1.) Rotate rear sight elevation knob to the 8/3 setting, then up (RIGHT) one click past the 300 mark for zeroing at 25 meters.

2.) Aim at target center, adjust sights to move shot group center as close as possible to the white dot in the center of the target.

3.) After completion of the 25 meter zero, rotate the rear sight elevation knob back one click to the 300/800 meter mark. The weapon will be zeroed for 300 meters.
