THE PRODUCER

Optimize your production shop floor—the ultra-productive press for on-demand medium-to-long runs.

The Perfect Equation for Label Production

From super simple to creative and complex, label jobs have become more diverse and increasingly difficult to forecast. In the course of a single shift, you need the agility to quickly pivot and cater to the unique demands of any job and any run length. Short turnarounds are now a mandate and workflow efficiency, a must.

With an installed base of thousands of presses worldwide, HP Indigo digital presses and their signature advantages are already redefining the way things work. Consistently reach any color. And do it with the unmatched versatility of media, inks and applications. Step into an ecosystem of tools, support, technology breakthroughs and continuous improvement. It all adds up to a proven formula for the long-term success of your labels business.

Multiply business opportunities

The power of HP Indigo's technology

The perfect equation

Flexo productivity with HP Indigo flexibility

Optimize your entire production floor with a press that provides flexo-level productivity with the advantages of HP Indigo digital printing.

- Meet fast turnaround times with speeds up to 80 linear meters per minute in full color, with a press tuned for mid-to-long runs.
- Streamline digital operations around HP Indigo technology, HP PrintOS[®] workflow ecosystem, ink set, and supply chain.
- Optimize your production floor—run short jobs on the HP Indigo 6K Digital Press, medium-to-long jobs on the HP Indigo 8K Digital Press, and longer, simpler jobs on flexo.
- Minimize complexities, waste, and overhead to deliver eco conscious, with the agility demanded by your market.

Unmatched media and application versatility²

Expand into higher-margin applications with unmatched versatility.² Print everything from pressure-sensitive labels to flexible packaging and shrink sleeves.

- Diversify your business and gain new revenue streams by producing virtually any label or packaging application from pressure-sensitive labels to sleeves, IML, wrap-arounds, and flexible packaging.
- Seize business opportunities with the widest range of specialty inks, including spot colors, fluorescents, and a comprehensive white ink portfolio.²
- Offer high-value jobs with brand protection elements, variable data, and unique designs with HP SmartStream Mosaic and HP SmartStream Collage.
- Easily produce shrink sleeves with high-opacity white, specially designed for sleeves.

The choice of the world's leading brands

Deliver gravure-matching quality to satisfy high brand expectations with HP Indigo liquid electrophotography (LEP) technology.

- Deliver high-resolution, high-quality printing with HP Indigo liquid electrophotography (LEP) technology.
- Hit up to 97% PANTONE[®] gamut on press using CMYK, OVG, and spot colors.
- Enable perfect color registration with HP Indigo One Shot Color technology.
- Count on color consistency and repeatability using automated color calibrations and on-the-fly monitoring.

HP INDIGO 8K DIGITAL PRESS

[1] Food products and packaging are a highly regulated sector, with varying requirements depending on where they are placed on the market. Therefore, converters are reminded to ensure that all materials utilized in the printing process are suited for the intended application and its conditions of use, and that the printing is performed in accordance with Good Manufacturing Practices. HP Indigo compliance with food packaging regulations: FDA, Title 21 of the Code of Federal Regulations for indirect food contact; Swiss Ordinance on Materials and Articles in Contact with Food, RS 817.023.21; EUPIA Guideline on Printing Inks Applied to the Non-Food Contact Surface of Food Packaging Materials and Articles (November 2011); Council of Europe Resolution ResAP (2005/2) for indirect food contact; Nestlé Guidance Note on Packaging Inks, exclusion lists for indirect food contact; German Food Law and Article 3 of the EU framework regulation 1935/2004, for non-food contact. [2] Compared to major digital printing competitors providing narrow-web solutions as of November, 2019.
