

## REASONS FOR CHOOSING MAGNETPAINT:

- A safe, environmentally friendly product that meets international environmental standards and EU directives.
- A water-borne latex paint; no unpleasant odours and easy to apply.
- Achieves the standard (BS EN 71-3: 1995) for a child-friendly paint.
- May hold up to 20 sheets of paper with one magnet (29 mm neodymium).
- Can make every surface 'magnetic'. Can also be used on plastic and wood.
- Can be painted over with any paint or colour.
- Can be easily used under SketchPaint whiteboard paint from MagPaint.

## MAGNET PAINT FROM MAGPAINT: PAINT WITH THE POWER OF ATTRACTION!

Explore the endless possibilities of **MAGNETPAINT** for home, work, shops or at school. Make use of surfaces you do not currently use in a totally new way; everyone can be creative with **MAGNETPAINT**!

### ROUND THE HOME

From a stylish play-wall to a handy scheduling board for the whole family: use **MAGNETPAINT** throughout the home for posters and shopping lists. Hang up theatre tickets, drawings and photographs. Make pictures on the walls with magnetic crafts such as trees, cartoons, castles or animals. Anything goes!

### IN THE WORK PLACE

Do you have a presentation to make? Do you understand your projects? Put your schedule on the wall! With **MAGNETPAINT** from MagPaint, it is a breeze. Show or organize your work on the wall and make information accessible to everyone. You can even hang 3D objects on the wall.

### FOR SCHOOLS

Hooray! Hazardous drawing pins and sticky tape can be finally be disposed of. All those tasks, drawings, paintings, sketches and pictograms and schedules can now be hung directly on the wall with magnets.

How convenient! Every piece of wall can be utilized. That's great, because what could be more fun than a wall full of do it yourself arts and crafts?

### APPLICATION

1. Stir the Magnet Paint thoroughly.

Use at room temperature. Apply the paint with a short nap roller. A smoother surface will improve the magnetic effect.

2. Apply two or three coats (0.5 litres of paint per m2). Let the magnetic paint dry for at least four hours before applying the next coat. Magnet Paint needs to dry for 24 hours. You can then cover over the magnetic paint with any colour or any type of paint or smooth wallpaper.

**ALL DONE!**

**MAGNETPAINT** from MagPaint is available in tins of 0.5 L, 1.0 L, 2.5 L and 5.0 L.
