The colour palette is calm and muted, with trend pops of noir, olive, rust, amethyst and indigo.

inspiration

Carrara

Carrara marble has been quarried since Roman times in the mountains just outside the city of Carrara in Tuscany, Italy.

The colour palette is soft and sophisticated based on the natural mineral tones of marble with the deep slate grey adding drama.

Carrara

Our new design pays homage to the raw organic nuances within marble enhanced by the rough stone emboss and accented by delicate metallic veins which add a touch of elegance to this organic design.
