

From our simple beginnings in 1977 as a single lane packaging machine designer and manufacturer for coffee, ActionPac has continuously evolved by integrating customer feedback and industry advancements.

After 45 years of innovation, our packaging machines have become the go-to choice for 1 in 3 coffee roasters worldwide.

Introducing the world's best coffee weigh and fill machine - the ultimate solution for weighing and packaging coffee to precise weights.

Our ME109 machine is designed to provide the highest accuracy and speed while ensuring the highest quality of coffee. It is equipped with advanced technologies, including a cutting-edge weighing system and an easy-to-use interface. With its intuitive design, you can weigh and fill your coffee quickly and accurately.

Our machine is also extremely reliable - it is built to last and can handle large volumes of coffee with ease.

- **Standard net-weigh system typically runs up to 1 lb (can go up to 5 lbs with additional kit) whole bean and ground coffee as per sample submitted, at speeds of 10-12 per minute at +/- 1/2% per cycle worst case, 0% average deviation.**
- **All USDA / FDA materials and construction**
- **Actual Resolution:**
.01 oz (small bucket)
.01 lb (large bucket)

MADE IN THE USA
