

Description

Our essential range of in-line filters are compatible replacements for Nordson® Saturn® filters and are manufactured to fit Nordson® hot melt glue modules.

Available in straight, 45° and 90°.
Check out the benefits of our filters:

- Compatible replacement for Nordson parts as described below
- Available in following mesh sizes: 50, 100, 200
- Available as straight inline, 45° or 90°
- Improve uptime on your line by capturing debris and carbon before it blocks your nozzles
- Excellent manufacture quality for long lasting use
