

### Description

**Fastlock Cleaner 2 is an Industrial hot melt cleaner for removing hardened hot melt adhesive from machine parts, guiderails and other parts, allows for the easy break-down of hot melt and is suitable for use on pressure sensitive adhesives as well as standard packaging adhesives.**

#### Check out the benefits of FastLock Cleaner 2:

- Cut down hot melt cleaning times by softening the glue
- Increase production by cutting cleaning times
- Based on powerful d'limonene cleaner
- Removes solidified deposits of adhesive
- Improve quality by dissolving build-up
- Clean nozzles and other machine parts
