GET STARTED

- Gently place the tablet into the Infinite Executive by arranging the 'Tablet Holder Grips' into the corners of your device. The grips are very sturdy and will not damage your device. (to remove your device simply unhook the grips from the corners)

- Place the strap at the back of the case. Magnets will hold it in place so it does not interfere with your viewing.
- Turn the On/Off switch to 'On' (The Bluetooth Indicator light will turn blue for 3 seconds and then switch off. This is just to save battery. Your keyboard is still on)
- Push the connect button (The Bluetooth Indicator light will start to flash)

iOS	1. On your device go to - Settings>Bluetooth 2. Turn Bluetooth On 3. Search for available devices 4. Choose 'Bluetooth Keyboard' 5. You are connected.
Android	1. On your device go to - Settings>Bluetooth 2. Turn Bluetooth On 3. Search for available devices 4. Choose 'Bluetooth Keyboard' 5. You are connected.
Windows	1. On your device go to - Settings>Devices>Bluetooth 2. Turn Bluetooth On 3. Search for available devices 4. Choose 'Bluetooth Keyboard' 5. You are connected.

Note: Some devices will show a 4,6 or 8 digit pairing code on the screen. Simply type this code on your Infinite Executive keyboard and hit 'Enter' to connect. If no code is displayed then you can also try 0000 or 1234.

CHARGING THE KEYBOARD

1. Before first use, we recommend charging the Infinite Executive for a minimum of 6 hours

2. If the Battery Indicator turns red or if your keyboard will not turn on, it is time to charge the keyboard.

3. Connect the keyboard to a computer/ wall outlet with the USB Charging Cable.

4. Your keyboard is now charging.

5. When the light turns off, your keyboard is fully charged. This usually takes around 2 hours.

Note: If you experience any issues with your keyboard (e.g. buttons not working, typing delays or buttons repeating) then please charge your keyboard for 4-6 hours.
