

# INTRODUCING OUR ALL NEW SMARTWAND DEER FENCE PROTECTOR

## Features:

- Indestructible under normal use – flexes if hit by vehicle or animal
- Entire body is live – nothing to snap, crack or pop off
- Electrified by hot wire running close to fenceline – held by unique SmartInsulator™
- Easy secure install – insulator locked down with industrial screw
- Super tough double shield insulator – great tracking
- Extends one metre out from fence post
- Protect your deer fence, netting & posts
- Prevent deer from pacing along fenceline
- See our website for installation videos
