

# Compatibility With Screen Readers: Apple VoiceOver & NVDA

Apple Inc. • dot ::

## Dot Pad Collaboration with Apple (VoiceOver)

The collaboration between VoiceOver and Dot Pad helps blind and visually impaired users instantly render images and text from iPhone, iPad, or Mac to the Dot Pad. Dot Pad is compatible with iOS 15.2, iPadOS 15.2, etc.

NV Access • dot ::  
Empowering Lives Through  
New Visual Access to Technology

## Dot Pad Collaboration with NV ACCESS(NVDA)

The collaboration between NVDA and Dot Pad made significant progress in accessing images and charts on user's laptop(WindowsOS).

Dot Pad is compatible with NVDA by single installation of add-on software, allowing users to access Microsoft excel data into chart.
