

Mobile Standing Desk

Before beginning assembly, ensure that all parts listed are present and undamaged. If any parts are missing or damaged, do not proceed with assembly process and contact customer support.

Assemble the product by following the steps in the provided order. Skipping steps or assembling out of order may result in misalignment or instability.

Begin by loosely inserting screws, leaving them about 80% tight. This allows for adjustments and ensures proper alignment before fully tightening. Fully tightening screws too early may cause alignment issues.

Once parts are aligned, fully tighten the screws to ensure the product's stability and safety.

Assemble the product on a flat, stable surface to prevent parts from rolling or shifting during assembly. A stable surface helps to avoid damage and ensures a safer assembly process.

1.1 Press the toggle switch and position the **Leg (A)** upright.

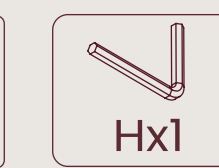

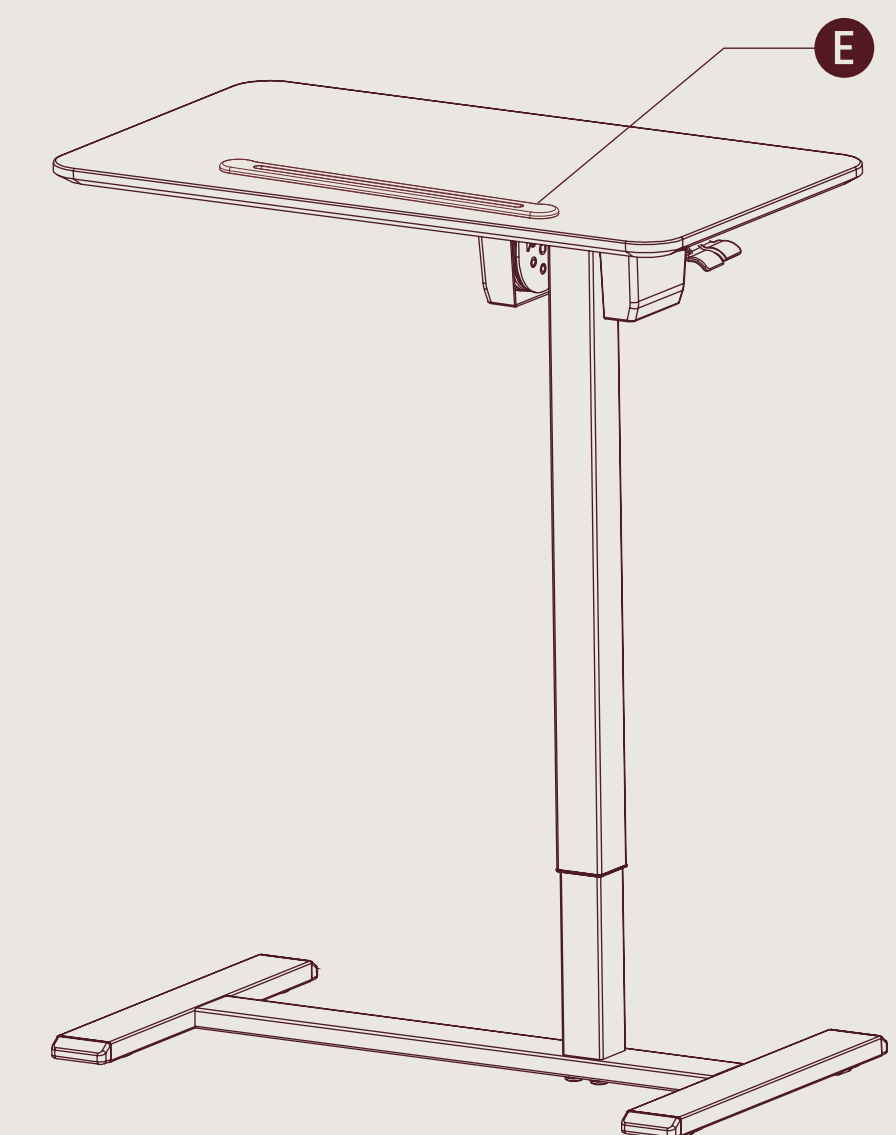

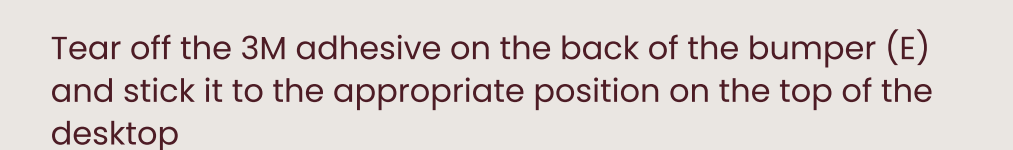

1.2 Slide the **Cover (D)** through the leg and cord 1.3 Make sure the cord is tucked under the **Cover (D)** so that the cover can be secured on the desktop

2.2 Secure the cable with the **Cable Clip (K)** by using a phillips-head screw driver (not included in the package) to tighten the screw into the pre-drilled hole.

Secure the Feet to the Leg using **4 M6*40mm Screws (I)**. Tighten with the **Allen Wrench (I)**.

5 Install The Accessories (Optional)

Ensure that you have the **TopJob ANYDESK Accessory Kit**, specifically designed for ANYDESKs, before proceeding with this installation step.

Parts List:

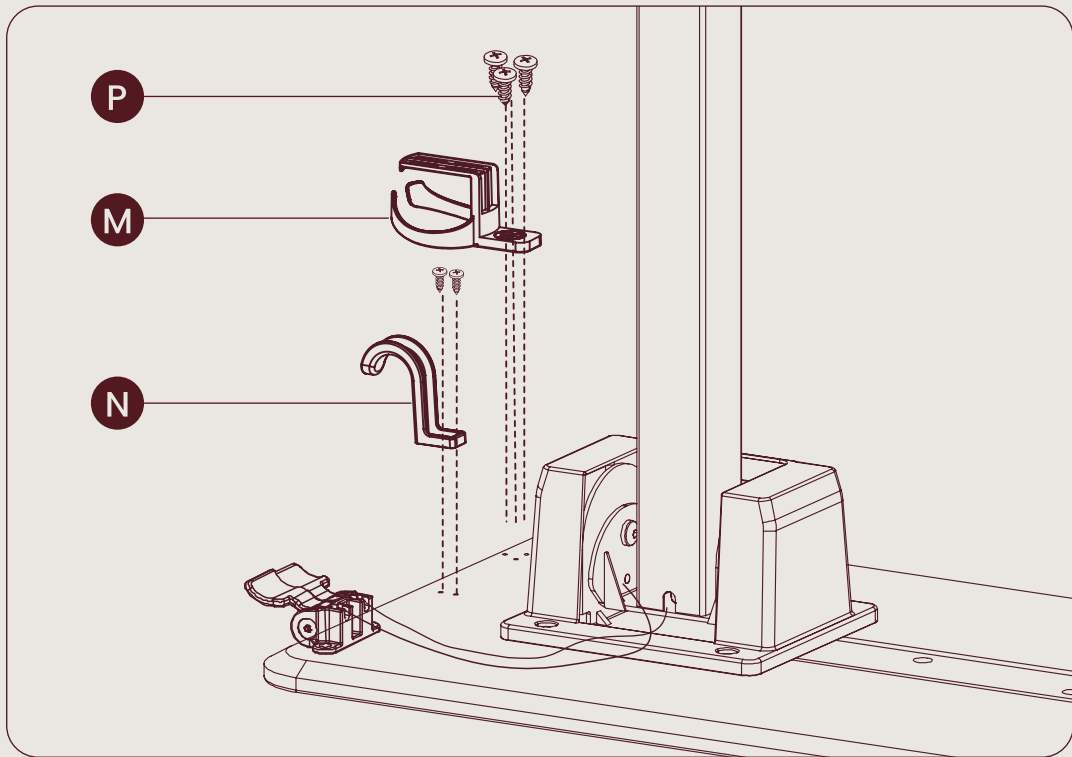

Installation Instructions:

Align the **M – Rotating Cup Holder** and **N – Hook** with the designated sets of holes on the right side, on the back of the desktop. Locate the pre-drilled holes by identifying the small dimples on the desktop surface.

Position the **P – Pointed Screw** in the corresponding hole and securely tighten it using a Phillips-head screwdriver (not included in the toolbox).

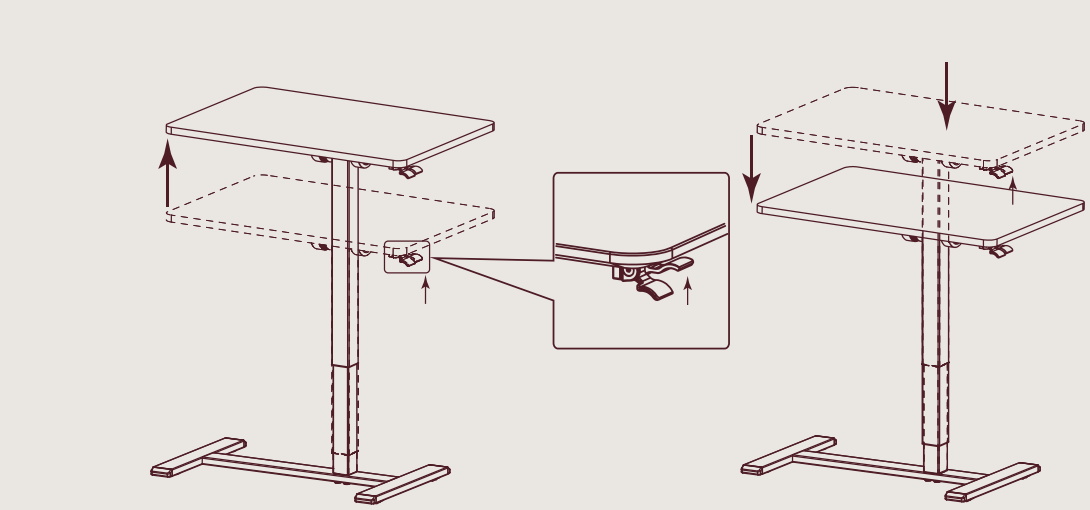

You can purchase the **ANYDESK Accessory Kit** at www.topjob.co/collections/accessories.

Adjustment

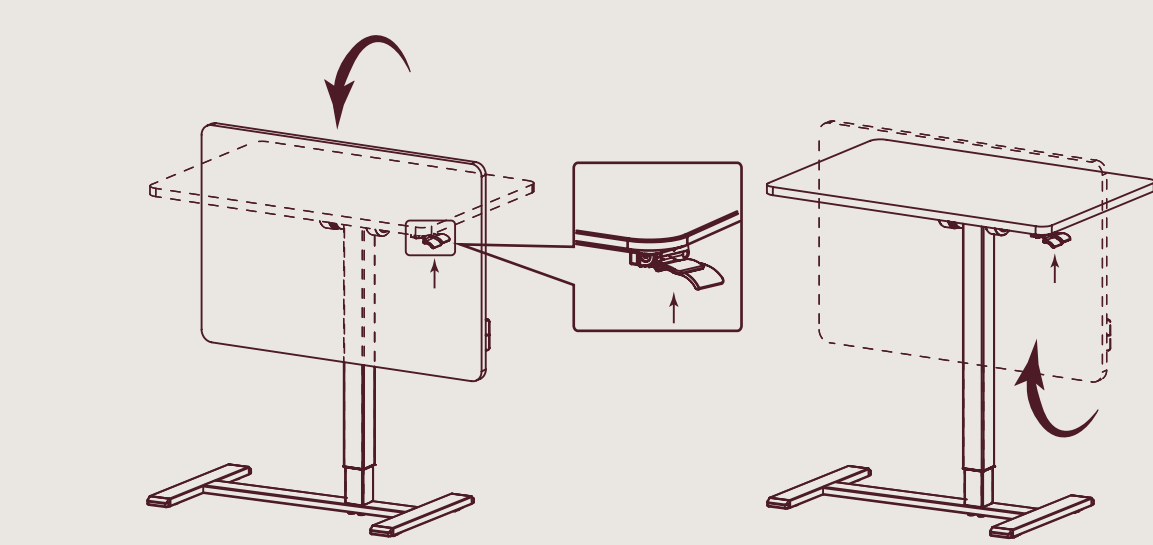

Height Adjustment

Lift the Paddle for lifting the table top.
Lift the Paddle and press the table top for downward operation.

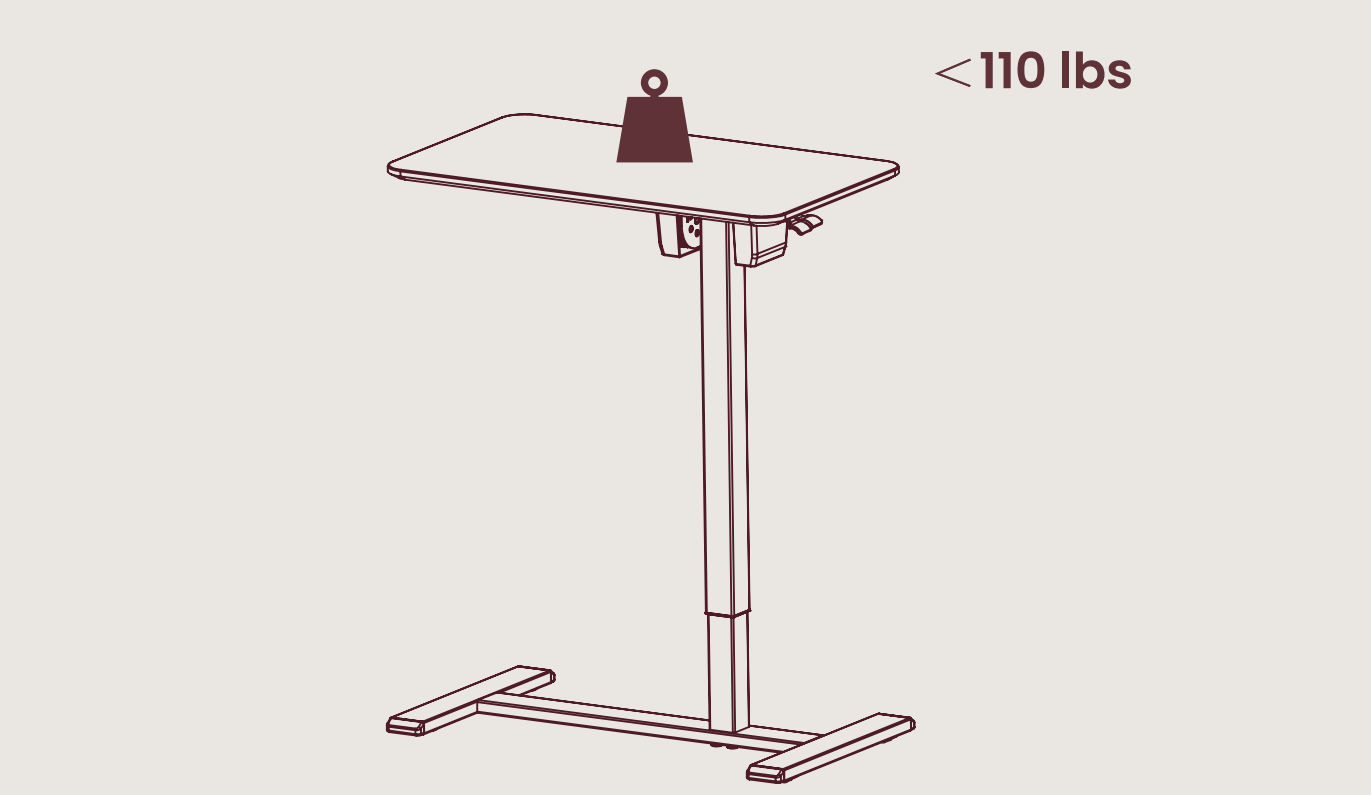

Tilt Adjustment

Press the tilt button to tilt the table surface to 90 degrees.
Attention: There is a risk that objects on the surface may fall when tilting. Before performing this action, ensure the surface is clear of any items that could fall and become damaged.

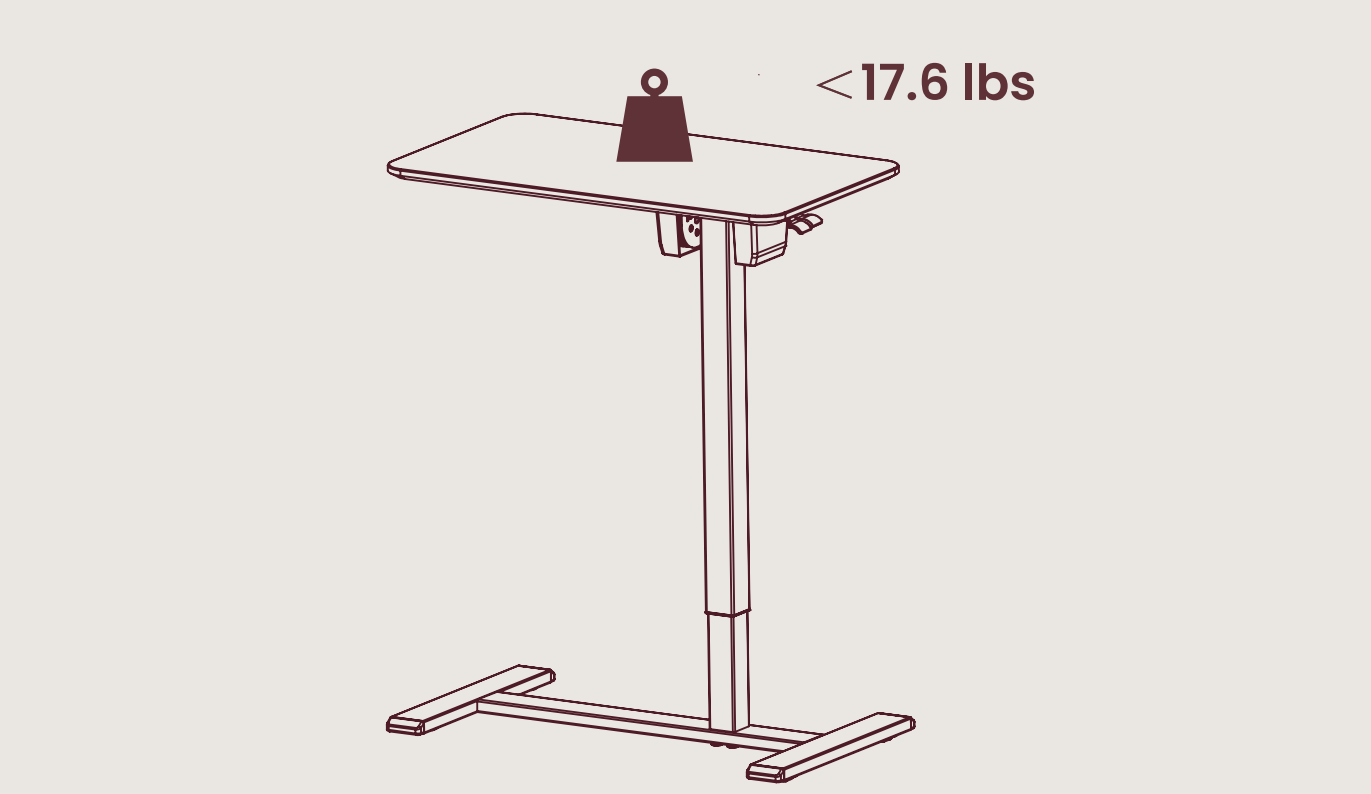

Maximum Static Capacity: 110 lbs

For static use, it is recommended not to exceed a maximum load of 110 lbs on the desk top to ensure stability and long-term durability.

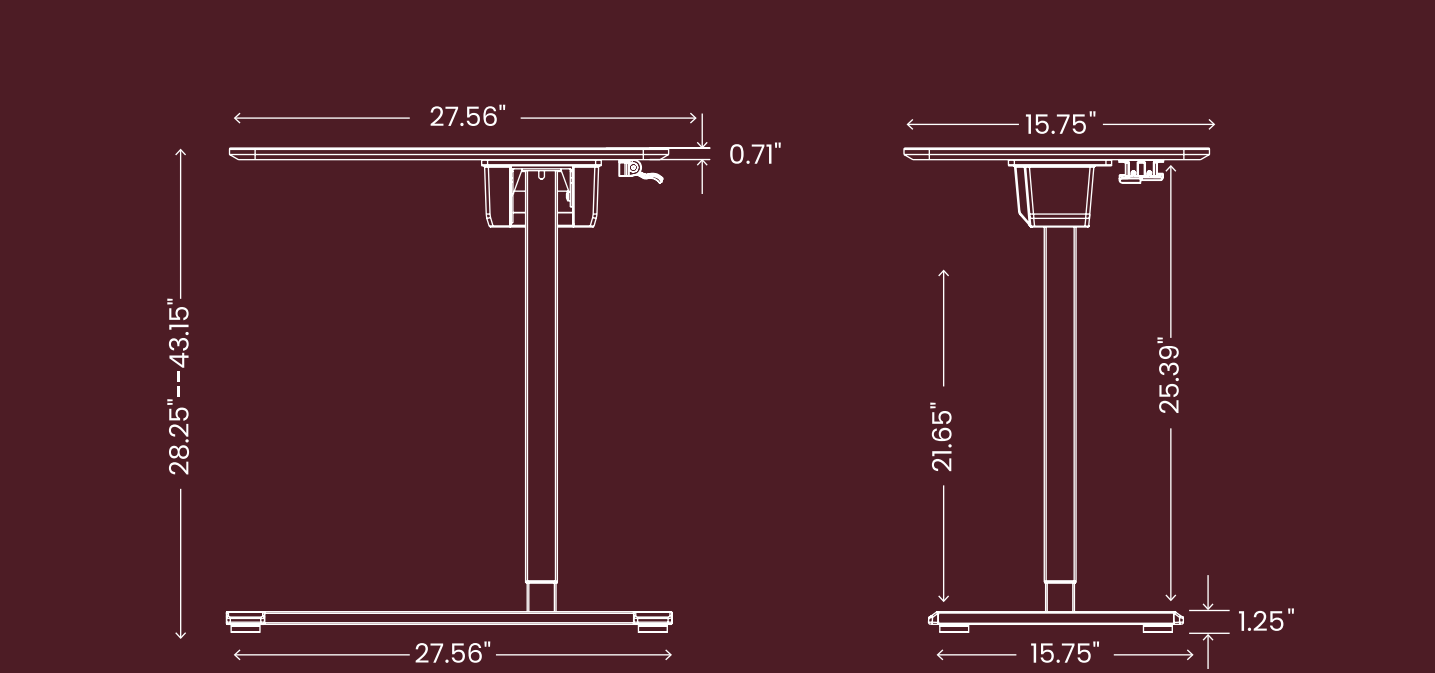

Maximum Dynamic Capacity: 17.6 lbs

It is recommended not to exceed a maximum of 17.6 lbs on desk top to allow for easy lifting.

Specifications

Overall Dimensions	27.56"Lx15.75"Wx28.25–43.15"H
