about us

all about wefts

Master the art of installing weft extensions. Aka, hand tied, sew in, beaded wefts, whatever you'd like to call it. Raquel Noble, our experienced extension master will take you through every thing you need to know about installing the most seamless wefts. The Noble Lengths weft extension method was created after years of trying method after method. We finally created our own that works seamlessly with our custom micro wefts. After taking this class you will be able to practice, perfect, and precisely install hair leaving your guests happier than ever. We walk through more than just the nitty gritty, pricing, pre/ post care, placement, color matching and the install itself.

where we started

Raquel noble is CEO of all things noble. She has a real passion for creating a calm luxurious environment and delivering that throughout the whole salon experience whether you're a stylist or a guest. at noble salon we go above and beyond by investing in the continuous education and growth on delivering the best hair extension services. Raquel herself has been providing extension services to her guests for years doing various training and experimenting, after years of figuring out what works and what doesn't, noble lengths was born. the hair extension brand has been years in the making along with the methods to the madness, it was about time to shared our knowledge and custom hair to the world. we hope you enjoy our class and discover how great you can truly be.

wefts

step by step

prep:

Fill the looper with silicone lined beads that match your client's root color.
Wash & Blow dry the client's hair smooth and straight.

first row:

- 1 Sectioning- Start 3 fingers above the ear (minimum). Make a section with your rat tail comb, connect in the back just above or on the occipital bone and all the way around to the other side 3 fingers above the ear. Slightly diagonal back but mostly horizontal. Horizontal sectioning in the front, more diagonal as you're going back where the hair can handle that. Tie all the hair up really clean and flat against the head, working with a water sprayer to secure fly aways.
- 2 Start bead work from right to left, small fine rectangle thin sections (vary based on density). Make sure the sections are fully saturated in water for a clean parting. Loop the bead through, *IF THE BEAD HAS A HARD TIME GOING ON THE SECTION YOU'VE TAKEN TOO MUCH HAIR. IF IT SLIPS AROUND, TOO LITTLE HAIR. Clamp the bead in the middle of the section, slightly off base. To check, pull section up and down, make sure there is no tension and it moves easily.
- 3 Complete bead work all around, taking small rectangle sections back to back from each other. When you reach the other side, position yourself above the head, getting a view of where both front beads start and end. Adjust if they're not aligned.
- 4 After completing beading, gently clip all the hair inside the beads upward and out of the way.

wefts

step by step

5

Start at the right side, clip your weft very securely and up to the base of the beads following around the head. If you look closely, there is space between the front section and the bead. Right in the middle is where you want to lay your weft. Clip any hair that's hanging over the other side of the front bead. Take your next weft starting on the left side, do the same thing. Gently let the clipped up hair in beads down, and do the same thing right to left but this time on top of beads. Clip off any excess hair hanging past the front bead.

6

Sewing- string a needle arms length to your heart, clip the string. (Always pick a color string that is matching the base color, when in doubt pick the darker color. At the very front right start of your bead work, take the back of your needle with the string in it and feed it under and through that little space (middle of front of section and bead). Tie off section with wefts in it. 1- double loop, a triple loop, and one more if you want. Cut off the excess string. Next (going under) make sure you go under all 4 wefts and under the bead, grabbing the needle as it comes up and make your loop. Pull UP as you stitch to keep everything tight, the knot should be at the top of the weft. Next you will do the same on the left side of the the bead, then Repeat on each bead, right side of the bead, under bead, left side of the bead, then in-between. When you reach the back the head, stop and clip your string up. Get a new string, repeat steps this time starting on the left side. Work up until you meet in the back, tie the two strings together twice, then make a full knot to secure, cut excess string.

second row:

Sectioning- 2-3 fingers away from part line, or use the recession area as a guideline. Leaving at least 1-2 inches in between the previous section.

Repeat same steps.

wefts

pricing

installation

We recommend starting out at \$150 a row

Haircut & blow dry is charged separately.

If you'd like to include it all start at \$175-\$200/row.

the hair itself

18" hair is \$140/ piece.

Recommended 2-4 pieces per row

22" hair is \$170/ piece.

Recommended 2-4 pieces per row

Whole sale hair (your cost) is \$70 for 18"
and \$85 for 22inch

initial install 22"

one row of extensions:

- 2 pieces for the least amount of extra fullness
- 3 pieces for medium fullness
- 4 pieces for max fullness
- 5 pieces for very thick, we rarely recommend but it is possible

Two rows of extensions:

- 6 pieces for length with minimal to normal fullness (3 on each row)
- 8 pieces for length and thickness, recommended for big length changes or 22inches (4 on each row)

Three rows of extensions:

- 9 to 10 pieces distributed onto 3 rows, recommended 3-4 on each row or 2 on the 3rd top row
- We try and stay away from adding a third row, its a lot of hair and clients do not have an easy time with it.

aftercare

Use recommended sulfate free shampoo.

Hydrate with stylist recommended hair masks + hair oils.

Gently shampoo hair with the pads of your finger tips, make sure to get in between the extensions.

Wash no more than 2-3 times a week.

Double shampoo to properly clean.

Use a heat protectant with hot tools.

Brush hair 2x daily.

Blow dry hair for best results.

Avoid avobenzene sunscreen.

Avoid putting hair extensions in the pool/ocean.

Avoid sleeping with wet hair.

Be gentle with your hair extensions.

Schedule proper maintenance.

stay beautiful, –noble lengths.
