Anti-bacterial Tempered Glass

Tough-PAC® Tablet is a hard shell anti-microbial enclosure and docking system for iPad 7th, 8th, 9th Gen 10.2" and Air3 10.5" designed for use in healthcare or other hygiene sensitive environments.

Tough-PAC® provides all round protection against workplace damage, knocks and fluids, and inhibits or destroys surface contaminating bacteria, fungi, moulds and viruses.

With busy staff in mind, Tough-PAC® has 'Simply-Dock' cradles, multi-docks and VESA wall mounts, removing the need for plugging in cables for routine charge or synchronicity functions - complete flexibility.

These cases include an antibacterial tempered glass screen as standard providing 360º protection against potentially harmful surface contamination.

Tough-PAC® Tablet Cases for iPad add quiet, secure confidence, safety, ease of use, low maintenance and peace of mind.
