medicine for various tissue regeneration such as burns, skin regeneration after skin transplantation, and ligament regeneration

Use not only pharmaceuticals but also **cosmetics (tonors, ampoules, anti-aging, mask packs, etc.)** for various skin improvements

■ PDRN | Field of Application

리주란 힐러란??

피부 진피층을 타겟으로 해서 촘촘하게 성분을 주입함으로써 피부를 재생하는 능력을 높이고 피부 내부의 세포를 깨워주면서 손상된 피부 조직을 재생하는 효과를 발휘합니다.

- 손상피부 회복
- 유수분밸런스 조절
- 피부보호막 재생
- 잔주름 완화
- 안티에이징 효과
- 피부탄력 개선

시술설명 연어의 비밀, 리주란 힐러

건조함과 탄력 손실에 리주란 힐러의 효능

리주란힐러는 연어에서 추출한 폴리뉴클레오티드(PN)를 피부에 주입하여 피부 자가 재생 능력을 활성화시키고, 피부 속 환경을 근원적으로 개선해주는 스킨부스터 시술입니다. 이 시술은 특히 겨울철 피부 건조함, 탄력 손실, 미세주름 개선에 도움을 주어 건강하고 탄력 있는 피부로 가꾸는 데 효과적입니다.

리주란힐러

- 주름 개선을 원하시는 분
- 피부 탄력을 높이고 싶으신 분
- 속 피부를 건강하게 만들고 싶으신 분
- 얇은 피부, 모공 개선을 원하시는 분

재생 특화 성분인 PN을 피부 속까지 전달해 손상 피부 개선과 피부 탄력 개선을 기대할 수 있습니다.

Basic Cosmetics

PDRN Ampoule | PDRN Cream | All-in-One Essence | Facial Mist

■ PDRN AMPOULE

Soriso PDRN Ampoule contains PDRN (salmon DNA extraction) with excellent skin regeneration ability and Saponin (Rg1), a natural plant extraction ingredient, to help improve whitening & wrinkles, soothe skin and stabilize skin.

- **Volume** | 50 ml
- **Effects** | Anti-wrinkle, Anti-aging, Skin moisturizing, Skin soothing, Whitening, Skin elasticity, Skin regeneration
- **Key Ingredients** | PDRN, Adenosine, Niacinamide, Hyaluronic acid, Vitamin E, Peptides, Graphene oxide, Marine Collagen, Panax Ginseng Leaf/Stem Extract, Hedychium Coronarium Flower/Leaf/Stem Extract, Lespedeza Cuneata Extract, Perilla Frutescens Leaf Extract
- **How to use** | Apply an appropriate amount of this product on your skin to absorb it.
- **Features**
 - Skin elasticity and regeneration effects by 'PDRN (salmon DNA)' similar to human DNA structure
 - Skin elasticity and regeneration effect by 'graphene' and 'peptide'
 - Anti-wrinkle and anti-aging effect through antioxidant action by 'saponin' component of mountain ginseng (Rg1)
 - Whitening, skin regeneration, nutrition, and skin trouble improvement effects of 'Adenosine' and 'Niacinamide'
 - Moisturizing effect of 'Hyaluronic acid' to maintain moisture balance
 - Vitamin-E derivatives inhibit cell damage caused by overexposure to UV rays

■ PDRN CREAM

Soriso PDRN Cream contains natural ingredients, collagen, and PDRN (salmon DNA extraction), which helps to lighten and improve wrinkles and make the skin more elastic.

- **Volume** | 50 g
- **Effects** | Anti-wrinkle, Whitening, Skin regeneration, Skin elasticity, Impurities removal, Skin soothing
- **Key Ingredients** | PDRN, Allantoin, Adenosine, Niacinamide, Betaine, Vitamin E, Peptides, Graphene Oxide, Marine Collagen, Panax Ginseng Extract, Lespedeza Cuneata Extract
- **How to use** | Take an appropriate amount of this product, spread gently over the entire face, and pat lightly to absorb
- **Features**
 - Skin elasticity and regeneration effect by 'PDRN' (salmon DNA) similar to human DNA structure
 - Promotion of herbal medicinal effects by 'Drug Delivery System (DDS)' of 'Graphene' (anti-wrinkle and anti-aging effects)
 - 'Adenosine', 'Niacinamide': whitening, skin regeneration and nutrition
 - Skin elasticity and skin regeneration effect by natural plant collagen ingredients

■ All-in-One ESSENCE (Multi-Essence)

Soriso All-in-One Essence is 'richly nourished with the finest natural ingredients to create a protective barrier on the skin, leaving it firm and strong against external aggressors. The light, non-greasy formula moisturizes the skin while the patented, highly concentrated herbal extracts intensively nourish the skin, leaving it looking vibrant and healthy.

- **Volume** | 100 ml
- **Effects** | Wrinkle improvement, Whitening, Skin soothing, Skin regeneration, Skin elasticity
- **Key Ingredients** | Hyaluronic acid, Vitamin-E, Peptide, Graphene oxide, Marine collagen, Panax Ginseng Extract, Lespedeza Cuneata Extract, Hedychium Coronarium Stem Extract
- **How to use** | After washing your face, apply an appropriate amount to the face as if you are massaging it, and pat it lightly to absorb it.
- **Features**
 - Nutrition supply, wrinkle improvement, and aging prevention effects by the naturally derived active ingredients extracted by the patented method
 - Maintaining moisture balance by moisturizing the skin with Hyaluronic acid
 - Skin Elasticity and Skin Regeneration Effects by Peptide & Collagen Components
 - Vitamin-E : Suppression of cell damage that may result from excessive exposure to ultraviolet rays

■ PDRN FACIAL MIST

Soriso PDRN Facial Mist is a skincare product that addresses all skin concerns, including whitening, anti-wrinkle, moisturizing, firming, and soothing. moisturized by providing sufficient moisture, and naturally derived plant active ingredients extracted by a patented process deeply nourish the skin, making tired skin elastic and vibrant.

- **Volume** | 100 ml
- **Effects** | Anti-wrinkle, Whitening, Skin Soothing, Skin Regeneration, Skin Firming
- **Key Ingredients** | PDRN, Beta-Glucan, Allantoin, Vitamin-E, Graphene Oxide, Panthenol, Hedychium Coronarium Flower/Leaf/Stem Extract, Perilla Frutescens Leaf Extract, Lespedeza Cuneata Extract,
- **How to use** | After cleansing, spray an appropriate amount of this product all over the face and pat gently to absorb.
- **Features**
 - Anti-wrinkle and anti-aging effect by patented natural plant extract active ingredients
 - Moisturizing and antioxidant effect by natural ingredients 'Allantoin' and 'Vitamin-E' extracted from plants
 - Vitamin-E derivative inhibits cell damage caused by overexposure to UV rays
 - Pore elasticity and regeneration effect by 'PDRN (salmon DNA)' and 'peptide' similar to human DNA structure

OVER-NIGHT PACK

'Soriso Overnight Pack' contains natural ingredients, collagen, hyaluronic acid, and PDRN(salmon DNA extraction),, which provide continuous moisture to the skin to make healthy skin.

- **Volume** | 50 ml
- **Effects** | Anti-wrinkle, Whitening, Skin Soothing, Skin regeneration, Skin elasticity
- **Key Ingredients** | PDRN, Graphene oxide, Beta-Glucan, Allantoin, Adenosine, Panax Ginseng Leaf/Stem Extract , Hedychium Coronarium Flower/Leaf/Stem Extract, Lespedeza Cuneata Extract, Perilla Frutescens Leaf Extract, Abelmoschus Manihot Flower Extract
- **How to use** | At the last step of evening skin care, take an appropriate amount and gently spread along the skin texture. After it is completely absorbed into the skin, sleep on it and wash it off with lukewarm water the next morning.
- **Features**
 - Skin elasticity and regeneration effect by 'PDRN' (salmon DNA) similar to human DNA structure
 - The wrinkle improvement and anti-aging effects from patented natural plant extract active ingredients.
 - Skin moisturizing and antioxidant effects from the natural plant extract ingredient 'Allantoin'.
 - Skin regeneration and nourishment, as well as whitening effects from the ingredient 'Niacinamide'.
 - Contains 'Adenosine', which helps improve wrinkles and skin elasticity.

Facial Mask Sheet & Gel

PDRN Lifting Gel | Facial Mask Sheet

■ PDRN LIFTING GEL

Soriso PDRN Lifting Gel is a premium care gel that is effective in improving wrinkles, whitening, and anti-aging. Light and transparent gel provides moisture without stickiness. The active ingredients of selected natural ingredients help moisturize and nourish the skin, soothing the skin and making clean and clear skin.

- **Volume** | 6 ml × 5 EA
- **Effects** | Wrinkle improvement, Whitening, Skin soothing, Skin regeneration, Skin elasticity
- **Key Ingredients** | PDRN, Panthenol, Allantoin, Adenosine, Graphene Oxide,, Niacinamide, Beta-Glucan, Hedychium Coronarium Extract, Abelmoschus Manihot Flower Extract, Morus Alba Bark Extract, Chrysanthemum Indicum Extract, Acanthopanax Sessiliflorus Bark Extract, Perilla Frutescens Leaf Extract
- **How to use** | After washing your face, apply this product evenly on your face, wait for it to dry for 10 to 15 minutes, and then rinse thoroughly with water after lifting.
- **Features**
 - Skin elasticity and regeneration by 'PDRN (salmon DNA)' similar to human DNA structure
 - Hypoallergenic (slightly acidic: Ph±5.5) balancing maintains skin condition and moist skin moisture film
 - Increased delivery of active ingredients into the skin using 'Graphene's 'Drug Delivery System (DDS)'
 - Wrinkle improvement effect using patented natural plant extract active ingredients
 - Skin moisturizing and antioxidant effect due to 'Allantoin', a plant-derived natural ingredient
 - Nutritional supply and whitening by Arbutin ingredient

■ FACIAL MASK SHEET

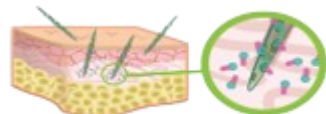

Soriso Facial Mask sheet is a skin care product that solves all skin problems such as improving skin texture, providing skin elasticity and soothing skin. It moisturizes the skin by providing sufficient moisture, and the natural plant active ingredients extracted by the patented method nourish the skin deeply, making the tired skin elastic and vibrant.

- **Volume** | 32 ml × 5 EA
- **Effects** | Hydration, Wrinkle improvement, Whitening, Skin soothing, Skin regeneration, Skin elasticity
- **Key Ingredients** : Panax Ginseng Extract, Cornus Officinals Fruit Extract, Paeonia Albiflora Root Extract, Allantoin, Betaine, Hyaluronic Acid
- **How to use** | 1) After washing & clean your skin with makeup water, take out the sheet and spread out the folded part. 2) Adjust the sheet from the eyes and nose, and rest after sticking to the entire face.
• 3) Remove after 15 to 20 minutes and lightly absorb the remaining liquid with your fingers.
- **Features**
 - Panax Ginseng Extract contains saponins(Rg1) that act as moisturizers, making skin glow.
 - Cornus Officinals Fruit Extract provides skin with elasticity.
 - The protein content of Paeonia Albiflora Root Extract nourishes skin that has become rough from stress and free radicals.
 - Allantoin soothes sensitive skin.
 - Betaine and hyaluronic acid enhance moisturization, leaving skin feeling hydrated and healthy.

GRAPHENE SHAMPOO

A rich supply of nutrients to the scalp and hair

Natural ingredient medicinal effects
+ Graphene DDS effects

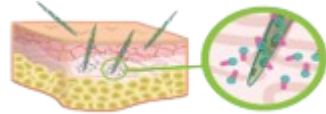

Maintain moisture after shampooing Regeneration of scalp protective film

'Soriso Graphene Shampoo' contains Graphene oxide and patented, highly concentrated extracts of natural ingredients and the active ingredient Saponin 'Rg1' to richly nourish the scalp and hair, remove build-up to improve scalp health and leave hair soft and shiny.

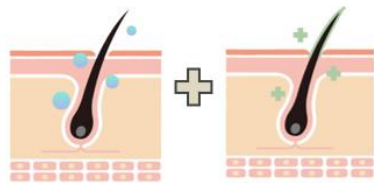

- **Volume** | 500 ml
- **Effects** | Nourishment, Scalp Care, Hair-Reinforcement
- **Key Ingredients** | Graphene Oxide, Betaine, Glycerin, Butylene Glycol, Perilla Frutescens Leaf Extract, Houlttuynia Cordata Extract, Panax Ginseng Root Extract, Olea Europaea(Olive) Fruit Oil, Oryza Sativa (Rice) Bran Oil, Dexpanthenol, Astragalus Membranaceus Root Extract, Rehmannia Chinensis Root Extract, Angelica Gigas Root Extract, Scutellaria Baicalensis Root Extract, Coptis Chinensis Root Extract, Phellodendron Amurense Bark Extract
- **How to use** | After wetting the hair and scalp thoroughly with lukewarm water, apply a suitable amount, massage evenly over the scalp and rinse thoroughly.
- **Features**
 - Contains 12 or more highly concentrated eco-friendly natural ingredients extracted by a special method
 - Promoting the medicinal effects of natural raw materials through the 'Drug Delivery System (DDS)' of 'Graphene'
 - Maintaining oil-water balance of scalp/hair by panthenol ingredients
 - No harmful ingredients suspected of skin

■ PDRN SHAMPOO

A rich supply of nutrients to the scalp and hair

Natural ingredient medicinal effects
+ Graphene DDS effects

Maintain moisture after shampooing Regeneration of scalp protective film

'Soriso PDRN Shampoo' contains PDRN (Salmon DNA Extract), Graphene and patented, highly concentrated extracts of natural ingredients and the active ingredient Saponin 'Rg1' to richly nourish the scalp and hair, remove build-up to improve scalp health and leave hair soft and shiny.

- **Volume** | 500 ml
- **Effects** | Nourishment, Scalp Care, Hair-Reinforcement
- **Key Ingredients** | PDRN, Betaine, Graphene Oxide, Glycerin, Butylene Glycol, Perilla Frutescens Leaf Extract, Houttuynia Cordata Extract, Panax Ginseng Root Extract, Olea Europaea(Olive) Fruit Oil, Oryza Sativa (Rice) Bran Oil, Dexpanthenol, Astragalus Membranaceus Root Extract, Rehmannia Chinensis Root Extract, Angelica Gigas Root Extract, Scutellaria Baicalensis Root Extract, Coptis Chinensis Root Extract, Phellodendron Amurense Bark Extract
- **How to use** | After wetting the hair and scalp thoroughly with lukewarm water, apply a suitable amount, massage evenly over the scalp and rinse thoroughly.
- **Features**
 - Contains 12 or more highly concentrated eco-friendly natural ingredients extracted by a special method
 - Promoting the medicinal effects of natural raw materials through the 'Drug Delivery System (DDS)' of 'Graphene'
 - Maintaining oil-water balance of scalp/hair by panthenol ingredients
 - No harmful ingredients suspected of skin

■ FEMININE WASH

'Soriso Mild Feminine Wash' contains saponin (Rg1), a natural vegetable extraction ingredient, to provide abundant nutrition to the skin and help care for sensitive Y-zone healthily and cleanly.

- **Volume** | 100 ml
- **Effect** | Y-Zone Cleansing, Odor Care, Moisturizing, Skin soothing
- **Key Ingredients** | Allantoin, Graphene Oxide Niacinamide, Panax Ginseng Root Extract, Hedychium Coronarium Flower/Leaf/Stem Extract, Lespedeza Cuneata Extract, Abelmoschus Manihot Flower Extract, Houttuynia Cordata Extract, Portulaca Oleracea Extract, Eucalyptus Globulus Leaf Oil
- **How to use** | Take an appropriate amount of this product into your hand, gently clean the Y-zone area, and rinse thoroughly with lukewarm water
