### KNOW YOUR PRODUCT

### GET STARTED

- Place the tablet into the case by arranging the 'Tablet Holder Grips' into the corners of your device. The grips are very sturdy. To remove your device, unhook the clamps from corners.
- Place the strap at the back of the case. Magnets will hold it in place so it does not interfere with your viewing.
- Turn the On/Off switch to 'On' (The power indicator light will turn in green for 3 seconds and then switch off. This is just to save battery. Your keyboard is still on).
- Press the combination of keys FN + C (The Bluetooth Indicator light will turn blue to make the keyboard discoverable and be able to pair the device).

### CHARGING THE KEYBOARD

1. Before first use, we recommend charging the Touchpad Executive for a minimum of 6 hours
2. If the Battery Indicator turns red or if your keyboard will not turn on, it is time to charge the keyboard.
3. Connect the keyboard to a computer/wall outlet with the USB Charging Cable.
4. Your keyboard is now charging.
5. When the light turns off, your keyboard is fully charged. This usually takes around 2 hours.

**Note:** If you experience any issues with your keyboard (e.g. buttons not working, typing delays or buttons repeating) then please charge your keyboard for 4-6 hours.
